K1 200m: The winner of the Men's K1 500m will be given the opportunity to race the event.

4.2.3 Team Boats Selection Process

The same process will be followed for men's kayak and women's kayak.

Junior/U23 K2 Selection Procedure

The winner of the Junior/U23 K2 500m will be given the opportunity to race the event at the 2026 Junior/U23 World Championships if each athlete in the winning K2 500m event races the K1 500m and their individual times in the K1 500m are within 7% of the winner of the respective K1 500m. They will also be nominated to the Team Boat Pool.

Junior K4 Selection Procedure – Team Boat Pool

This Team Boat Pool will be used to select the entry for the Junior K4 500m.

Athletes will be selected based on their rankings within the Team Boat Pool.

Rank	Criteria
1-2	Junior K2 500m winner (if both athletes are within 7% of the Junior K1 500 winner)
3	Junior K1 500m winner
4-8	Next ranked athletes in the Junior K1 500m, provided their time is within 7% of the winning time, up to a maximum of 6 athletes in the pool.

If there are fewer than 4 athletes (willing to compete in K4) who are within 7% of the winner of the K1 500m, it will be within the discretion of the Coaches and Selection Committee to increase the threshold to 10%, only to allow for an entry into the K4. E.g. there are 5 athletes within 7% of the winner who are nominated to the Junior National Team, but only 3 of them are willing to compete in the K4. The next ranked athlete within 10% could be nominated to complete the K4, however the remaining spots on the Junior National Team would not be filled.

If there are only 4 athletes available, then those 4 will be nominated to paddle K4. If less than 4 athletes are available, then there will be no K4 racing at the competition events.

The Junior Kayak Head Coach will run the Seat Racing Camp to select the Junior K4 during the Junior Kayak Team Boat Selection, which will be held at Greenlake, June 12.

Seat Trials Procedure:

The Junior Kayak Head Coach will serve as the Kayak Selection Lead and facilitate the seat racing and selection process. The Sprint High Performance Director will invite additional coaches to form the Coaching Panel, to collaborate, provide insight and support the selection process and the Kayak Selection Lead. The Kayak Selection Lead will make the final decisions on athlete combinations and seat orders.

There will be 3-4 Seat Trials which will be spaced 2 hours apart; all time trials will be videoed and timed. Wind and weather conditions, and feedback from the athletes will be noted.

At the conclusion of seat racing, the Coaching Panel will use the time differences between the boats as well as observations of the athletes' strengths and compatibilities to determine which K4 combination is fastest. The Kayak Selection Lead will provide a written recommendation to the Selection Committee containing the seat racing procedure that was used, the complete results of the seat racing and the identified strengths and compatibility of the athletes. They will present the K4 combination they determine to be the fastest. This boat is the provisional nomination for the Junior K4 event at the 2026 Junior/U23 World Championships

They will also provide the 2nd, 3rd, and 4th fastest combinations, supported by similar reasoning and data. Upon approval by the Selection Committee, the provisional K4 will become the official nomination and will be given the right of first refusal to race the Junior K4 event at the 2026 ICF Junior/U23 Canoe Sprint World Championships.

U23 K4 Selection Procedure – Team Boat Pool

The same process will be followed for men's kayak and women's kayak.

The top 2 U23 K2's will be nominated to the team boat pool, if the second K2 is within 5% of the winning U23 K2.

The top 6 U23 K1's in the K1 500m event will be nominated to the team boat pool, if they finish within 5% of the winner.

If any paddler/K2 declines to be a part of the team boat pool, the next best placed K1/K2 will be included, to have a maximum of 6 paddlers in the pool.

If the paddlers do not meet the 5% threshold, the coaches panel may use discretion to allow for a total pool number of no more than 6 paddlers. If there are only 4 athletes available, then those 4 will be nominated to paddle K4. If less than 4 athletes are available, then there will be no K4 racing at the competition events.

Seat Trials Procedure:

The Sprint High Performance Director of the ACA will choose a coach to be the Kayak Selection Lead. The Kayak Selection Lead will facilitate the seat racing and selection process. While the Sprint High Performance Director will invite additional coaches to form the Panel to collaborate, provide insight and support the selection process, the Kayak Selection Lead will make the final decisions on athlete combinations and seat orders.

There will be 3-4 Seat Trials which will be spaced 2 hours apart; all time trials will be videoed and timed. Wind and weather conditions, and feedback from the athletes will be noted.

Seat Trial #1: Top 2 K2's from the K2 500m

Seat Trial #2: Top 4 K1's from the K1 500m

Seat Trial #3: Top K2 and 2 K1's

Seat Trial #4: Coach's discretion

At the conclusion of seat racing, the coaching panel will use the time differences between the boats as well as observations of the athletes' strengths and compatibilities to determine which K4 combination is fastest. The Kayak Selection Lead will provide a written recommendation to the Selection Committee containing the seat racing procedure that was used, the complete results of the seat racing and the identified strengths and compatibility of the athletes. They will present the K4 combination they determine to be the fastest. This boat is the provisional nomination for the U23 K4 event at the 2026 Junior/U23 World Championships. They will also provide the 2nd, 3rd, and 4th fastest combinations, supported by similar reasoning and data. Upon approval by the Selection Committee, the provisional K4 will become the official nomination and will be given the right of first refusal to race the U23 K4 event at the 2026 ICF Junior/U23 Canoe Sprint World Championships.

4.2.4 Kayak Long Distance Event Selection

The entries will be filled with athletes from the Junior National Team and the Team Boat Pool. Priority will be given to the athletes with the highest ranking. If the athlete declines, the next ranked athlete will be offered the spot.

4.2.5 Replacement of Kayak Athletes

The replacement procedure will be the same for Men's and Women's kayak.

Replacement of Athletes to the K1 Events

- If the athlete(s) selected to race the K1 200m, K1 500m, K1 1000m declines the opportunity to race an event, the next ranked athlete in the qualification event will be given the opportunity to race if they are within 7% of the winner of the corresponding event at the trials.
- If the next ranked athlete is greater than 7%, no one will compete in that event.

Replacement of Athletes to the K2 Events

If the K2 declines the opportunity to race the event, the next ranked boat in the qualification event will be given the opportunity to race if both athletes, in K1, were within 7% of the winner of the K1 500m.

Replacement of Athletes to the Team Boat Pool

If an athlete declines their position in the Team Boat Pool, the next ranked boat may be selected, if the athlete is within 7% (junior) or 5% (U23) of the winner of the K1 500m.

Replacement of Athletes to the Selected K4

- If an athlete in the selected K4 declines their position, the next fastest combination will be selected for that event.
