If you are serious about moving forward in your business, then it's going to be extremely advantageous for you to review this material. Jay Cruz, the original presenter of this information, says that his mentor always told him, "You should never be settled. You should always be moving forward, with a big smile on your face." So, if you are not happy, and you are looking for a full-fledged business model, then keep reading through this material.

You are about to learn a three-step method that has brought Jay Cruz success, as well as many others. He claims that there's nothing else out there like this system, and by the time you have reached the end of this material, he thinks that you'll agree. Right now, you might be pushing out Facebook pages, eBooks, eProducts, eCommerce stores, Amazon products, etc. It's great that you have things set up for your business like this, but none of that matters if you don't have the traffic that you need.

What you discover today is going to change the way that you go about getting traffic from now on. First things first, if you look at the screenshot above, you can see that you are right in the middle of being in the right place, at the right time, and with the right people. You probably know by now that timing is everything in life, and that's why that aspect of this equation is the most important.

Things are changing in such a unique way at the moment, especially when it comes to how people get their traffic. This particular system works in conjunction with Google's strategy, which is a vital element of this system as well. You don't have to worry about pulling the wool over Google's eyes anymore, or taking tricky shortcuts. Google has developed one of the most powerful systems in the world, and therefore, it's wise to work with them, not against them when it comes to getting traffic.

Furthermore, by using the system being shown to you today, you are going to be able to get the right kind of traffic for your business, which is targeted traffic that converts. Once you open this tap, you're going to completely see major changes happen in your business. Not only are you going to learn how to gain traffic that makes a difference in your business, you are about to find out how to use a business model that can help you to create a six-figure business, even if you are starting from scratch. That's the promise of today's presentation.

At the end of the presentation, after everything you need to know about this system is explained thoroughly, you are going to have the opportunity to take advantage of a special offer. What's going to be offered is something that can maximize your efficiency, your profits, and take your business to another level. Please understand that even though everything has been broken down for you to take advantage of in the simplest way possible, the system you are about to learn more about does take work. If you are prepared to step up and take action, all of this will work for you.

The screenshot above contains a picture of Mr. Warren Buffet, and a quote from him stating, "It's not necessary to do extraordinary things to get extraordinary results. There seems to be some perverse human characteristic that likes to make easy things difficult. Risk comes from not knowing what you are doing. Opportunities come infrequently. When it rains gold, put out the bucket, not the thimble." What this man is saying is really very, very simple. It's the fact that, "Simplicity is the key to brilliance," as Jay puts it.

What you take away from this presentation and what you leave behind is completely within your own hands. Jay believes that if you are reviewing this material right now, it means you are here for a reason. If you would rather just stick with what you are currently doing and not try to take action, then perhaps you shouldn't move on to the next section. However, if you want to see how amazing improvements can be made to your business by using simple methods, and what this has done for Jay as well as many other entrepreneurs, then let's keep going.

## Breakout!

If you've spent any amount of time trying to build a business online, then it's likely that you've already felt the frustration that comes along with it and you've probably tried lots and lots of things that haven't worked. In fact, you might feel a bit like the guy in the screenshot below who has been trying to move in the right directions, but to no avail! If you're experiencing this at the moment, you are going to have a chance to break out of that cycle today.

Maybe you've made some small but perpetual progress, or you have had some successes but would like to really scale things up. Maybe you are just currently looking for a real business model that truly works. As previously stated, what you are going to learn a three-step method that has been proven to work, and it's the simplicity of this system that makes it so incredibly useful.

As the saying goes, "If you always do what you've always done, you are always going to get what you have always got." This system has worked for many people in the past, and it can work for you too, if you are willing to put in the required amount of effort and not overcomplicate things. You are about to be presented a 7-day challenge that can absolutely change your life, if you choose to accept it. You'll find out more about this in just a moment. For now, take a look at the screenshot below.

You probably know that Michael Keaton recently played Ray Kroc, who was the creator of the McDonald's corporation, in the movie *The Founder*. The business model that Ray used was incredible, but it was also very straightforward. As was pointed out in the previous section, sometimes we have to fight our own minds to simplify things because we don't believe that we can build great things using only easy methods. Ray Kroc proved that this wasn't the case at all. He built one of the biggest brands in existence with one of the most uncomplicated systems.

Many businesses are successfully following the same fundamental principles of that system today. The information found herein is going to provide you with the simple steps you need to take to create a business model that has been proven to work as well.

You are about to be given a system that will allow you to get traffic to your own books, products, and services that you're offering like never before, and you can use this system to get the results you want in whatever you are doing online. However, it will also be pointed out that one of the quickest ways to generate recurring monthly income with this traffic is with local marketing. You'll see why this is once it has been explained. Additionally, you are going to be given a blueprint for growing a 6-figure a year agency, and you can do this even if you don't want to meet with clients face to face.

When Jay says, “Front-page domination,” that’s exactly what he means. This can be created by a unique method that most people don’t know exists, and Google is rewarding it. Jay Cruiz and Chris Munch are business partners. They are both shown in the pictures above. In the picture to the top-left, Chris is the one on the left and Jay is the one on the right. According to Jay, Chris is the brains of their operation. He has a genius mind for putting together systems that people can easily follow.

Jay and Chris have both been able to do some incredibly cool stuff as a result of the system they built and implemented. They feel like they have almost perfected their system at this point, and as a result, they’ve helped many other people change their lives. Now, Jay is working towards growing their sales team in London, and both of these gentlemen work together on a daily basis to help other business owners grow the amount of traffic and sales that they get.

If you are reviewing this material, it’s likely that you want to get more traffic to your offers. That’s the overall objective of any business, and according to Jay, traffic comes from authority. Just imagine that you were able to knock on Google’s door. Suddenly, Google opens the door and looks you up and down. What you would want to happen, at that point, is for Google to say, “Hey man, you’re an authority. Absolutely, come in and hang out. Hang your coat up and have a drink.” That would be the best case scenario, right?

You wouldn’t want Google to open the door, look you up and down, and not recognize you as an authority. This presentation is really all about getting that authority. That way, you’ll be able to rank multiple pages, websites, and offers. You want to reach the tipping point, where you aren’t having to climb uphill anymore and everything becomes much, much easier.

## Page 1 Google Rankings Explained

What would you say is the biggest ranking factor when it comes to Google? The biggest reason why Google would want to rank you right now, and the biggest indicator that they should, is your brand. Everything comes down to brands because this is the direction that Google is headed. If you think about it, when you do a Google search, more often than not, people are searching for brands. This leaves you with two options:

1. **Build your own brand** – Brand equals authority. That’s how this whole game works. If you have your own brand, Google will start giving you recognition and respect almost instantaneously.
2. **Leverage existing authority brands** – You’ll want to leverage existing brands that Google loves and respects because these are brands that Google wants to send traffic to.

From this lesson, you are going to learn how you can leverage 300+ authority brands, and as you might imagine, this can have a massive impact on the success of your business. Jay points out again the fact that, “Brand equals authority, and authority equals traffic.” Keep that in mind as you move through the remainder of this training.

Another aspect of this system that’s important to understand is that you need to build a machine and not become a tool within one. A lot of entrepreneurs think that they are free because they run their own businesses, but for many of them, that’s just not the case. Jay wants you to be able to build a business without having to be one of its employees.

You learned earlier about Ray Kroc. One of the reasons why he was so successful was because he mastered the art of the production line, which is something that Henry Ford introduced to all of us. You are essentially going to do the same. There’s absolutely no reason for you to do menial tasks within your own business. This keeps you from being able to back up and see the whole production line and then strategize and scale your business.

[Click Here for Instant Access to SkyRanker \(and Lock In Jay’s \\$875 Bonus!\)](#)

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

You need to build a machine that works for you, and not the other way around. Of course, a rise in traffic needs to be part of what that machine does for you. There's an even bigger opportunity for you to consider as well. If you look at the screenshot above, you'll see that there are three little guys standing there, and the ones on the outside are looking towards the red guy in the middle. This is the middleman.

Would you say that Uber is a successful company? Absolutely. It's easily the biggest taxi company in history, and they don't own a single cab. What about Airbnb? This is the biggest accommodations leader in the history of this planet, and they don't own a single hotel. Now, think about high-profile sports agents. They don't have to make that massive dunk in the finals or get a touchdown. They don't have to train for it, or sweat and bleed for their success. All of these are examples of business leaders that have mastered the art of becoming a success as the middleman.

This is how people are making serious money in this new age. They are connecting services with customers and moving forward. Think about that. This is what you'll be learning how to do today as well. You can get paid recurring income in this way as well, but you have to start pushing forward and gaining momentum to make this work for you.

## Authority - Strategy 1...

We've talked about becoming an authority, and there are two ways to go about doing so. First, there's a traditional SEO strategy that you can use, and this is demonstrated above. No matter where you are from or what type of business you have, it always comes down to SEO traffic in one way or another. Any successful SEO strategy includes the following elements:

- Strategy
- Links Building
- Social Network
- Website Optimization
- Web Design
- Traffic
- Sitemap optimization
- Software development
- Feedback
- Keyword research
- Ranking

[Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)](#)

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

- Content

Obviously, there's a lot involved, and that's probably why most people fail. Now look at the screenshot below. This is the second strategy Chris and Jay have for gaining authority. As you can see, their SkyRanker program's logo is right in the center of all of these different authority brands. Imagine that this SkyRanker logo was a button that you could press, and upon pressing it, you could immediately leverage hundreds of authority brands. This includes some huge brands like:

- Fox News
- Google News
- Bing
- ABC News

You can leverage over three hundred brands with SkyRanker. This is huge! Remember, authority is the key to getting the traffic that you need. Now you will be able to gain the authority you need and gain traffic to your websites, offers, eBooks, or whatever else you are trying to push out there.

Which strategy would you prefer? Strategy #1 or #2? It really should go without saying that Strategy #2 would be a lot easier to implement. For a moment, think about why you chose to become an author or get your product out there for the world to see. When it comes to

[Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)](#)

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

authors, most would say that their life purpose is for their books to be read. It's essentially the same for product owners. They want their products to reach people.

