

You can print these flash cards on your printer in duplex mode (double sided)

Or

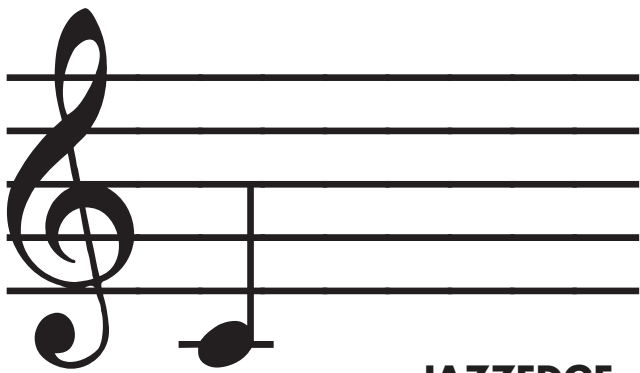

You can print each page seperately and paste each side onto index cards. You can use this first page as a cutting guide for your cards.

If you are planning on printing double sided print this page seperately so that you will have a cutting guide when you are done.

Match the cards up. You can see from the example below that the cards on the even pages match up to the correct answer on the odd pages on opposite sides of the paper

Card on this side of the page

Matches to following page card on this side of the page
