

Melainah:

Aloha everybody. I'm very excited to be here. And welcome to those who just stepped up from Level 2 to Level 3, and those of you who will be joining the conference for the very first time. So we're very excited to have you with us as part of our collective.

So, tonight we're going to talk a little bit about what's going to happen in this conference and what it's about. This conference is all about you, the individual. Everything you've ever done and everything we have done up to this point, has also, of course, also been about you, but has also been done in service to humanity and the Earth.

And while what we may accomplish in this conference will ultimately benefit Earth and humanity, it is first and foremost for you as an individual, as part of this collective.

The Master realm have informed us that the energetics in this year's Light Template, that they hope we can retrieve, are more massive than all the Light Templates that we have retrieved combined. They are huge.

Joan: Take a deep breath!

Melainah: Yes. Trust Joan, John and I when we tell you - they are huge. So, in order to help facilitate you in being able to hold these in your body, we're going to go through this process tonight.

For the past few years, we have been playing in and with very high frequencies of Light. As we have become more and more accustomed to being in those higher frequencies. And often times we will tend to forget about our bodies unless something is going wrong, or we have an ache or a pain that draws our attention to it.

But these Light Templates, in order for it to be usable for us, we have to hold them in our bodies, which means we have to be grounded.

So for that reason, tonight we are going to go back to basics. We are going to do a grounding process. And while this may appear to be a simple process, be assured that it is designed to prepare each of us for opening the next Time Lock at the conference.

And as you, and we as a collective, are not able to ground, we will not be able to hold these energetics in the body. They are so massive they will just push us out of the body and not be accessible to us at all. So this is all about you.

Changing the Grounding Cord from Center of Earth to Earth Star and Why:

So the grounding process - I was taught to ground and connect with the Earth almost 25 years ago. And I was taught to drop my grounding cord into the center of the Earth, and pull the Earth energy up from there, into the body. And that has served me well for all of these years.

However, Kuthumi and the Lords of Light have suggested that we no longer do that. They would like for us to now drop the grounding cord into the Earth Star, which is the Earth's Soul Star - so it's our Earth Star.

And here's the reason why.

We have been working to build our Light bodies to hold these higher frequencies. And the Center of the Earth still holds those lower 3D vibrations, so it does not serve us to hold those lower vibrations, and bring those energies into these bodies and our chakra systems that we've been working so hard to refine.

So the Earth Star holds the purity of the Original intention of Earth. And it is where Earth's memory codes are held.

And because it is where I have been dropping my grounding cord into the center of the Earth for so long, it was very familiar for me and very comfortable.

And when they suggested that we no longer do that, and drop into the Earth Star, it took me several days for that to really set in with me. It did not come automatically.

So it took me a few days to adjust to how it felt different in my body, because it did - it felt very different. The grounding cord felt different. And the energies pulling into the body felt very different.

So I'm sharing this so if you too have been dropping into the center of the Earth, know that you may encounter a few day adjustment period to really seat into that.

And just as a side note, as we go through this process tonight, I may inadvertently say Soul Star. But before this part of our exercise, know that I mean the Earth Star.

Our intention is not to replace or to change any practice that you may have. However, to maintain the synergy of our group collective as we are building the energetic pathway to the conference, we ask that you remain in and continue this practice through the conference, turning your attention to it every day.

So tonight is our first focussed step to the conference as a collective. Our group synergy creates a rhythm within our collective, which in turn allows for multiple frequencies of harmonics to occur within the Collective and to be held in the Crucible. Think of us as a cosmic swim team - synchronized swim team.

The beauties and the patterns that are created by being 'in synch' will allow for higher octaves to be reached by all of us.

So sit comfortably with your feet flat on the floor. Take a couple of deep breaths and we will begin.

Let's say hello to Mother Earth, to all the elements, and the Elementals.

2018 05 22 2018 Crystal Conference Pre Conference Call 1c page 4 of 10

Let's create a grounding cord and connect it at the base of your tailbone. And this can be anything you think you need.

It can be a light stream.

If you feel you need more grounding, it can be a tree trunk with roots, a crystal - anything you think you need to help you stay grounded.

Let's drop the other end into the Earth Star. And anchor it.

Tug on each end to be sure it is secure. You should be able to feel the tug on each end.

Be sure that your grounding cord is wide enough, so the energies can flow through it very easily.

Open the chakras in the bottom of your feet.

Call forth the higher, refined Earth energy from the Earth Star.

And bring up into the foot chakras on both feet.

And we will be bringing the energy into both feet simultaneously.

Slowly fill your feet with the Earth energy.

So using the meridians and all the pathways in the body, bring the energy up to your ankles.

Now let's bring the energy up your lower legs - filling the entire space.

Feel in rising to your knees.

And swirl the energy inside your knees to fill all points.

2018 05 22 2018 Crystal Conference Pre Conference Call 1c page 5 of 10

Feel the energy inside your knees to fill all points.

Now let's bring that energy into your upper legs.

And we will hold the energy here in your upper legs for a moment.

Now we, of course, have created a Unified field with all 14 of our chakras. And this is still in place and still operating as a Unified field.

But tonight we're going to focus on each of the first 4 chakras.

So as an analogy, kind of equate our Unified field with that of a well-tuned engine that has many moving parts. All the parts work together for the desired result. Sometimes though, we want to upgrade some of the parts for more power, with more efficiency.

