Color Printable color by number spreadsheet - the main task in this set of free educational spreadsheets for children is to color images according to assigned numbers. You think it's going to be easy? Remember that each number matches only one color. So better be careful and patient. These photos are certainly very demanding, but will also give you lots of fun. You can find some simple pictures here, but someone else can cause real headaches. Quiz for kids – color for number Just hover over the question to see the correct answer!1. How do we call a disease that implies poor recognition of colors? This disease is called Daltonism.3. What are three primary colors? Primary colors are: red, blue, yellow.3. What is the opposite of black? Opposite of black color is white.4. What colors do we see on the United States flag? On the United States the flag is red, blue and white.5. What is the most famous little animal (reptile) that is able to change its colors to better match the surrounding area? The favorite color of most adult people in the world is blue. Favorite children's color is purple among girls and green among boys. According to the fur color we can guess a cat's sex with very high accuracy. If a fur coat has two or three tones then most likely it is a woman. If the fur has only one tone, it's a man. The dominant eye color among people all over the world is brown. In the second position are green and gray. The least common is blue. The meaning of some colors: Blue - symbolizes perseverance, reliability, wisdom, loyalty. Green – a symbol of growth, fertility, nature. Green same as blue soothes. Red - naturally attracts an eye and brings us to a state of excitement. Often associated with energy and holidays. Yellow – a tone of the sun, a symbol of joy. Attracts fond memories. Orange – symbolizes fun, warmth and vital energy. Brown - it is a symbol of reliability, stability, in the end, there is a color on earth. Gold - it is a symbol of wealth and a promise of better times. Combine fun with education Color by number images – is the coolest collection of educational spreadsheets for children that require a lot of focus and attention because you have to follow the given instruction step by step. So you need to remember that all color fields have mapped digits. Each corresponds to a different tone found in a description. In this set of printable files, you'll find simpler (small amount of digits and colors) and a slightly more complicated version (with a large amount of digits and colors). Color for number photos gives your child a lot of fun for a long time and improve their many mental and manual skills. Color by number of printables is so much fun! Everyone loves color by numbers, both children and adults. Follow the color key and watch the image come to life in front of your eyes. The more you color, the more the image comes alive.
