Questions or Comments for the Town of Plainfield	<p>These are the worse plan drawings I have ever seen. You cannot tell what is going on. Why is a through street taken away from 2 one way streets that the school buses used every day? Also I cannot believe that you would allow so much more traffic in this area given its lack of access to through streets. It is not acceptable that there would be so many more cars on my street...most residents do not have off street parking? Are you going to address that issue. Also unclear is if this is zoned for families. The elementary school is already over crowded and you want to add more? I was under the assumption this area would be a few garden homes and possibly a utility area for the parks department. This looks way too congested (at least what I can make out of it) for dead end streets in a historic part of downtown.</p>
