Author Jack H.M. Wong Hits the Top of the Amazon Bestseller List With Cracking the Entrepreneur Code

Published on February 16, 2017

Cracking the Entrepreneur Code, Author Jack H.M. Wong's look at the seven important guidelines to becoming an independent business owner, has topped the charts of the Amazon Bestseller lists for several business categories.

Jack H. M. Wong, author of *Cracking the Entrepreneur Code: 7 Tips to Build the Business You Always Wanted*, has always known that it takes special knowledge and skills to become number one in any profession. Now, he has synthesized that information into his new book, and like his business undertakings, he has quickly reached the top with *Cracking the Entrepreneur Code*. This month, the book has become an Amazon Bestseller, and as a result Wong is offering several incentives to those who want to learn more about becoming their own bosses.

Cracking the Entrepreneur Code is a candid look at the seven important guidelines any investor should follow before starting a business. As a business growth consultant and self-development specialist, Wong has captured the essence of success in his new book. Readers will learn what it takes to get out of the "rat race" and finally achieve their goals of entrepreneurship, as well as how to successfully start a business with very little capital and expand it to the next level quickly. Topics in *Cracking the Entrepreneur Code* include financing a business without investing personal capital; building repeatable systems; finding the right employees; formulating strategic alliances and joint ventures for growth; applying the principle of priority to raise productivity; and the role of continuing education.

According to Wong, “Many people are conditioned to get a job and remain in the rat race for the rest of their lives working for rich people. *Cracking the Entrepreneur Code* seeks to provide people like you, with a family like yours, with tested systems and processes so that you can finally choose to start your own business with very little capital and take it to the next level.”

For a limited time, readers can get a free downloadable copy of *Cracking the Entrepreneur Code*, a \$32 value, at www.CrackingEntrepreneurCode.com. In addition, Wong is offering a free 30-minute discovery session, as well as free training videos and tips on entrepreneurship for those who like his Facebook FanPage at facebook.com/jackhmwongofficial.
