Performance Based Labs

Lab Tasks

Here's what you get

11. Post-Assessment

1. Course Objective

Prepare for the Cisco CCNA Cyber Ops SECOPS 210-255 certification exam with the CCNA Cyber Ops SECOPS 210-255 Official Cert Guide course and lab. The lab is cloud-based, device-enabled, and can be easily integrated with an LMS. Interactive chapters comprehensively cover CompTIA A+ certification exam objectives and provide knowledge in areas such as endpoint threat analysis and computer forensics, network intrusion analysis, incident response, data and event analysis, incident handling, and so on.

2. Pre-Assessment

Pre-Assessment lets you identify the areas for improvement before you start your prep. It determines what students know about a topic before it is taught and identifies areas for improvement with question assessment before beginning the course.

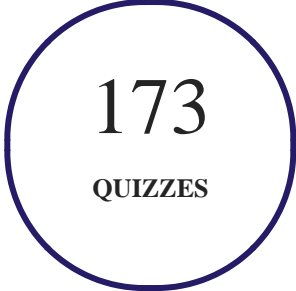

3. Exercises

There is no limit to the number of times learners can attempt these. Exercises come with detailed remediation, which ensures that learners are confident on the topic before proceeding.

4. Quizzes

Quizzes test your knowledge on the topics of the exam when you go through the course material. There is no limit to the number of times you can attempt it.

173

QUIZZES

5. Flashcards

Flashcards are effective memory-aiding tools that help you learn complex topics easily. The flashcard will help you in memorizing definitions, terminologies, key concepts, and more. There is no limit to the number of times learners can attempt these. Flashcards help master the key concepts.

59

FLASHCARDS

6. Glossary of terms

uCertify provides detailed explanations of concepts relevant to the course through Glossary. It contains a list of frequently used terminologies along with its detailed explanation. Glossary defines the key terms.

59

TERMS

7. Expert Instructor-Led Training

uCertify uses the content from the finest publishers and only the IT industry's finest instructors. They have a minimum of 15 years real-world experience and are subject matter experts in their fields. Unlike a live class, you can study at your own pace. This creates a personal learning experience and gives you all the benefit of hands-on training with the flexibility of doing it around your schedule 24/7.

8. ADA Compliant & JAWS Compatible Platform

uCertify course and labs are ADA (Americans with Disability Act) compliant. It is now more accessible to students with features such as:

- Change the font, size, and color of the content of the course
- Text-to-speech, reads the text into spoken words
- Interactive videos, how-tos videos come with transcripts and voice-over
- Interactive transcripts, each word is clickable. Students can clip a specific part of the video by clicking on a word or a portion of the text.

JAWS (Job Access with Speech) is a computer screen reader program for Microsoft Windows that reads the screen either with a text-to-speech output or by a Refreshable Braille display. Student can easily navigate uCertify course using JAWS shortcut keys.

9. State of the Art Educator Tools

uCertify knows the importance of instructors and provide tools to help them do their job effectively. Instructors are able to clone and customize course. Do ability grouping. Create sections. Design grade scale and grade formula. Create and schedule assignments. Educators can also move a student from self-paced to mentor-guided to instructor-led mode in three clicks.

10. Award Winning Learning Platform (LMS)

uCertify has developed an award winning, highly interactive yet simple to use platform. The SIIA CODiE Awards is the only peer-reviewed program to showcase business and education technology's

finest products and services. Since 1986, thousands of products, services and solutions have been recognized for achieving excellence. uCertify has won CODiE awards consecutively for last 5 years:

- **2014**

1. Best Postsecondary Learning Solution

- **2015**

1. Best Education Solution
2. Best Virtual Learning Solution
3. Best Student Assessment Solution
4. Best Postsecondary Learning Solution
5. Best Career and Workforce Readiness Solution
6. Best Instructional Solution in Other Curriculum Areas
7. Best Corporate Learning/Workforce Development Solution