In either case, most authors and product owners want to produce works that help people. Therefore, isn't it your duty to become enough of an authority that you can actually reach the people that you want to help? The screenshot above shows what Jay refers to as "A Wall of Authority". You are going to learn how to create your own wall of authority just like this and how to leverage top brands in this way. That way, as you are selling products and services you'll have the platform to be heard, and you'll be able to sell more and help more people.

[Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)](#)

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

## Building Your Wall

You can “build your own wall” of rankings and authority one Google Page 1 listing at a time by leveraging all of the major brands that have already been pointed out. While this is all happening, you can move on to create more products and continue to scale your business. For example, you could write more books, prepare them to launch, strategize campaigns, and grow your book series. You see, by doing this you will no longer be a tool within your business. Instead, you can focus on making it better and generating more profits.

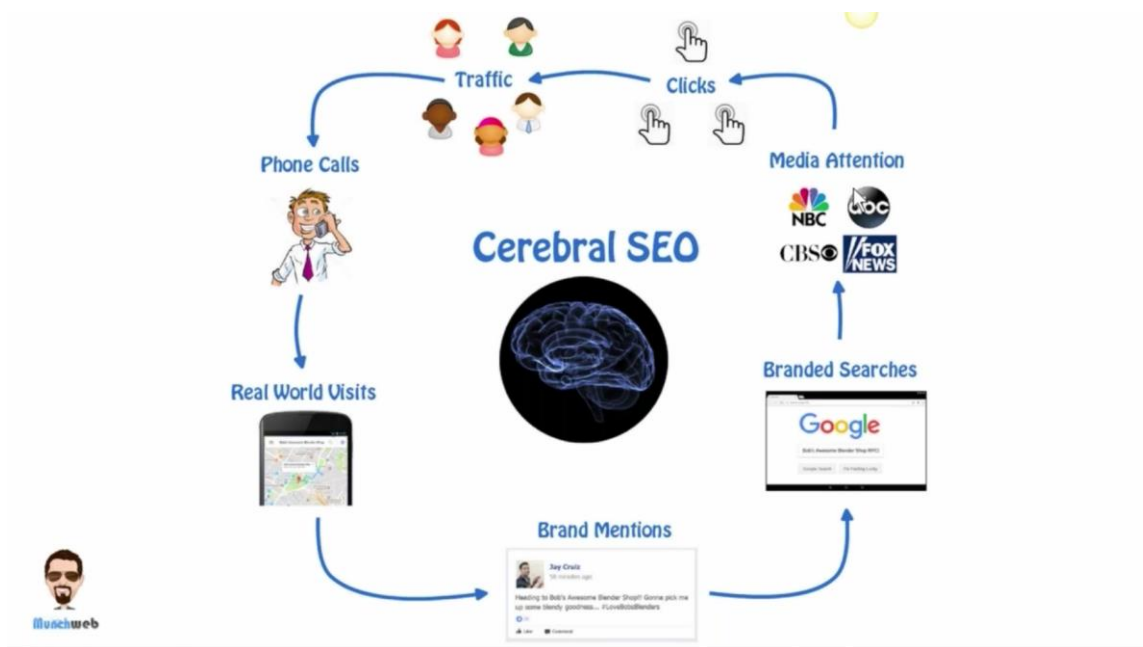

At this point, you may be wondering how these brands are actually leveraged. Think about doing a Google search on your phone, calling businesses, and so forth. What happens? Google picks up on absolutely everything that you’re doing. If you didn’t realize this, it’s good that you do now. Google stores all of this information, crushes it into data, and utilizes it in one way or another. How do you think Google can provide so much information on local businesses, and traffic to them, and so forth? It does so by accessing people searches and the activity made on their mobile devices.

**[Click Here for Instant Access to SkyRanker \(and Lock In Jay’s \\$875 Bonus!\)](#)**

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

The screenshot above gives some insight on how Jay and Chris' system works. They call this "Cerebral SEO". This may look a bit complicated, but it's actually very simple. If you leverage various brands, and Google sees that a business is being covered by authority sites, then you get better exposure. As more people start visiting your sites, they make more phone calls, they walk into physical locations more often, they leave more reviews, and they make mention your brands more regularly. Then, you get brand searches, and the cycle continues.

The more people who see a brand and search for it on Google, the more regularly they click through and make a purchase. All of this feeds into the "Cerebral SEO" cycle because Google rewards those brands further, but it all starts by getting ranked quickly and building up a wall of authority. As you demonstrated in the last section, Jay and Chris' system are causing their clients and students' pages to rank quickly on Google for targeted keywords. This is how you can literally force Google to give a better ranking to your eBooks, or ecommerce products, Facebook pages, niche blogs, information products, or whatever else you may be pushing out into the world.

All of this results in floods of free traffic and sales, and this works for anything. Imagine that you were poking holes in a dam every time you got better rankings and built more authority, and then as more people visited your pages you got more calls and visits. Every time something like that happens, it leaves another hole in that damn for streams of income to trickle through. Well, what would happen if these holes kept appearing? Eventually, the structure is going to collapse, and there's going to be a huge influx of water rushing through, right? This massive, transformative power is what changes businesses and people's lives.

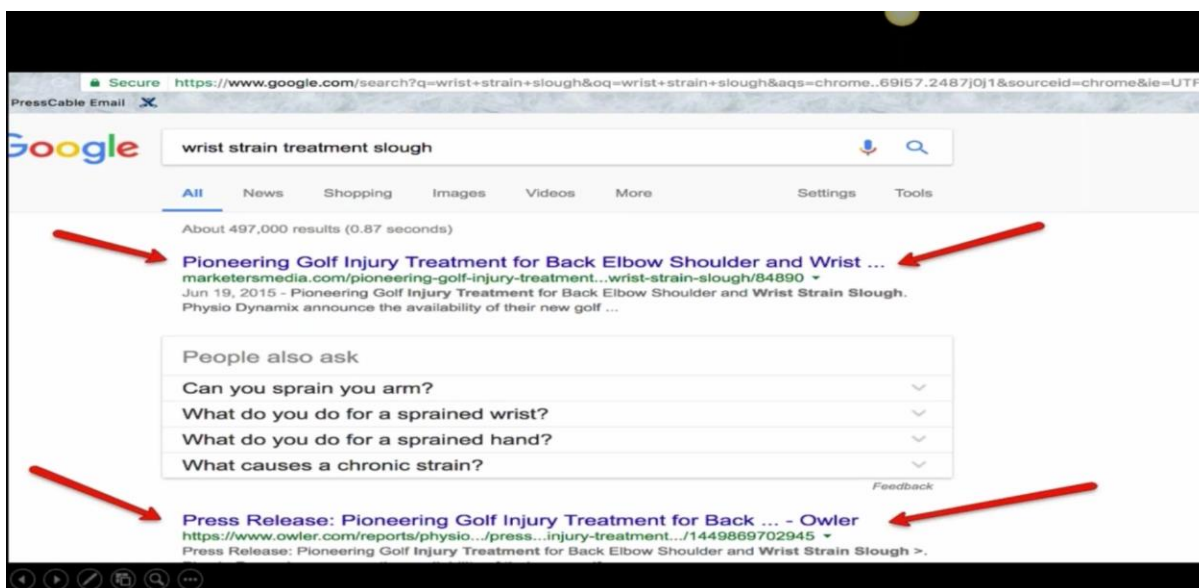

**[Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)](#)**

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

Once you get the traffic that you need for one niche, you can move on to the next one. It does take time and effort to do this, but again, this can all be done for you, if you so choose. Jay calls this “Red Pill Traffic” because once you realize how to leverage brands as well as how to stack long-tail rankings using the platform, and once you understand how Google responds, there is no turning back. Most PR firms refuse to acknowledge that it’s this simple because it undermines their massive fees.

Of course, it’s great to dominate Page 1 of Google promoting your own books, products, and services...however, perhaps the biggest opportunity right now for making money is in local business marketing. Jay pointed out another case study during his presentation, which he called the “Physio Dynamix Case Study”. He said that he has an aunt that he loves dearly, but she had been suffering from a debilitating form of arthritis. All of the sudden, one day, she was walking around freely without pain. He wanted to know how this was possible, and she told him that she had been seeing a physiotherapist. This inspired Jay to call them up.

When Jay contacted the physiotherapist, he asked them, “What kind of customers would you like?” Upon receiving an answer, he put out a piece of content targeting those specific types of customers, and since the pages they were promoting were receiving great rankings overnight, the physiotherapist was amazed. He signed a contract with Jay immediately and paid him \$700 for the service. The results he was able to get for this business is shown in the screenshot below.

