IMPORTANT RECALL INFORMATION

Dear <<First Name>> <<Last Name>>,

We are sending you information about Enoxaparin Sodium Injection, 40 mg/0.4 mL that may be valuable to you.

On December 2, 2021, the United States Food and Drug Administration (FDA) published a notice regarding a recall of one lot of Enoxaparin Sodium Injection, 40 mg/0.4 mL NDC # 00781-3246-64 manufactured by Sandoz, Inc. **This recall was issued due to product being stored outside approved temperature ranges during shipment.**

This could be a health hazard or safety risk to plan members who may be using product affected by this recall.

Our records show you may have received a prescription for this product recently from your retail pharmacy.

This recall affects lot number SAB06761A exp. 04/2023.

To see if you have affected product, please check the lot number. The lot number is on the manufacturer's label above the barcode on each syringe. If the product you have is not from the affected lot number, it is not affected by this recall. If your product is from the affected lot, please contact the pharmacy that filled your prescription for further instructions.

You should not continue to use product that is affected by this recall. Please call your doctor right away for advice if you may be using affected product or if you do not know if you used affected product. Your doctor knows your medical history and can tell you what to do next. If you need a prescription for a different drug, please contact your doctor. Additionally, you should contact your physician or healthcare provider if you have experienced any problems that may be related to taking or using this drug product.

If you have questions about this recall, please call Sandoz at 1-800-525-8747 or email qa.drugsafety@sandoz.com. You may also call the U. S. Food and Drug Administration toll-free at 1 888 INFO-FDA (1 888-463-6332) or visit www.fda.gov.
