RE: **Hendriks IN**, Zoning Plots; Site Name: GN Huntwick Reagan Parkway

To Whom It May Concern:

This map is not a guarantee of coverage and may contain areas with no service. This map reflects a depiction of predicted and approximate wireless coverage of the network and is intended to provide a relative comparison of coverage. The depictions of coverage do not guarantee service availability as there are many factors that can influence coverage and service availability. These factors vary from location to location and change over time. The coverage areas may include locations with limited or no coverage. Even within a coverage area shown, there are many factors, including but not limited to, usage volumes, service, outage, customer's equipment, terrain, proximity to buildings, foliage, and weather that may impact service.

The proposed site is needed to offload capacity from existing sites. The maps also reflect the predicted coverage area that will be offloaded from existing sites and transferred to the proposed site.

Sincerely,

Jessica Maldonado
RF Engineer, Verizon Wireless
