## Weather report rangpur

Pakistan is a mostly dry country. The flat areas in the south and centre have a desert-like climate. May and June are the hottest months, when it is from 40 to 45 degrees Celsius. The best travel period is from December to March, when it is relatively cold. The north of the country was visited by the monsoon in July and August. In a short period of time a lot of rain can fall and there can be severe storms. Extreme North is home to the high mountains: K2 and Nanga Parbat are two of the highest mountains in the world.
