

PLAINFIELD GOVERNMENT CENTER & PERFORMING AND FINE ARTS CENTER
DIGITAL DISPLAY SIGN
NARRATIVE
1/11/2024

The Master Plan for the Plainfield Government Center & Performing and Fine Arts Center (also know as the Plainfield Civic Center) was previously approved by the Plan Commission. The Master Plan included details for a single sided exterior digital display sign to be located in the southeast corner of the site. The Town intends to amend the Master Plan to allow for a slightly larger digital display than originally contemplated and to shift the location of said sign to the northwest closer to the southeast corner of the building.

The amendment to the Master Plan is needed based on the following.

1. The location of the sign needs to be shifted away from the existing traffic signal cabinet and traffic signal mast arm pole so that the sign is visible.
2. The modules that combine to form the sign are slightly larger than originally contemplated.
3. The dimensions of the sign were adjusted as Hendricks Live! prefers a 1:2 aspect ratio similar to a standard computer monitor for ease of visualizing programming to be displayed on the sign.