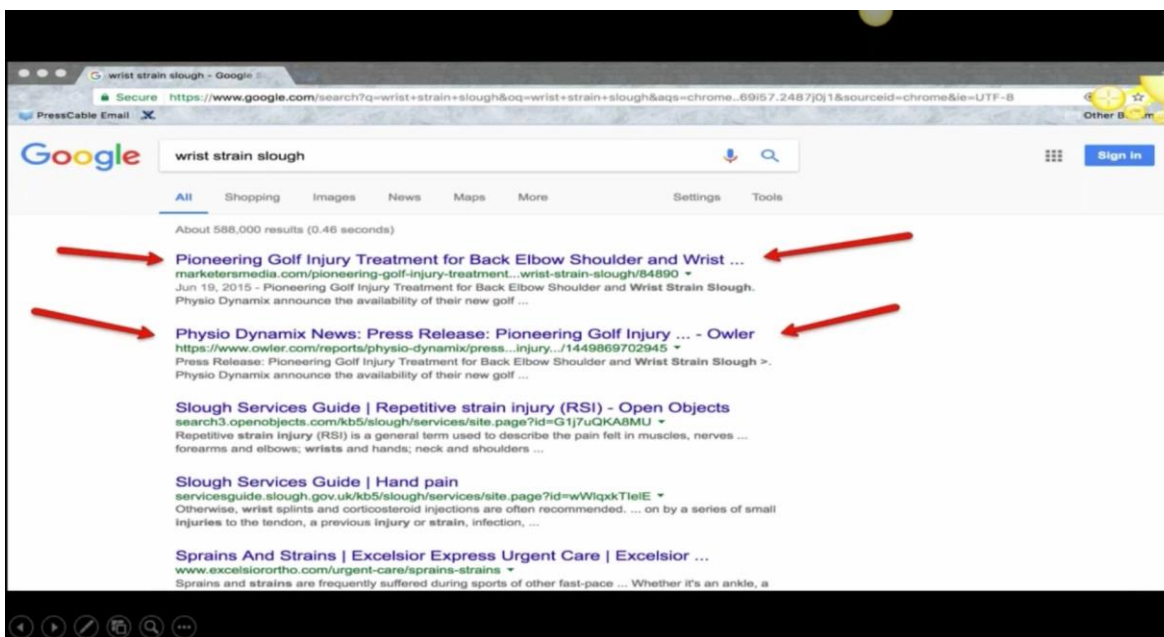

Jay wasn’t even into the local market back then. He had been figuring out how to get traffic to sites at that time, but they cracked it. It didn’t take long for them to figure out that if they could show these types of results to businesses, they could make astounding amounts of

[\*\*Click Here for Instant Access to SkyRanker \(and Lock In Jay’s \\$875 Bonus!\)\*\*](#)

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

profits. There are tons of businesses in every community that can help people solve their problems, and they need regular clientele as well.

If you are able to show them the results that they are looking for and help more people in the process, why wouldn't you? Obviously, with a system like this at your fingertips, you could stack up clients, worth \$700 a month or more, very easily. While you are doing your eBook stuff, or your ecommerce stuff, or whatever other projects you may be working on, why not have an extra \$700 a month or more by helping your local business receive more traffic and customers? Just think, that's one client. If you had two, that would be an extra \$1,400 a month, and so forth.

Look at the results shown above. Imagine showing this to a potential client. You also have to understand that this business builds on itself, and happy clients add up to even more repetitive clients. One student of Jay and Chris' was able to close \$75,000 worth of deals in six weeks, and that's because he took action. He just went out there, showed some screenshots such as the one above, and got paid.

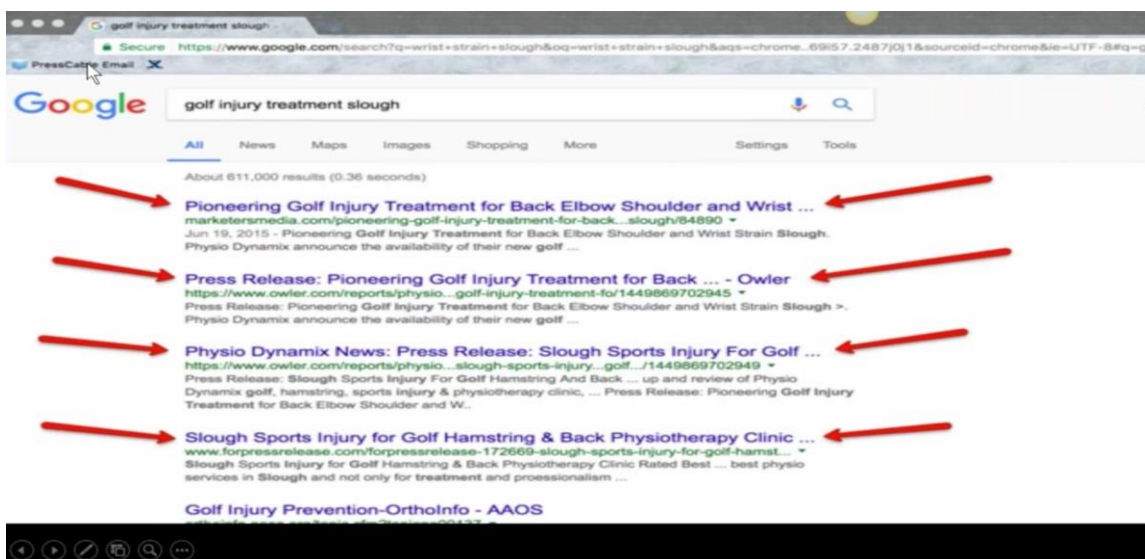

You can see that the pages shown above are ranking for, "wrist golf injury slough". The ones in the screenshot below are ranking for, "golf injury treatment slough". In this case, four of this client's pages are ranking. The keywords they were able to rank for included:

- Sciatica pain slough
- Injury massage slough

[\*\*Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)\*\*](#)

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

- Hamstring treatment slough
- Hamstring therapy slough
- Sciatica therapy slough
- Sciatica treatment slough
- Sciatica message slough
- Hamstring message slough
- Sciatica injury slough
- And more!

Jay compares this to being a sniper because you have targeted keywords that keep stacking up over time. When it comes to the Physio Dynamix, Jay ended up getting this business into the map pack on Google. This is shown above. He says that it took them about four months to do this, but they had just been running one campaign for them each month. Once they were in this box, however, they reached just under half a million in revenue for the year. Essentially, the team doubled and tripled their business.

According to Jay, this physio clinic still has two listings on Page 1 of Google, and the business stayed in the 3-pack for two and a half years. It's just now dropping off, in fact. It's not just Jay, Chris, and there team that have been able to accomplish these types of feats. One student of theirs recently sent in the following message:

[\*\*Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)\*\*](#)

He owns 2 other businesses as well and said that if my results are as good as he thinks they will be that he will sign up all 3 businesses. NEXT!!!”

- Scott An Teri Little

Another such testimonial is shared below. It states:

“Happy to say I launched a PR for a real estate client in NYC. Just searched and it’s still in top 3 on news for New York City Office Space. Provided that one for free, client saw result and bought 12.”

- Edward J. Winslow

In the comments box within this post, Edward continues by saying:

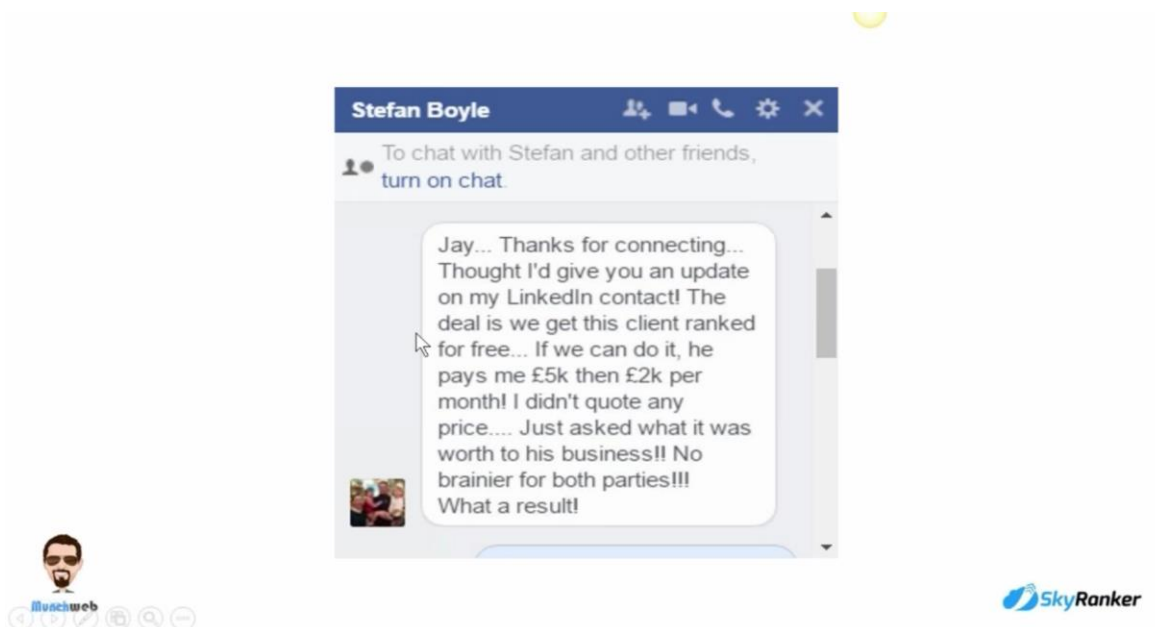

“This week we published another PR for Real Estate Agent. This time we targeted with headline NYC Office Space for Rent on Wall Street. Client moved to #5 in map pack from maybe #20. They look to be solidly in the #2 spot for New Your City Office Space for Rent 3 Pack. So NYC and New York City versions are responding well to PR’s in ultra competitive local market. Also... posted PR #2 for a local dentist. After 2<sup>nd</sup> PR moved up nicely to #2 in 3 pack and immediately got 3 new patients.”

What happens when you leverage this kind of authority? You get results like the one shown above. In 30 minutes, this person was able to rank on the front page of Google, and this was for something as competitive as dog videos. There was 198 million competing results in this case. Think of how much you could sell and how much you can make if you could leverage your product in the way and reach the top of the Google results in just 30 minutes.

Jay Boyer also asked Jay and the SkyRanker team to set up some actual user case studies THIS WEEK for his subscribers, to illustrate just how quickly they can get results with this system. Here are some of the results: starting with the screenshot below. This is showing the results for an online store selling guitars and related products. If you are selling anything online, whether it's products, or services, or whatever it might be, this is huge! This is especially true for people selling Amazon products and eBooks. In this case, the store got its ranking within 8 hours of putting it up. The ranking will last 2-7 days, and it gets 110,000 searches per month, and all of that from just five minutes worth of work!

[\*\*Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)\*\*](#)

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

The screenshot shows a Google search for "electric guitar". The search results are dominated by commercial links. A red callout box points to the top result, "Europe Electric & Acoustic Guitar & Amplifier JBA Online Store Launched", with the following text:

**Front page for product keyword with 110,000 searches/mo from 5 minutes work. Ranking will last 2-7 days!**

Other visible search results include:

- Electric Guitars | Guitar Center**: www.guitarcenter.com/Electric-Guitars.gc
- Electric guitar - Wikipedia, the free encyclopedia**: https://en.wikipedia.org/wiki/Electric\_guitar
- Amazon.com: Electric Guitars**: www.amazon.com/Electric-Guitars-Basses
- Fender Electric Guitars**: www.fender.com/guitars/
- Electric Guitars | Musician's Friend**: www.musicianfriend.com

Logos for "lunchweb" and "SkyRanker" are visible at the bottom of the screenshot.