- **2016**

1. Best Virtual Learning Solution
2. Best Education Cloud-based Solution
3. Best College and Career Readiness Solution
4. Best Corporate / Workforce Learning Solution
5. Best Postsecondary Learning Content Solution
6. Best Postsecondary LMS or Learning Platform
7. Best Learning Relationship Management Solution

- **2017**

1. Best Overall Education Solution
2. Best Student Assessment Solution
3. Best Corporate/Workforce Learning Solution
4. Best Higher Education LMS or Learning Platform

- **2018**

1. Best Higher Education LMS or Learning Platform
2. Best Instructional Solution in Other Curriculum Areas

3. Best Learning Relationship Management Solution

11. Chapter & Lessons

uCertify brings these textbooks to life. It is full of interactive activities that keeps the learner engaged. uCertify brings all available learning resources for a topic in one place so that the learner can efficiently learn without going to multiple places. Challenge questions are also embedded in the chapters so learners can attempt those while they are learning about that particular topic. This helps them grasp the concepts better because they can go over it again right away which improves learning.

Learners can do Flashcards, Exercises, Quizzes and Labs related to each chapter. At the end of every lesson, uCertify courses guide the learners on the path they should follow.

Syllabus

Chapter 1: Introduction

- About the 210-255 CCNA Cyber Ops SECOPS Exam
- About the CCNA Cyber Ops SECOPS #210-255 Official Cert Guide

Chapter 2: Threat Analysis

- What Is the CIA Triad: Confidentiality, Integrity, and Availability?
- Threat Modeling
- Defining and Analyzing the Attack Vector
- Understanding the Attack Complexity

- Privileges and User Interaction
- The Attack Scope
- Review All Key Topics

Chapter 3: Forensics

- Introduction to Cybersecurity Forensics
- The Role of Attribution in a Cybersecurity Investigation
- The Use of Digital Evidence
- Fundamentals of Microsoft Windows Forensics
- Fundamentals of Linux Forensics
- Review All Key Topics

Chapter 4: Fundamentals of Intrusion Analysis

- Common Artifact Elements and Sources of Security Events
- Understanding Regular Expressions
- Protocols, Protocol Headers, and Intrusion Analysis
- Using Packet Captures for Intrusion Analysis
- Review All Key Topics

Chapter 5: NetFlow for Cybersecurity

- Introduction to NetFlow
- NetFlow Versions
- IPFIX
- NetFlow for Cybersecurity and Incident Response
- NetFlow Analysis Tools
- Review All Key Topics

Chapter 6: Introduction to Incident Response and the Incident Handling Process

- Introduction to Incident Response
- The Incident Response Plan
- The Incident Response Process
- Information Sharing and Coordination
- Incident Response Team Structure
- The Vocabulary for Event Recording and Incident Sharing (VERIS)
- Review All Key Topics

Chapter 7: Incident Response Teams

- Computer Security Incident Response Teams (CSIRTs)
- Product Security Incident Response Teams (PSIRTs)
- National CSIRTs and Computer Emergency Response Teams (CERTs)
- Coordination Centers
- Incident Response Providers and Managed Security Service Providers (MSSPs)
- Review All Key Topics

Chapter 8: Compliance Frameworks

- Payment Card Industry Data Security Standard (PCI DSS)
- Health Insurance Portability and Accountability Act (HIPAA)
- Sarbanes-Oxley (SOX)
- Summary
- References
- Review All Key Topics

Chapter 9: Network and Host Profiling

- Network Profiling
- Host Profiling
- Summary

- References
- Review All Key Topics

Chapter 10: The Art of Data and Event Analysis

- Normalizing Data
- Using the 5-Tuple Correlation to Respond to Security Incidents
- Retrospective Analysis and Identifying Malicious Files
- Mapping Threat Intelligence with DNS and Other Artifacts
- Deterministic Versus Probabilistic Analysis
- Review All Key Topics

Chapter 11: Intrusion Event Categories

- Diamond Model of Intrusion
- Cyber Kill Chain Model
- Summary
- References
- Review All Key Topics
- Lesson 1: Threat Analysis

