

I Want to Spend Christmas with You

Music and Lyrics by Jeff Burger

Snow falls outside our window
Friends are all waiting, we really should go
It's that time of year to spread good cheer
But the best rendezvous is only with you

Why don't we skip the parties
Let's linger here, just you and me
There's no better way to celebrate
We can conspire on one desire
Together at home, alone by the fire

Christmas time
With candles and wine
Making memories just for two
At Christmas time
One thing on my mind
I want to spend Christmas with you

Stay with me through the twilight
'Cause these shorter days make longer nights
In the afterglow of the mistletoe
Spend this Noel under love's spell

Gifts wait by the Yule tree
But, darlin', you are all that I need
Because you define the best of times
So let's steal away this holiday
Nestled up close in our own hideaway

Christmas time
With candles and wine
Making memories just for two
At Christmas time
One thing on my mind
I want to spend Christmas with you

Firelight shimmering
Tree lights glimmering
But the best part of these nights
Are all the candles on the mantle
Sparkling in your eyes

(At) Christmas time
With candles and wine
Making memories just for two
At Christmas time
One thing on my mind
I want to spend Christmas with you
I want to spend Christmas with you
I want to spend my Christmas with you