This is a game changer! Imagine getting that much traffic. If you were just to convert 1% of that traffic a day, you would be making some serious cash. Again, this ranking dropped off within 2-7 days, which is quite fast, but even if that happens, you can do all kinds of business in that time. There's no promise that this system is going to make a celebrity out of you over night, but what does happen is you get tons and tons of traffic.

The next screenshot below shows an example of the enormous growth that can occur to a business. This is an ecom case study. This individual used Jay and Chris' method just to test it out. In the graph, you can see where they started testing this new strategy, and within 11 months they were making over \$11,000 per day. Isn't that incredible?

Even if you are doing eBooks or selling products on Amazon, you can absolutely kill it with this method. When you are launching products and services, you should always do it properly or don't do it at all. Every single launch should utilize a system like you are being shown today. Everyone who is successful at selling stuff online knows the power of smart campaigning.

During his live presentation, Jay checked the results of some of his clients live on Google. The first keyword he typed in was "webinar sales expert B2C," and his client's page was the first page listed in the results. This is demonstrated below. If you look closely, it says "Jay Boyer" in the page's description. This ranking occurred in just one day!

[Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)](#)

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

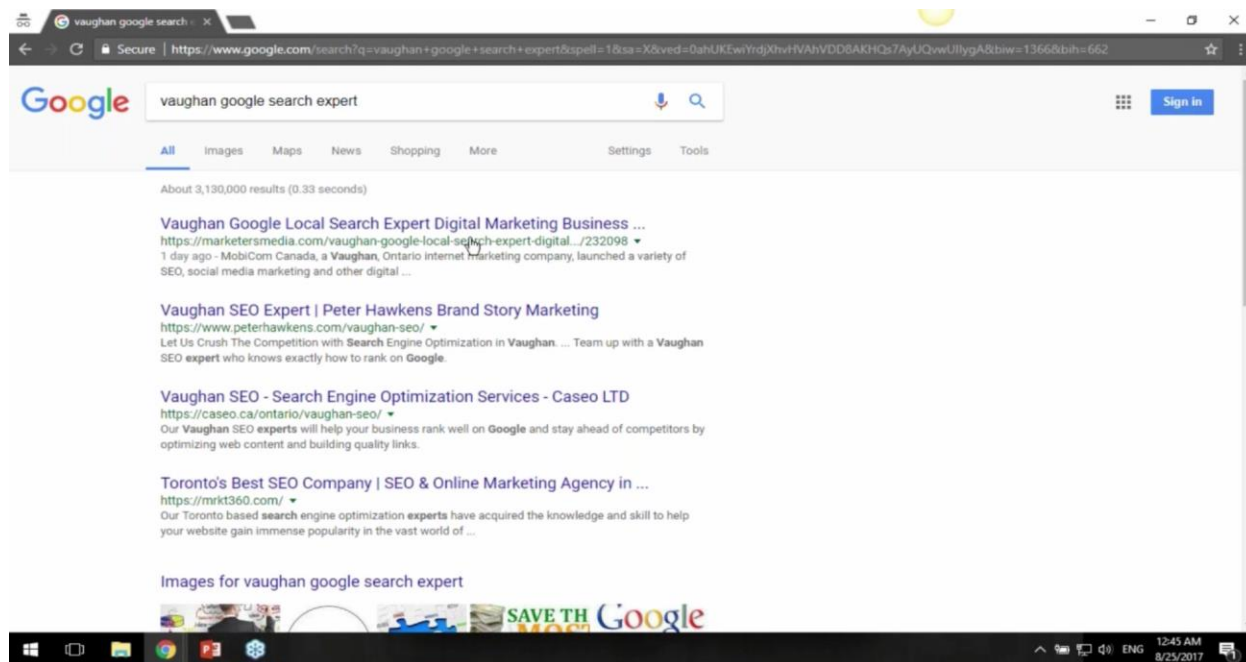

The next keyword he tried was, “webinar sales expert B2C report,” and once again, the page appeared at the top of the Google results. If you had this kind of exposure, you could do pretty much whatever you wanted with it. Jay also searched for “webinar sales expert B2C strategies”. This time, Jay’s page was the second one listed, underneath a paid ad. Finally, Jay searched for, “webinar sales B2C secrets”. Once again, Jay Boyer’s page was listed first.

Let’s say that you wanted to make some recurring income on the side. You could use this system for that as well. Another keyword that Jay used was “Vaughan google search expert”. This was for a local business that has used Chris and Jay’s system. They listed it one day ago, and the business was already at the top of the search results, as you can see in the screenshot below. You may notice that the URL shows the team is leveraging a huge authority site called MarketersMedia.com, and that’s causing this business to outrank all of their competition.

One way that you could make money with this system easily is just show a client you are trying to close how you can do this. If you were to show someone who was thinking about doing business with you results like this, you'd close that deal immediately. For these types of results, businesses will typically pay \$700 - \$1,000 a month, and that's recurring income. Anyone who has ever tried to do this knows that this isn't easy. In fact, during the live presentation of this material, an audience member pointed out that he had been studying how to rank on Google for five years, and he was very impressed.

Businesses are stunned when they see these kinds of results, and they want to pay you money because they want more customers. You have a system that allows you to get them to the front page of Google in almost no time at all. When you show them these results, that's all they want to see. You can build trust with them instantly because all they care about is what you can do for them.

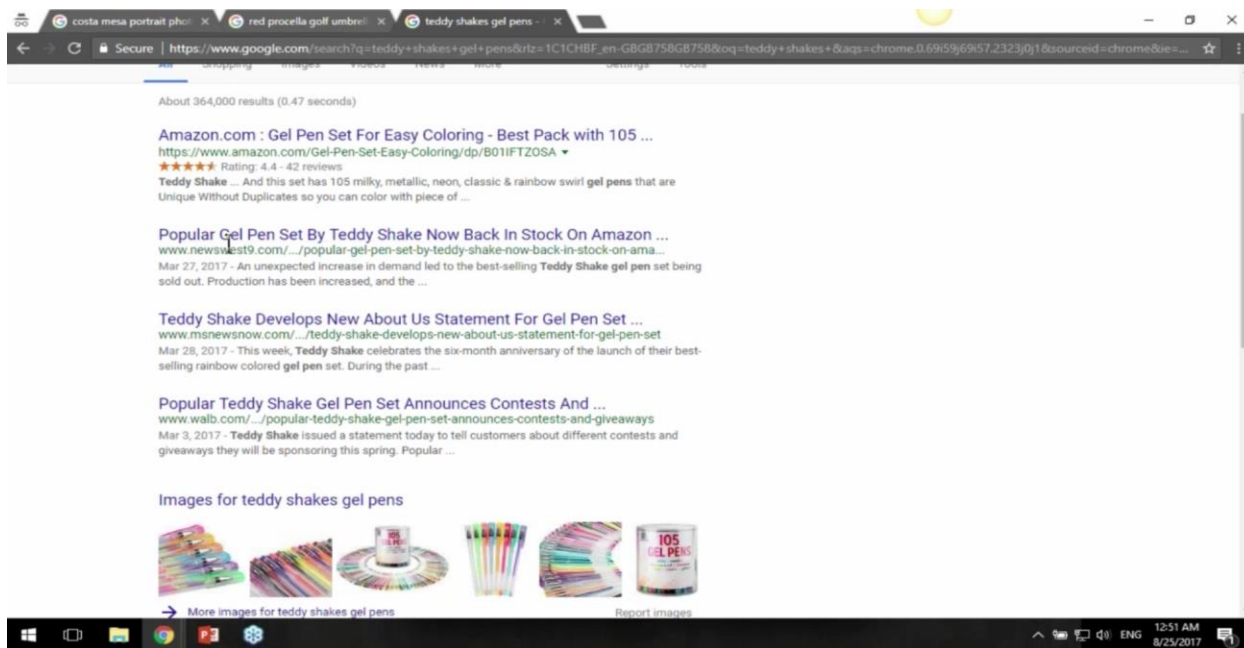

Jay also tried the keyword, "Vaughan local marketing expert". This time the page ranked third, but it was still on the front page, and it only took one day to get it ranking for the keyword. It was ranked first for the keyword, "Vaughan local search services," and that was with 14,000,000 competing results.

Another keyword Jay tried was, "Costa Mesa portrait photography specialist," and it came up at the top of the results as well. If you were a photographer in Costa Mesa, this would bring about incredible results for your business. This system doesn't only work for local businesses, however.

**[Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)](#)**

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

Jay also looked up, “red procella golf umbrella,” which is a fairly new ecommerce product. You want customers who are looking for exactly what they want, by the way, because someone who just searches the term “umbrella” may visit your page but not buy because the product isn’t exactly what they are looking for. You want highly targeted traffic coming to your pages because you want people to find exactly what they are looking for and buy it from you. In this case, the page came up second on the Google rankings, but it was still on the first page, and it only took 14 hours to get it there.

Let’s say that you typed in “teddy shakes gel pens”. This is an ecom product, which sells on Amazon. The first result to come up when you search for this is an Amazon listing, and that’s perfectly normal, but this product also comes in second in the results. That’s because of the SkyRanker software. In fact, this was true all of the results shown on that page. So, basically, the company that produces these pens owns the entire first page of results. This is shown in the screenshot above.

Imagine if your product took up the first page of the Google results for keywords that people would search for to find your product. This could be product, your service, and your brand. Jay also points out that when people search for Amazon products, they are looking at the review rankings. That means when they see your product or brand name they are going to do a Google search on your product. Make no mistake about it. When they do, what are they going to find?

