Questions or Comments for the Town of Plainfield	No one that lives in the Sycamore Estates wants this project to happen. If this project turned into a neighborhood that matches the area of Sycamore Estates that would be well received by the public in this area. If the apartment project is approved there is no way that 825 road can support the amount of traffic. When leaving for work in the morning and turning left at the stop light it is near impossible. I almost get hit by another car multiple times a month due to having no opportunity to turn while the light is green and sitting in the middle of the intersection and no one will let you turn after the light turns red. The light at the intersection will have to be redone for the amount of traffic in this area. A second entrance and exit is needed either on 267 or a road needs to be made to let the new area out by Wawa and the warehouses. With the amount of traffic that this area will create there would be an urgent need for side walks through the existing neighborhoods. There are many families that are active on these roads and the traffic will create dangerous conditions where no one will have a safe way to walk, run, or take their pets out. Please consider turning this project down and consider alternatives that align with citizens of Plainfield in that area that have called this place home.
