Questions or Comments for the Town of Plainfield	Dear Members of the Town Commission, I am writing to express strong concerns regarding the proposed 300+ unit apartment complex adjacent to our existing neighborhood. While we recognize the need for diverse housing options, introducing a high-density development of this scale directly into an established, low-density residential area presents severe compatibility issues. A project of this magnitude will inevitably overwhelm our local infrastructure, leading to severe traffic congestion on streets designed for neighborhood traffic, increased strain on municipal utilities, and heightened safety risks for local children. Furthermore, the stark transition from single-family homes to massive multi-story structures threatens to permanently disrupt the quiet character, privacy, and property values of the current residents. We respectfully urge the Commission to reject this proposal in its current form and instead seek a more balanced, appropriately scaled approach to development that protects the integrity of our community.