Jay recommends Googling your product to find out what people are going to see. When it comes to the owners of these gel pens, these guys are covered. That’s because they have done

campaign after campaign and dominated the Google results. It's an absolute wall of authority that no one can touch, and that's what makes this system so incredible.

Right now, you might be wondering, "Yeah, but doesn't something like this take time and a lot of effort?" That could be right, but you have to appreciate the fact that people pay thousands of dollars just to have one well-ranked page. You just saw a whole page of results that a business was able to dominate. Now, what if this wall could be built for you and all you had to do is hit the "on" button? Then, what if you wanted another one, and you could just hit the "on" button for that too? You could just keep continuing on and on and it would all be done for you on autopilot.

## What Makes SkyRanker So Different?

The screenshot shows a web browser window displaying the 'Press Cable' software interface. The main heading is 'Choose Template'. Below it, there is a 'Press Release Type' dropdown menu with 'New Website' selected. The 'Your Website' section contains several input fields: 'URL', 'Topic' (with a hint: '(What your website is about. Ex: Herbal Remedies, Colic Cures, Credit Repair)'), 'Target Audience' (with a hint: '(Who your site is for. Ex: Vegetarians, Homeowners, etc.)'), 'Company Name', and three 'Feature' fields (labeled 'Feature 1', 'Feature 2', and 'Feature 3', each with a hint: '(A feature of your website. Ex: enhanced search functionality, new blog posts, a membership forum, etc.)'). The browser's taskbar at the bottom shows several open applications, including 'Press Cable - Google', 'GoForWebinar', and 'Pinterest.com'. The system tray on the right shows the time as 10:53 and the date as 10/08/2014.

SkyRanker uses this Press Cable distribution. You could do it the traditional way, which is to write a 300-word article. Instead, you can use SkyRanker's content software. This is shown above. All you do is choose a template. So, whether you've got a new blog post, a review of an affiliate product, or you've got a new product out, or you're working through Amazon, or even helping out a local client, the templates are in the software and more is being added all the time.

If you want traffic from Google, doing a press release is really a mandatory thing. However, you can't do a press release through just any distribution channel because if you don't get on those high-authority news sites, Google isn't going to pay attention. On the other hand, if you do get on one of those news sites, you'll be up there with other big brands, and it's going to make a lot of difference in the rankings that you can get. You start out by filling out the following fields:

- URL
- Topic
- Target Audience

**[Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)](#)**

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

- Company Name
- Feature 1
- Feature 2
- Feature 3
- Name of Person Providing Quote
- Title of Person Providing Quote

You fill out all of these fields so that SkyRanker can generate a press release for you. Each template is going to request different types of information from you. The answers that Jay typed in are shown in the screenshot below. It only takes about a few minutes to fill all this out. When you are done filling these fields out, simply click on the button at the bottom labeled 'Show Me My PR'. Almost instantaneously, your press release will be written for you.

The screenshot shows a web browser window with the SkyRanker form. The fields and their values are as follows:

- URL:** http://skyranker.com
- Topic:** (What your website is about. Ex: Herbal Remedies, Colic Cures, Credit Repair)
- Press Releases:** Press Releases
- Target Audience:** (Who your site is for. Ex: Vegetarians, Homeowners, etc.) Internet Marketers
- Company Name:** SkyRanker
- Feature 1:** (A feature of your website. Ex: enhanced search functionality, new blog posts, a membership forum, etc.) Gets your content published on high authority news websites.
- Feature 2:** (an additional feature of your website) Creates over 200 indexed backlinks to your website.
- Feature 3:** (an additional feature of your website) Create content in less than 5 minutes using our rapid content creation tool
- Name of Person Providing Quote:** (name of person discussing your website) Chris Munch
- Title of Person Providing Quote:** (ex: CEO, Director of Marketing, Expert Entrepreneur) CEO

A blue button labeled "Show Me My PR" is located at the bottom of the form.

When your press release appears, you might need to change the headline because you'll want to include your major keywords in it. That's how Jay can rank for so many different keywords; he adds them to his headlines. There's training in the member's area on the best ways to go about this. The training videos are short, but thoroughly explain what should be done. Jay recommends going through them a couple of times.

[\*\*Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)\*\*](#)

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

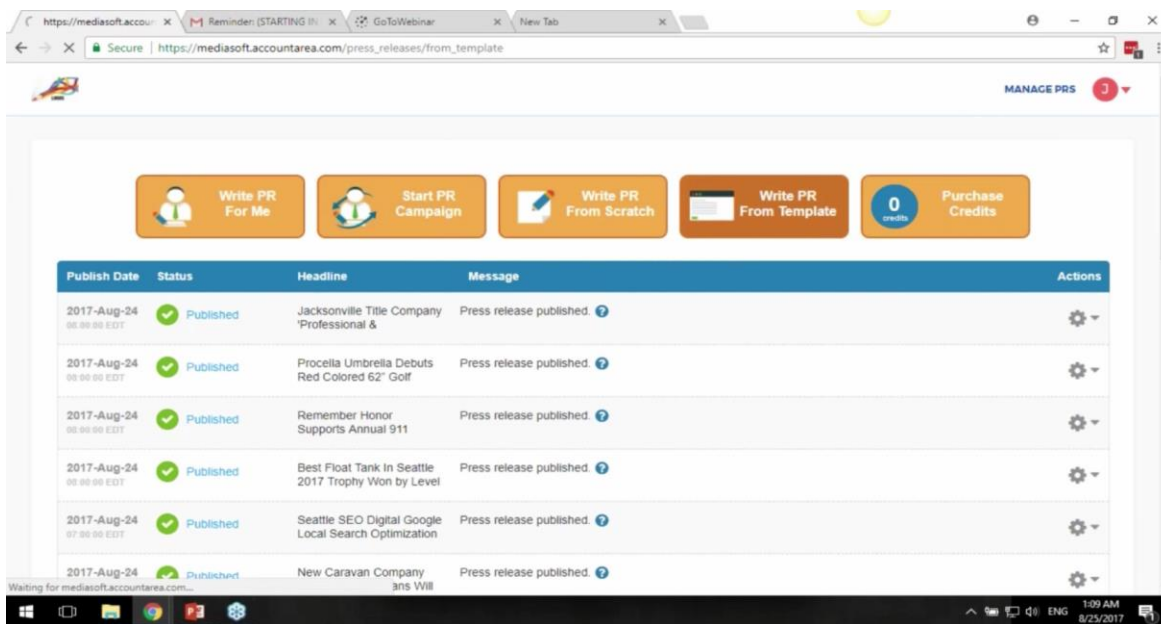

The cool thing about all of this is that you fill out a form, and your press release is written for you in seconds. Once it is generated, you might quickly proof read it to make sure it's everything you want it to be, and if there was something in it that you didn't like, you could quickly edit it. The point is that it's almost ready to go, and you don't have to spend the time writing it all out yourself. After checking it, if you are happy with it, you can simply go through and submit it. You can get this content out really fast, which is extremely powerful because the more you can get out there, the more you are going to make.

This is something that you can devote a little time to a couple of times a week and you're not going to get overwhelmed by it. Even though it doesn't take very much time, the result is traffic that you can profit immensely from if you use this system optimally. Jay has been doing this since 2008. Six years later, he is still doing it and sharing his secrets with you because it works so well. He hasn't even covered some of the more powerful stuff. It's just crazy what sorts of numbers you can get when you target traffic with your keywords. This is covered in the training as well.

## How the Skyranker System Works

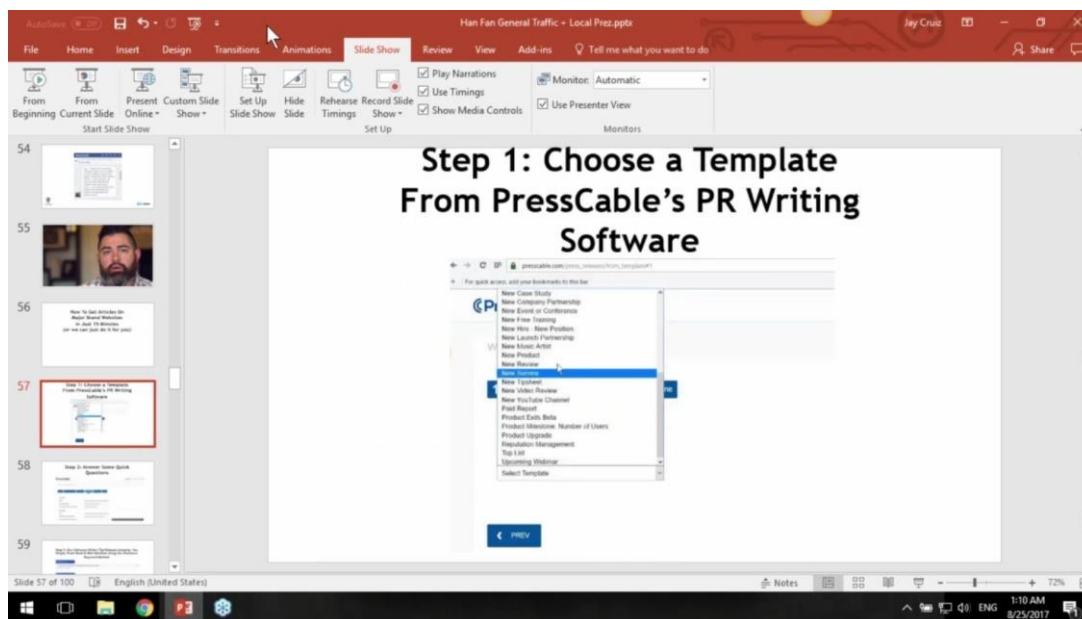

If you would like to know how the team is getting these articles on major brand websites, they are using press releases, but not in a way that you've ever seen before. They are really focusing on ecommerce, Facebook pages, and so on, and they are getting traffic in a way that no one has ever done so before. Also, they are picking up clients in the local space like no one has ever gotten before.

The secret to all of this is an incredible piece of software. It took the team a long time to put together, and they invested hundreds of thousands of dollars into it. The first thing you do is choose a template from PressCable's PR writing software. This is demonstrated in the screenshot below. This even includes a template that was created just for book launches. If you are writing eBooks or creating other types of digital info-products, this template is perfect for you.