- Lesson 2: Forensics
- Lesson 3: Intrusion Analysis
- Lesson 4: NetFlow for Cyber Security
- Lesson 5: Introduction to Incident Response
- Lesson 6: Incident Response Team
- Lesson 7: Compliance Frameworks
- Lesson 8: Networking and Host Profiling
- Lesson 9: Data and Event Analysis
- Lesson 10: Intrusion Event Categories
- Lesson 11: The Incident handling Process

Videos and How To

uCertify course includes videos to help understand concepts. It also includes How Tos that help learners in accomplishing certain tasks.

62

VIDEOS

04:55

HOURS

12. Practice Test

uCertify provides full length practice tests. These tests closely follow the exam objectives and are designed to simulate real exam conditions. Each course has a number of test sets consisting of hundreds of items to ensure that learners are prepared for the certification exam.

Here's what you get

Features

Video Lessons

uCertify provides video training courses that contain videos and test set questions based on the exam. These courses are interactive and engaging and the learners can view the content at their own pace, in their own time, and on any device. Learners can easily track the engagement levels so they immediately know which course components are easy to understand and which are more difficult. Test set in the courses closely follow the exam objectives and are designed to simulate real exam conditions.

Interactive Questions

Each pre and post assessment comes with interactive questions which help users in better understanding of the subject matter.

Unlimited Practice

Each test can be taken unlimited number of times until the learner feels they are prepared. Learner can review the test and read detailed remediation. Detailed test history is also available.

Learn, Test and Review Mode

Each test set comes with learn, test and review modes. In learn mode, learners will attempt a question and will get immediate feedback and complete remediation as they move on to the next question. In test mode, learners can take a timed test simulating the actual exam conditions. In review mode, learners can read through one item at a time without attempting it.

13. Performance Based Labs

uCertify's performance-based labs are Live Labs. Learn the real world skills using Live Labs. uCertify Labs are cloud-based, device-enabled and can be easily integrated with an LMS. Features of uCertify labs:

- Provide hands-on experience in a safe, online environment
- Labs simulate real world, hardware, software & CLI environment
- Flexible and inexpensive alternative to physical Labs
- Comes with well-organized component library for every task
- Highly interactive - learn by doing
- Explanations and remediation available
- Videos on how to perform

Lab Tasks

- Downloading and Running the Scanning Tools
- Performing the Initial Scan
- Understanding attack complexity
- Understanding cybersecurity investigations
- Understanding disk imaging
- Understanding Windows file system

- Understanding file system structure
- Understanding Linux Boot Process
- Understanding fundamentals of intrusion analysis
- Understanding security threat intelligence
- Understanding evasion techniques
- Understanding header protocol
- Working with Wireshark's Interface
- Analyzing the Capture File to Find the Attack(s)
- Generating Network Traffic and Using Filters
- Examining the traffic between client and server
- Confirming the Spoofing Attack in Wireshark
- Observing Traffic Patterns Using Wireshark
- Analyzing Protocols with Wireshark
- Understanding NetFlow cache
- Understanding NetFlow for cybersecurity
- Examining the DDOS_Attack.pcap File
- Exporting your Windows logs
- Making Syslog Entries Readable
- Identifying a suspicious account on the System User Groups
- Enabling logging for audited objects
- Examining the Audited Events
- Understanding response plan
- Understanding VERIS schema
- Establishing a CSIRT
- Consulting a Vulnerability Database
- Uploading the Trojan horse simulator to VirusTotal
- Uploading the Trojan horse simulator to Malwr
- Assessing the impact of malware
- Understanding network profiling
- Understanding SIEM
- Using 5-Tuple correlation
- Understanding threat intelligence
- Understanding event analysis
- Performing Reconnaissance on a Network
- Understanding Kill Chain Model

Here's what you get

14. Post-Assessment

After completion of the uCertify course Post-Assessments are given to students and often used in conjunction with a Pre-Assessment to measure their achievement and the effectiveness of the exam.
