Plainfield High School Building Additions Project Narrative

Plainfield Community School Corporation desires to construct three small building additions totaling approximately 35,000 square feet. Per Plainfield's Master Plan ordinance, any building addition greater than 10,000 square feet must be heard by the Plan Commission. The additions will include new classrooms and expansion of existing classrooms. The building exterior is intended to match the existing building materials and colors. Construction is planned for fall of 2023.
