RE: Royal Transportation DP-22-101 and PP-22-101 Continuance Request

Dear Terry,

As you are aware, the Royal Transportation parcel is currently being served by a private on-site septic system. It has come to our attention that since the use on this property has changed from residential to commercial, the Hendricks County Health Department has requested the sewer be connected to the Town's public sewer along the east side Ronald Reagan Parkway. In effort to coordinate with the County, Town and our Client for a reasonable solution, we would request that the above referenced petitions be continued to the March 6th Plan Commission public hearing.

Sincerely,

A handwritten signature in black ink, appearing to read "Ryan R. Lindley". The signature is fluid and cursive, with the first name being the most prominent.

Ryan R. Lindley
Director of Development