[\*\*Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)\*\*](#)

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

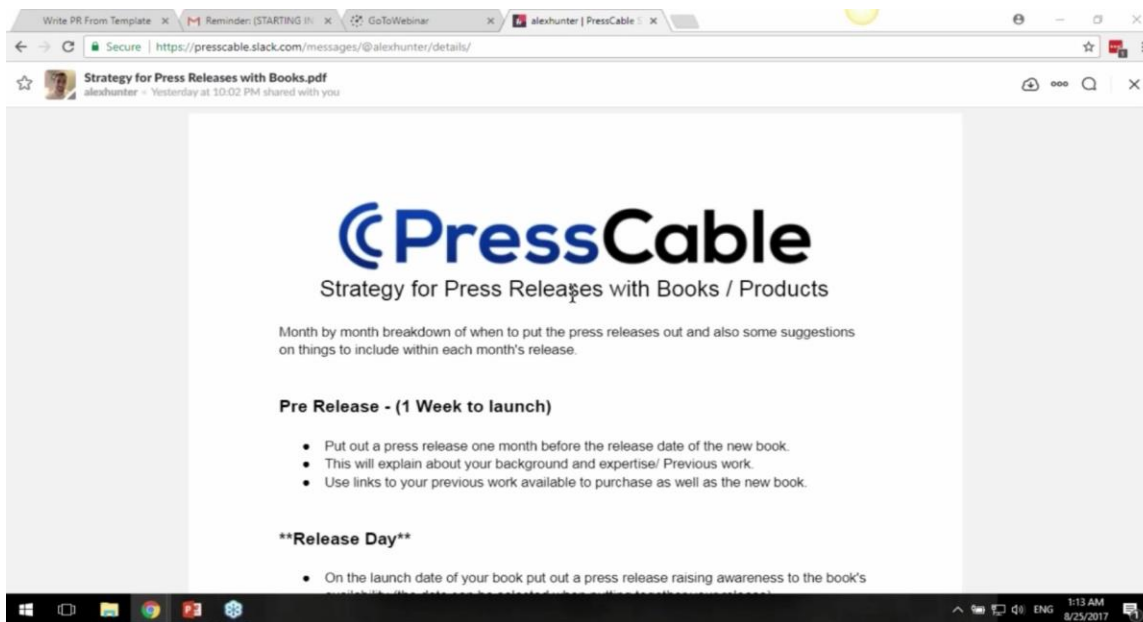

When you create a template, you'll simply spend a couple of minutes filling out some fields. This is mind-numbingly easy to do. All of the information you provide is spun into a press release by the software. The link to your product, site, Facebook page, etc, will be provided within this article. This is going to provide you with the traffic you need to get your message out there and your products sold.

When you finish creating your press release, you hit "Submit," and it will go to hundreds of authority sites. Actually, it's guaranteed that it will reach over 300 of them. Again, you can also use this to gain trust and make agreements with local businesses. Further, you can even link this to your listings on Amazon.

**[Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)](#)**

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

The team has also put together a PDF to help their students succeed anymore. If you look at the screenshot above, you'll see that it's a step-by-step strategy for using these press releases for book and product launches. This document is only about two pages long. So, this strategy is very precise, simple, and easy to implement.

The document recommends that you use one press release a week for your launch, and then on the release date you do another press release to pump up your traffic. You do a press release one week after the launch. After that, you should do one press release each month to follow.

PRWeb is probably Skyranker's biggest competitors, and they charge \$369 for a single press release. That's not for 10 or 15; it's just for 1, and you would have to get your article written. They do not have the software to do this. PRWeb is one of the biggest online distributor of press releases, and people pay this heavy fee because press releases work to get traffic and eyes on an offer. Local businesses are typically charged between \$1,000 and \$5,000 for these types of services.

Not only do you get a better price for your press releases when you use Skyranker, but you are going to get access to a business model that works. There are 14,000,000,000 English-speaking businesses around the world, so there's no lack of opportunity there. This business model is easily worth \$10,000 in itself. Whether you are trying to build a recurring income, or trying to build that wall of authority, or just trying to sell your own products or services, Skyranker is what you need.

## 3 Step Local Client Business Model for \$5k-\$20k/mo

1. Find Local Businesses In The Right Niche
2. Contact Them With Our Killer Offer And Lock in Clients (stay to the end & I'll give you this email template for free)
3. Get Paid \$500-\$1000/mo Per Client and Use Our ZERO Fulfillment SkyRanker Marketing Method to 2-3x Customer Leads For The Business

The Skyranker team wants you to succeed. After all, the more offers you sell and the more businesses you promote, the better distribution deals they can go out and make. They get more case studies, and word of mouth will spread, so everyone wins. Again, you only have to follow three steps to be successful with the local business model. The steps are:

1. Find local businesses in the right niche
2. Contact them with your killer offer and lock in clients
3. Get paid \$500-\$1,000/mo per client and use the Skyranker "Zero Fulfillment" marketing method to 2-3x your customer leads for businesses

If you can get just one client a month, you can create a \$72,000/ year business, and by year two, you could potentially be making \$144,000/yr with this business model just by continuing to add one client per month. You can do this as a side business, as you publish and promote your own products, or you can focus in and really make a killing with this particular business model.

Would it help pay for your mortgage, your car payment, or maybe putting your kids through college? Remember, you are being given this business model, being shown how to use it, and you can fulfill this promise to local business with little or no work on your part.

What if you could get access to the SkyRanker press release platform at such a small price that it would pay for itself in no time at all? What if you were given a small challenge today that would allow you to pay for your investment within the next 7 days? The challenge is simple. ### 3 Case Studies: Jay Boyer's Amazing Results Using SkyRanker

Please note that Jay Boyer is not simply endorsing SkyRanker without any idea of how well it works. No way! He's actually created some incredible results with this platform as well for years.

But Jay wanted to make sure that you understood how quickly you can get Page 1 results for your own press releases. And so recently, Jay set up some case studies of his own, promoting 3 different types of products/pages:

- An ASM-style" Amazon physical product of his...
- A Kindle Ebook of his, and...
- A niche blog

Once again, within 24 hours Jay Cruz informed Jay that not only were all 3 products ranking on Page 1 of Google for multiple keywords, but they were all the #1 organic search result! Have a look:

#### CASE STUDY A - #1 Google Ranking for an Amazon Physical Product PR

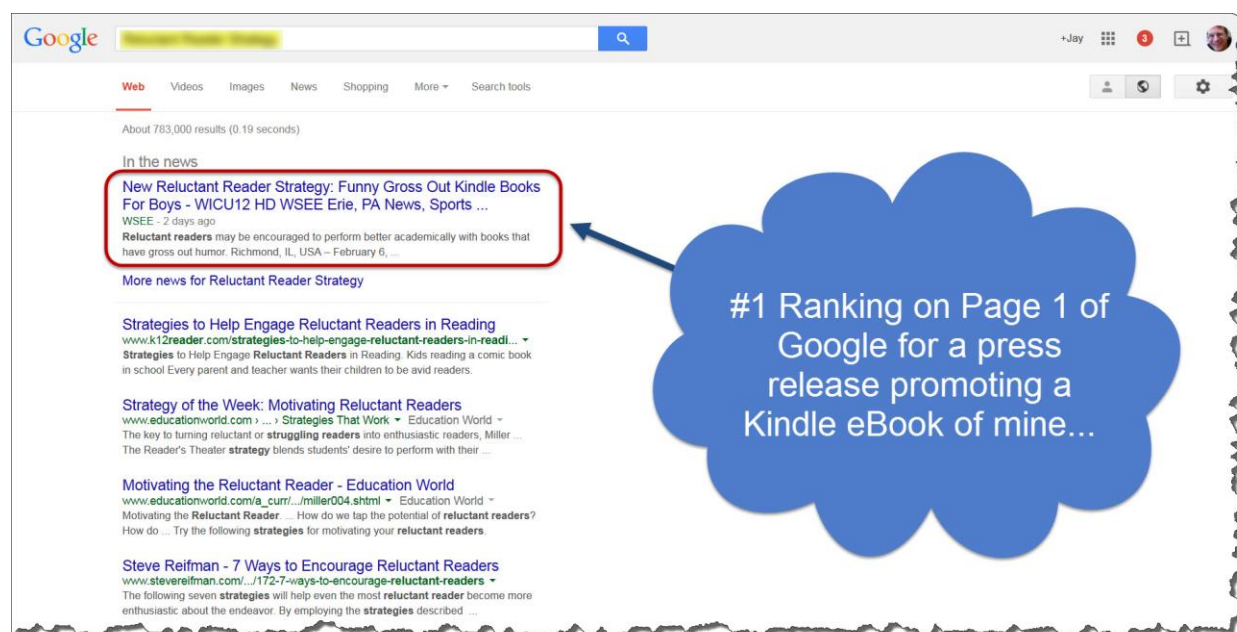

[Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)](#)

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

This case study was remarkable because of the fact that they were not only able to get the press release ranked #1 within 24 hours, but this is a very competitive keyword! Why do I say that? Well, just have a look at all of the ads that advertisers **are paying for** (in yellow) surrounding the two completely FREE listings that Jay has ranking #1 and #2 in the organic search. What's even more interesting is that Jay also reported that he saw an almost 20% spike in Best Seller Ranking and sales for this particular product this weekend...and while it's impossible to directly correlate these press releases and Amazon product sales, bear in mind that this particular physical product is seasonal and sales typically don't start heating up until late Spring.

