

# TELESCOPIC ALUMINUM POLE

## COMPATIBLE WITH ALL JAMESON ALUMINUM FERRULE ATTACHMENTS

Introducing our premium telescopic pole, spanning from 83 to 144 inches. Crafted from durable aluminum, featuring a unique tri-oval (non-circular) cross-section designed to minimize flex. The double-lock system ensures a secure hold, while the soft plastic handle provides comfort. Plus, its female ferrule end makes it compatible with all Jameson attachments, making it the most versatile option available.

- Telescopic design: 83" to 144"
- Weight: 3.5 lbs.
- Aluminum construction is strong and durable
- Enhanced rigidity with tri-oval non-circular cross-section design, minimizes flexing at full extension
- Double-lock system ensures strong, set-length hold.
- Comfort and ergonomic support with the cushioned grip handle
- Exclusive female ferrule end, is compatible with all Jameson attachments, making it the most versatile pole on the market
- Integrated slide stop prevents inner section from separating from outer segment.

### SECONDARY CAM LOCK ENSURING A SECURE HOLD

### PUSH BUTTON LOCKS CUSTOMIZABLE LENGTHS

### NON-CIRCULAR DESIGN MORE RIGID, MINIMAL FLEXING

### SOFT PLASTIC HANDLE SECURE, COMFORTABLE GRIP

#### ULTIMATE TREE PRUNING KIT (TA-12PKG1)

Includes (PH-14-PKG) 1-1/4" steel pruner with a lightweight, rigid tri-oval telescopic pole. Kit also includes (PS-3FPS1) a 13" Tri-Cut Pole Saw Head saw, that is a durable, hard-chrome plated with a long-lasting, sharp edge for cutting through tough limbs.

#### FOLDING POLE SAW & TELESCOPIC POLE KIT (TA-124FS)

Lightweight design with a PS-4FS Folding Pole Saw and 13" Tri-Cut blade, perfect for arborists to carry while climbing, eliminating the need for assistance or extra equipment.

| Part Number | Description                                                                                |
