Questions or Comments for the Town of Plainfield	<p>We have lived on Willsey Lane (the actual postal service Willsey Lane) for 45 years and have considered ourselves as Plainfield residents although we do not geographically live within the corporate limits. We receive school, library, emergency services the same as citizens living in the corporate limits. We have watched the expansion of the town boundaries. There was a general belief that I-70 would provide a buffer for southward expansion but apparently that has not been true. The most recent construction projects on the west side of Quaker Boulevard and the current proposed zoning on the east side have radically changed the atmosphere of Guilford Township. Now instead of leaving home and seeing countryside we view concrete warehouses. As being Township residents we are not privy to political decisions by the Plan Commission or the Town Council but must tolerate those decisions. It was believed the acquisition of the airport property by the town would reinforce country atmosphere of the neighborhood except for a 140 acre (not widely publicized) unrestricted area. After seeing the small roadside public hearing notice, we have learned this expansion has been ongoing for years and not just the last month, quietly of course. We are opposed to the rezoning and the area should be maintained as currently zoned and incorporated as an appropriate entry into the proposed Echo Hollow Park,</p>