So that is what we're going to do with these chakras.

We will fill the entire 14 chakras still in place. Sometimes we want to upgrade

Still holding that energy at the top of your legs, visualize your 1st chakra with an opening at the front side of your body, and another on the back side.

Notice the chakra spinning.

Increase the rate of the spin.

And with your intention, allow any old or discordant energies that no longer serve you in present time, or that hold you in separation - be cleared and removed.

Watch as these energies dissipate in the spin.

Take it up a little faster.

The root chakra is where the old survival energies are held in the body. With our collective intention, let's re-program the functioning of this chakra to thriving.

1st Chakra:

Now that the chakra is cleared, now bring that energy that we stopped at the top of your legs, into the front of the 1st chakra.

Allowing the energy of Mother Earth to fill the chakra.

As the chakra continues to spin,

Bring the energy through the chakra.

And out the back.

And then down your grounding cord, where it will flow back to the Earth Star.

We will be creating a continual flow from the Earth Star, into your chakra, back down the grounding cord.

Let's energize the energy flowing up from the Earth Star.

Into your body, with an intention such as - I am thriving in all aspects of my life - . even as specifics of what that looks like for you -

Good health, Joy, a supportive community.

See that flow of energy as it makes the loop.

Infuse the energy flow with words or pictures that support you thriving.

Take a breath.

2018 05 22 2018 Crystal Conference Pre Conference Call 1c page 7 of 10

Now let's place your attention again on the Earth Star.

And bring the Earth energy from that Earth Star.

Back up through your feet and legs.

Again stopping at the top of your legs.

2nd Chakra:

Notice the 2nd chakra spinning. Once again, increase the rate of the spin.

And with your intention, allow any old energies that no longer serve you in present time, or that keep you in separation, to dissipate in that spin.

Let it spin. Let it spin.

The 2nd chakra is where we view our place in the world, and how we perceive the world sees us.

Let go of any residual old programming of unworthiness, or not being accepted, or not being good enough. Let it all go. These are false beliefs.

So bring that higher refined Earth energy into and filling your 2nd chakra.

Let's infuse this energy from Mother Earth with I am worthy. I am capable. I am competent. I am the Divine Image of the Creator.

Then take that energy through the chakra, down the grounding cord, back into the Earth Star.

Keep that loop running in the 2nd chakra.

Set your intentions in that flow of energy. And know beyond doubt, that as the Divine Image of Creator, you cannot be unworthy.

2018 05 22 2018 Crystal Conference Pre Conference Call 1c page 8 of 10

And take a breath.

And once more, turn your attention back to the Earth Star.

Bring the energy up through your feet.

Up into the legs and to the upper legs. And hold the energy there one more time.

3rd Chakra:

Now place your awareness on the 3rd chakra.

See it spinning. Let's increase that spin.

The 3rd chakra is our power center in the body.

Give the command to allow all thoughts, distortions, beliefs and programming about Will and Power, to be released and removed from the body. Let it all go.

And give witness as you allow it to dissipate in the spin.

And bring that spin up a little bit more. And let it go.

And bring that Earth energy up into your chakra - allowing it to fill.

Let's re-program this chakra with the positive aspects of
internal Power for Self
with dominion over the body
being senior in the body
allowing compassion to infuse our thoughts, words and actions.

Let's align our Will with that of the Creator and with that of our Soul purpose.

Bring the energy back down the grounding cord

2018 05 22 2018 Crystal Conference Pre Conference Call 1c page 9 of 10

See your intentions flowing through the energetic loop, into your physical body.

Holding those intentions and energetics in this 3rd chakra.

4th Chakra:

And let's one more time, return our attention to the Earth Star.

Bringing the Earth energy back up through the Earth Star.

Back up through your feet, into your legs.

And again stopping at the top of your legs.

Now place your attention on your 4th chakra.

What do you see as you watch this chakra spin?

Let's increase the spin of the 4th chakra.

And allow any old hurts or woundings that may be there to dissipate and to be forever removed.

Let it spin. Let it go.

Now bring the energy into the Heart chakra.

Filling it with the love that Mother Earth holds for you. Let it fill every crevice.

Now bring the energy into the chakra.

Down the grounding cord. Back to the Earth Star.

Allow the energetic loop to continuously run.

2018 05 22 2018 Crystal Conference Pre Conference Call 1c page 10 of 10

By grounding into the Earth Star, it will assist to being able to stay consciously in that 5th dimensional space with love and respect and value for ourselves as individuals.

We now have 4 loops of energy continually cycling from the Earth Star.

Bringing those refined energies of Mother Earth into those first four chakras.

Take a slow deep breath. And one more. There is much occurring in the body and the chakras.

Now, call on the Elementals of Earth, of Water, of Air, and of Fire.

Ask for their assistance in keeping us anchored into the Earth Star of Mother Earth.

Also ask that they assistance us in keeping our grounding cord and these 4 energetic loops of energies clear, open, and free flowing.

The Elementals will also assist us in refining the energetic vibrations of this continual flow.

Now as you return to this tomorrow, and put your attention back on the grounding cord and these chakras - choose one or more Elemental for each chakra, that you feel will best assist you in maintaining these higher frequencies. And it may change daily depending on what is happening in your daily life.

So let's send our love and our gratitude to Mother Earth and the Elementals for assisting us tonight.
