Entrepreneurial Expert Jack H.M. Wong Launches Cracking the Entrepreneur Code Podcast

Fans and followers of author Jack H.M. Wong's ground breaking business startup advice have a very good reason to be happy. In exciting news, Jack is now sharing his hard-earned wisdom at his Cracking the Entrepreneur Code Podcast.

TORONTO - Oct. 19, 2017 - PRLog -- When it comes to learning about business, one thing effective teachers quickly realize is each student has a preferred way to process and retain information most efficiently. For some, it's reading and others it's the spoken word. Jack H.M. Wong (<http://crackingentrepreneurcodebook.com/>) has made the big decision to deliver to students his work in both of these with the recent announcement of the launch of the Cracking the Entrepreneur Code Podcast, a follow up to his popular Amazon Bestselling book

Cracking the Entrepreneur Code: 7 Tips to Build the Business You Always Wanted book.

"My new podcast continues to develop and promote my vision of helping business owners and entrepreneurs gain money, time and freedom using the best cutting-edge strategies available today," remarked Wong about the launch. "If you are interested in supercharging sales by at least 30% in a matter of between 6 and 8 weeks, and building a champion team, this is the podcast to listen to. We plan on leaving no stone unturned."

The 7 Tips, once learned and delivered, will drive business people to never ever look back.
