Brief Tax Description: Lot 3 Lawrence Add Bl 16 Pt Lt 2

The goal of this petition is to rezone the property from Residential (R4) to Town Center (TC) to allow the existing home to be used for professional office purposes, while still maintaining a portion of the home as a residential space.

The proposed use is intended to be low-impact, consisting of a quiet, professional office setting that blends naturally with the plans and goals of downtown Plainfield.

No major changes are planned to the structure or overall character of the property. A key priority of this project is to preserve the existing look, feel, and historic charm of the building, so it continues to complement the surrounding area and reflect the pride of the Plainfield community.