### **CASE STUDY B - #1 Google Ranking for a Kindle eBook Press Release**

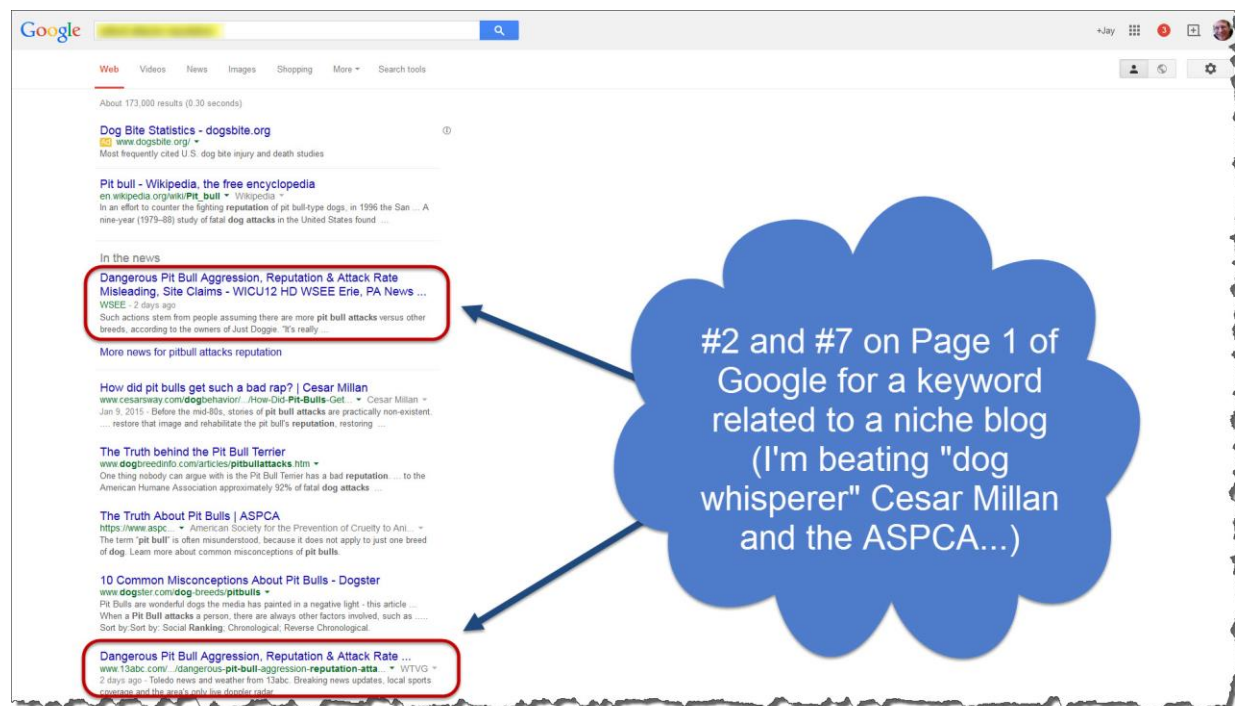

For all the Kindle authors out there, Jay chose to promote one of his Kindle children's books that has fallen down in the rankings over the last few months. A single press release submitted to a news site via SkyRanker resulted in a #1 ranking for multiple keywords related to the book (this example is for the keyword "reluctant reader strategy," which has 783,000 competing web pages vying for this #1 spot!). You can promote your Kindle ebooks in the very same way, and you can make it happen in less than 48 hours from right now! ## CASE STUDY C - #2 Google Ranking for a Niche Blog Press Release

And finally, just to prove that you can in fact get multiple Page 1 listing for just about anything under the sun, here's a screenshot of Google search results for the keyword related to a niche blog of Jay's (this press release links out directly to the home page of the blog). As you can see, this top listing is outranking the incredibly popular "dog whisperer" Cesar Millan's blog, and the ASPCA website. Again, please note that this is just ONE dog-related keyword that this press release is being ranked for, and it's also being picked up on multiple news sites.

Needless to say, from their experience with this amazing traffic system, Jay recommends SkyRanker 100%, and will continue to use it moving forward in their own business to promote all of their Kindle ebooks, Amazon product, info-product launches, niche blogs, Facebook Fan Pages, webinars, and . It works, the results are long-lasting, and it's a fantastic way to drive free traffic from outside of Amazon directly to their product pages.

Yes, SkyRanker is an incredibly powerful service, and gives you the ability to generate push-button traffic to just about any web property, product, or page that you like. However, as previously mentioned, the price will be going up in just a matter of hours. You're getting in on the inside because you are friends and subscribers of Jay's, but time is of the essence. You must jump in before Sunday at midnight, PST before this disappears entirely and will no longer be available.

## 4 Ways to Make Money With the SkyRanker System

You might already have an idea in mind about how you can profit from this software and training. If not, here are a couple of suggestions for you:

### ***Strategy #1 – Make Money With Local Clients***

As previously discussed, you can use this system to make a profit with local clients as well. There's a video in the member's area, which goes into this. There's training on how to make a profit selling affiliate offers, CPA offers, and your own products as well. It is recommended that you take a look at all of this training because you might get some ideas on other things that you can do in your business in addition to what you already plan on doing. Here is a breakdown of how you could go about using this system for local clients:

- Choose 5 potential clients.
- Submit content via SkyRanker for each of them. You don't charge the client upfront.
- Then show the client the results when you have the content ranked.
- Control where the traffic goes from the content with a simple redirect script.
- If the client stops paying you you can send the traffic somewhere else.
- Charge \$50-\$500/month+ for the rankings.
- This is covered in detail in the SkyRanker training.

When you show clients that you can achieve these results, they will be thoroughly impressed because these are the results that they have been hoping to get themselves. You can then pitch them on potential future results and ask for a large fee upfront. So, you're actually going up to them and asking "I've essentially already done this for you, do you want it?"

The reason why you can do this for five different clients is because you can use a redirect script. You'll learn more about all of this in the training, but all you really have to do is paste a URL into a piece of software, and it will give you a link which allows you to control where the traffic goes. You can do this with affiliate offers as well. In other words, you can send traffic to Affiliate

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

Offer A and Affiliate Offer B very easily with this system. You can even do both, and test out which pays the best.

You'll probably choose to have clients because you can "rent" these Page 1 listings out for \$500 - \$700 per month to each of your clients. Some people feel more comfortable charging only \$50 a month starting out, but that's really kind of ridiculous because you can make a lot more. So, you might charge a small amount initially, but it's recommended that you move up to charging a lot more soon. People will gladly pay it if they are getting the results that they want. You'll receive more training on these methods when you receive access to the SkyRanker member's area.

### ***Strategy #2 – Kindle Ebooks, Amazon Products, and Affiliate Programs***

- Choose a Kindle ebook (how-to niche titles work best) or an Amazon physical product of yours that you'd like to sell more of, or...
- Choose affiliate programs that pay \$100+ per sale (SkyRanker training includes a list of high paying affiliate programs).
- Target keywords with "buyer intent" (SkyRanker training includes a pdf and video showing my proven keyword selection method in detail).
- Make profits immediately.
- Do this repeatedly so that you keep profiting from traffic that comes years after you've done the work building up your passive income.

SkyRanker is a fantastic way to generate traffic to any kind of Amazon product. In fact, Jay was able to get Page 1 rankings to both a Kindle ebook and "ASM-style" Amazon physical product of theirs within 48 hours! All they did was follow the training inside the members area, write a short informative article about the book or product, and blast it out using the distribution service. It's that simple. Not only were they able to rank for multiple "buyer" keywords related to their Amazon book or product, and get the press release ranking, but they were actually able to get the Amazon product page itself ranking on Page 1 as well! This is how you dominate the search engines, drive massive external traffic to any of your Amazon products, and increase your royalties and sales almost overnight!

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

If you want to earn commissions using SkyRanker by promoting affiliate or CPA offers, you want to pick a higher paying one because that way you'll make a lot more money for the effort you put in. If you join Jay's program today, he is going to send you a list of high-paying offers as a bonus. Of course, you could use this system to promote products of your own or websites that you already have in place as well.

Again, you'll be targeting keywords with buyer intent. The trick to this is simply to put yourself in the shoes of the person typing in that keyword and thinking about what they might be doing. The third step is simply to publish and start raking in profits. Finally, you just rinse and repeat. The first time you do this, if you follow the training effectively, you'll get a return on investment on what you've done. You're going to make a profit, and the more you do this, the more that profit builds up.

### ***Strategy #3 – “Launch Jacking” Product Keywords***

- Check out a launch calendar like Muncheye or JVNotifyPro, or Marketplaces like Clickbank and JVZoo to find a product you'd like to promote.
- Use SkyRanker to quickly rank for the product's name and buyer keywords like 'Product Name Review' or 'Product Name Bonus'.
- Link to your product review website or a landing page and enjoy the commissions!

### ***Strategy #4 – “Seeding” Viral Traffic Campaigns***

- Place viral content on a minimalist landing page with nothing but the content and social share buttons.
- Submit a SkyRanker release promoting the content, and let PressCable drive 200+ backlinks to the site and a bunch of initial 'seed' traffic.
- Watch your rankings, traffic and social following increase — and if you happen to place an affiliate link on your landing page too — Enjoy Your Commissions!

All of these monetization methods are covered in detail in the SkyRanker members area, along with many more. In the full Skyranker training you'll see a whole different range of ways you can make money creating and submitting press releases with the PressCable service.

By now you've probably also thought of many different ways you can use the first page rankings and traffic you can get this way to generate profits for yourself. Just remember that this method works because your content lands on authority news sites that people trust.

## How to Access Jay's \$875 SkyRanker Bonus Package

Jay wants you to succeed with this SkyRanker system...and beyond. That's why they've put together the biggest and most valuable collection of traffic training that they've ever offered before...yours to use with their compliments with your investment in the SkyRanker system. It's worth \$875 and they call it the "Ultimate Web Traffic Package". It is a package that will also help you generate traffic and get eyeballs on your Kindle eBooks, on your physical products, on your squeeze pages, on your blog posts, on your Facebook fan pages, etc. That is how money is made online.

You need traffic, and that's exactly what this bonus is covering. It kind of picks up where Jay and Jay left off on the live training. You are going to learn how to get traffic through YouTube, how to do it with Google Plus, and through several other methods. They are calling this The Ultimate Web Traffic Package, and it starts off with 2 done-for-you book funnels. If you've published anything to Amazon Kindle or Createspace, these funnels are going to help you build a huge email list of your book buyers (Jay's added thousands of book buyers to his email subscriber list using these very same book funnels).

