2) Copy the “Trash 2 Presets.zip” folder from this Zip file to the Presets folder located in the Trash 2 Preset Directory and unzip the folder.

3) Open your DAW (or close and restart your DAW if it was open when the "Find Your Sound" folder was copied over) and instantiate Trash 2 on a track. Open the Trash 2 Preset Browser, load a preset from the "Find Your Sound" folder and find your sound!
