

So.....Please join us for **Hot Topics**, the first in a series of events where only critical topics that affect our health, environment and political policy will be presented.

**Sunday, May 7, 2017 from 3-5:00pm** at the  
**Highland Avenue Church of the Brethren, 783 W. Highland Avenue, Elgin, Illinois**

We are so fortunate to have the following three experts as our guest speakers!

**Jack Altschuler** doing his presentation on Citizens United (money in politics). Because of this Supreme Court ruling, the top 1% has gained untold wealth and power and now we see it affecting our way of life.

**Dr. Anne Scheetz** who is a wealth of information on Single Payer healthcare or Medicare-for-all in which the government pays all health care costs, rather than private insurers.

**Dave and Sandra Davis** of Save Our Illinois Land (SOIL) will be discussing the proposed Canadian Pipeline 6 that Enbridge is trying to build on the east side of Belvidere.

**Q and A will follow:**

**RSVP: Joni Lindgren, [jmonks12346@comcast.net](mailto:jmonks12346@comcast.net)** There's plenty of room, so bring others with to hear these wonderful and informative speakers, and perhaps you'll find an organization or two to get involved with.

It's very difficult to believe the dire situation our country is in today, but unless we know what's happening, we can't do much to fight it. We pride ourselves in providing facts, not alt-facts. So, we have gotten together to act as a clearing house by constructing a database of organizations at every level: local, state, and national, and on every issue of importance, and then reaching out to the public to inform them as to what our member groups are doing and how they can get involved. We believe the only way to take back this country is by having a massive "army" of activists and informed citizens.