### The Ultimate Web Traffic Package

2 "Done-For-You" Book Funnels

Just click on the links below for a copy of each of these funnels that you can then customize for your own book(s).

**[The "Free Gift" Funnel](#)**

This template can be used as-is, just plugin your own free gift and link to it from your book to get your readers from Amazon onto your own list so that you can let them know about upcoming books and deals. This funnel includes an opt-in form and a delivery page, with social share links and recommendations for other books.

**[The "Free Digital Copy" Funnel](#)**

This template can be used as-is, just plugin your own book files and put the link into the print version of your book to get your readers from Amazon onto your own list so that you can let them know about upcoming books and deals. This funnel includes an opt-in form and directions for how to take the digital versions and read them on their computer or ereader of choice.

First, you're also going to receive a "Free Gift" funnel. As you probably know, Jay loves to collect the email addresses of the people who buy his books. However, he's had to figure out how to collect them himself because Amazon will never give you that information. Jay is going to show you exactly how he does this and how to add your own customers to your email list.

**[Click Here for Instant Access to SkyRanker \(and Lock In Jay's \\$875 Bonus!\)](#)**

**IMPORTANT** - This Special Offer Disappears on Sunday, August 27<sup>th</sup> @ midnight PST

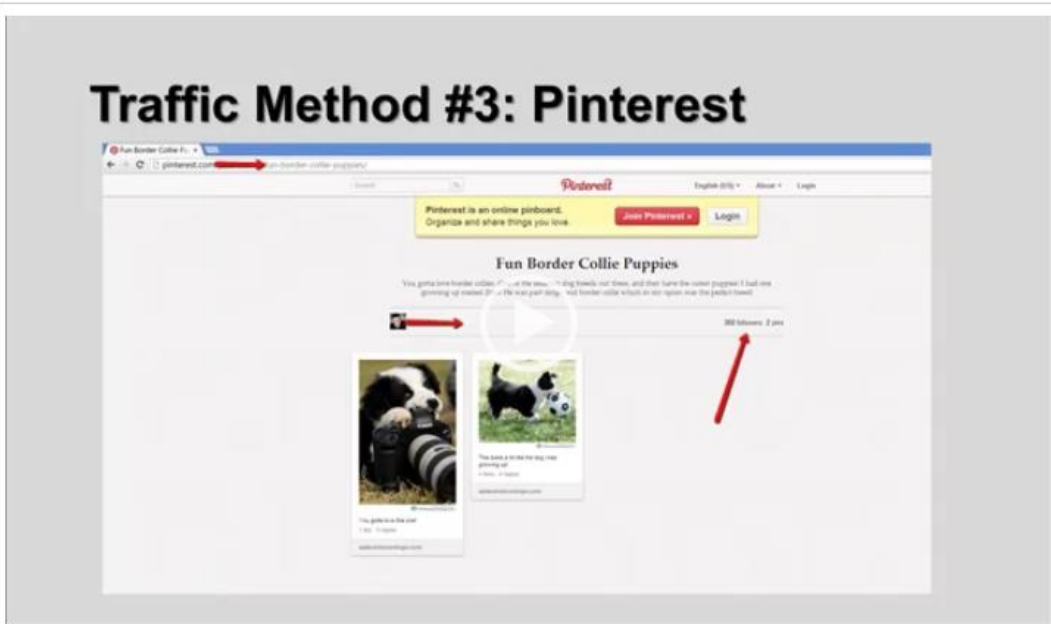

On top of this, you'll receive a "Free Digital Copy" funnel. This is another type of funnel that Jay uses. He attaches this type of funnel to his print-on-demand books. With this funnel, he gets people to opt-in so that they can receive an eBook copy of the book they have for free. It's yet another tactic that Jay uses to explode his business exponentially. He gets his customers onto his list this way, he builds a relationship with them, and turns them into raving fans of his that are willing to buy just about anything from him.

Next, you'll be able to access a course video training course called "**25 Instant Traffic Methods**":

25 Instant Traffic Methods

That's right, you'll be able to learn 25 Instant Traffic Methods through an incredible video series, and most of these traffic methods are free! You'll be able to learn some stuff that you have never heard of before. These are traffic methods that you're going to be able to leverage for years to come to drive targeted super-targeted free traffic to all of your valuable assets online.

Another exclusive bonus that you'll be receiving is the YouTube Traffic System, which is a very sneaky system that Jay has only talked about a couple of times in the past and only with a select few students. He does something on YouTube, and although he is not the only person using this tactic, it's certainly not a traffic system that is widely known. He has a way of tapping into viral videos, and some of them have millions upon millions of views. Then, he sends the visitors that come to watch that viral video directly to his squeeze page, to his Amazon products, etc. This training will allow you to do the exact same thing. Jay calls this his YouTube Piggybacking System:

## YouTube Traffic System

The screenshot shows the YouTube homepage interface. The main content area displays several video recommendations, including a news video about North Korea, a Jurassic Park 3D trailer, and a video about a fan incident. Below the screenshot is a list of seven items:

1. YouTube is the Golden Goose
2. Finding Videos in Your Niche
3. Piggybacking Method Explained
4. Select Appropriate Videos
5. Recording and Tracking Video Data
6. How to Contact Video Creators
7. Final Advice and Piggybacking FAQs

Jay also gets a lot of requests for training on how to successfully and profitably use Facebook ads. This bonus includes a 21-video series called “**2-Cent Facebook Ads**” showing you exactly how to do this. It takes the mystery out of the process so that you can get a return on your investment. Jay estimates that 99% of their students do not know how to use Facebook ads successfully. You’ll know exactly how to do that after you go through this video training.

The screenshot shows the Facebook Ad creation interface. At the top, it says "2 Cent Facebook Ads". Below that, the "Advertise on Facebook" section is visible. The main area is titled "What do you want to advertise?" and includes a search bar for "Choose a Facebook destination or enter a URL:" with a dropdown menu showing "Offline Videos" and the URL "http://offlinevideos.com/". Below this are fields for "Headline:" (containing "Offline Videos"), "Text:" (with a character count of 58), and "Image:" (with a character count of 154). There is an "Upload Image" button and a link to "or Select From Library". A "Related Page:" section is also present with a checkbox for "Show social activity about Offline Videos next to my ad".

Below the main ad creation area, there is a "Preview and Edit" section with two tabs: "News Feed Format" and "Right Column Format". The "News Feed Format" tab is active, showing a preview of the ad in a news feed. The "Right Column Format" tab is also visible, showing a preview of the ad in a right column format.

At the bottom of the screenshot, there is a video player with a progress bar showing 00:46 / 07:42. Below the video player, there is a list of video titles:

1. Introduction to Facebook Ads
2. Set Up Your Tracking System
3. How to Get Started: Research
4. Creating a Good Ads
5. Pique Their Interest
6. The Body
7. Targeting
8. Promoting: Link Cloaking
9. Landing Page

Finally, if you are selling Amazon physical products through FBA, you are going to be receiving the **Amazon Sponsored Ads-Made-Easy program**. This is a brand new video training that Jay made for James Jones’ SOAR training, which costs \$500. So, if you didn’t have a chance to purchase that, don’t worry. The training that Jay contributed to it is included as a bonus in this package. It is not available anywhere else, at any price.

## Here's What People Are Saying About SkyRanker

Needless to say, people were thrilled on the information presented in this Live Workshop, and the incredible value that Jay made available with this system. Jay- As you requested. My feedback on why I was so excited to sign up for the Press release package. I ended up signing up for the 20 press release package as I truly see this book venture as a three legged stool. The book, the click funnel and the press release. They all three must be used for a chance at success. If not, it's hard to balance a profit out of all this work, I would guess. Started working on my first Optin squeeze page funnel yesterday. Making my freebie and polishing the book. Next to get the whole thing tied up in a bow and delivered for consumption. Thx again for all the suggestions/experience and willingness to share. Jay- As you requested. My feedback on why I was so excited to sign up for the Press release package. I ended up signing up for the 20 press release package as I truly see this book venture as a three legged stool. The book, the click funnel and the press release. They all three must be used for a chance at success. If not, it's hard to balance a profit out of all this work, I would guess. Started working on my first Optin squeeze page funnel yesterday. Making my freebie and polishing the book. Next to get the whole thing tied up in a bow and delivered for consumption. Thx again for all the suggestions/experience and willingness to share.  **Elizabeth Hartenberger** One of the most powerful benefits of this offer -- the credits rollover each month ... if you don't use them, they do NOT expire! (most other platforms are "use it or lose it"). I like to be able to save some of them up for a big product launch down the road ... This offer let's me do that!

SKYRANKER: I have joined because the recurring nature makes sense. I can see using the service now to help promote my current practice (spiritually integrated counseling/therapy) and then later use credits to help promote books that are coming out. I also appreciated the way that I could also use this to promote myself with citations being on news sites in ways that have otherwise been explored on other webinars.

I've known Jay Boyer for many years and he has always delivered top quality products at serious discounts. Jay has done it again. These products are usually something that he is using and prospering with. That is certainly the case with Chris Munch's SkyRanker press release product. This is truly one of the greatest and most versatile SEO traffic tools ever! The new automation features including the press release creation tool with dozens of different sales scenario templates which "automatically" helps you publish highly converting press releases in just minutes is unique, powerful and profitable. Further, the detailed press release training in the site is just fantastic. PR Web (the big dog in PR) does not have this feature at 10x price). For instance you can do press releases for your own business or as a service to other businesses. The price considering the value and ranking potential delivered of SkyRanker is just ridiculous! Jay has also created a custom bonus for this offering that highly complements this offering with training on many terrific traffic techniques and many are free. And soon Jay will release his own case studies of how is using SkyRanker and getting rankings for his own product. I highly recommend Jay and Chris and particularly Jay's offering of this revolutionary SkyRanker product! I am a happy owner of many of Jay's products and SkyRanker. Want very cheap traffic? Go get it. NOW!
