

It is the Lords of Light, a Collective Consciousness of which you are a part. There is no separation in the Consciousness of All That Is.

The energetics that are present now within your consciousness and within your body are just the beginning stages of this vast energetic template of the 4<sup>th</sup> Triad. If you will remember when you first began to work with the Triadic system, that 3<sup>rd</sup> Triad, which was a more refined iteration of the Triadic system, took a while to develop. It took a while before all of the energetics of that vast Triad were available to you. We want you to know that this 4<sup>th</sup> Triad is similar in that the full integration of these massive imprints will take several months to be fully integrated in your consciousness and within your body.

Understand that does not mean that changes are not already evident to you: changes in your energetic system, changes in your consciousness. You cannot even imagine the changes that are forthcoming, Beloveds!

So, I would like to go a little more in depth with you in regards to this, the specifics of this Triad. First of all, I want to speak to you about this 9<sup>th</sup> chakra of yours, that holds the access juncture to we Lords of Light, and the Archangels, the Elohim, the Ascended Masters. Understand this also is a state of consciousness. We are not above you, outside of you; we are part of that massive Collective Consciousness of you, of the All That Is. We sit, as you have been told a while back, at the table with you in this creative process.

We are here to guide you in this massive transformation that you are engaged in, because we do not have any limitations. We do not have the limitations of a dense, physical body. So, we can guide you in the transformation of that body, so it is a more useful vehicle for you to navigate your life experience in. This is first and foremost on our agenda this year with you.

So, let us now talk about the OverSoul and the Christed OverSoul. We will go to that 8<sup>th</sup> chakra, which is part of that 3<sup>rd</sup> Triad, that is a very refined iteration of the Triadic system. That 8<sup>th</sup> chakra, as you know, holds Universal Mind. And what specifically is Universal Mind? Universal Mind is a function of Source Mind Energy that relates to you in physical form. It relates to your individual experience in a body. In addition, it performs a function, and that is to stimulate the consciousness of you as the OverSoul Consciousness.

Now, in a 3<sup>rd</sup> dimensional world, in a 3<sup>rd</sup> dimensional body, you see this 8<sup>th</sup> chakra as above your body. That is no longer the case. It is part of your Unified Field. It is within you. Also, your OverSoul in that 3<sup>rd</sup> dimension domed over the body. The OverSoul is you as that SoulSpirit Image of the Divine. It has all of the wisdom and the knowledge of every experience that you've ever had in the Creative Realms. It is wise and it is potent energy, because it, too, is part of you. It is a state of being in simultaneously navigating your individuality as Divine, as well as your Collective Consciousness as Divine.

[7:05] So, when this descension of SoulSpirit began to take place as you activated the beginning stages of your Light Body, that 8<sup>th</sup> chakra started its descent into the Unified Field. It started to activate within you the Presence of your OverSoul as being a part of your Unified Field, no longer separate or above it, because the activation levels of your Light Body have taken place. And you possess a 5<sup>th</sup>, 6<sup>th</sup>, 7<sup>th</sup> dimensional frequency range of consciousness, because of the templates that were recovered from the time locks. This was essential before any of this could occur within you.

So, your body is in major transition, Beloveds! Take care of it, nurture it, Love it as we move through these different processes to bring you fully into that 5<sup>th</sup> dimension on all levels.

Now, let's talk about the 10<sup>th</sup> chakra, which holds another level of Source Mind. What happens in that chakra, as it was stimulated and activated in last time we met in this Triadic state, is that it began to activate and open your Unified Field. There was a massive opening that took place. And this source of Source Mind also carried with it the Christed OverSoul. And that Christed OverSoul not only forms the Unified Field, it makes you conscious of your Collective nature and that you ARE that I AM Presence, that you ARE Source Mind, Source Energy..... that there is no separation here. There are only levels of consciousness, states of being, that you are able to access. This is an important, important step you have taken. And the full manifestation of that Christed OverSoul will take time to be fully integrated and to manifest fully in your consciousness.

So, don't expect a grand exhibition of this. It's a gradual process. And that is by design, not by us so much as by you. There is a..... in the ease and the flow that is maintained. And because that ease and flow of these massive energies is maintained, that stability that we've talked to you about time and time again with those 5<sup>th</sup>, 6<sup>th</sup>, 7<sup>th</sup> dimensional Light templates is very much applicable in this situation. So there is no force. There is no flood, but just this ease and gentle immersion in states of consciousness that you have yet to know.

Now, we won't speak too much about the Undifferentiated Light this evening, because we have talked to you about that. You know what that is. You have used it. You have created with it. You have made it applicable in your creative process.

The reason for the way in which we presented this to you in last session was to start to make you aware not only of the energetic templates and the effects that those have on you, both physically and non-physically, but to make you aware, Beloveds, that you are energetic Divine Beings and that you are drawing to yourself massive energetic formulations through the Magnetics of that Source Energy that you ARE.

That's the beauty of that 10<sup>th</sup> chakra's function. You ARE the I AM Presence! You have a level; you are a Holy Spirit. Are there levels of that Spirit? Of course! Are there levels of the Christed Mind that has been activated through the interface of that 10<sup>th</sup> chakra? Of course! This is just the beginning, Beloveds, just the beginning.

[14:11] So, as you have noticed, there is stability in your fields. There is calmness; the Element of Love is always present; there is no judgment; there is no rush to accomplish. It is a state of being and the energetics that hold it in place in your body that is being created in this very moment by you.

When next we meet in two weeks of your time, we would suggest to you that you journal, that you write your experiences, that you open up to the influences of the Christed OverSoul, the Christed Mind, your OverSoul, and that massive Unified Field that is being created. Prepare yourself for this next meeting, which will not be so much informational as it will be a Collective Consciousness meeting to discuss your impressions, your experience, to discuss with one another, so when one voices and another has something to add to that or a suggestion to be made, we encourage that.

We ask you to review what has gone on in this session, what went on in the previous session, and all of the reviews that were suggested to you previously when you were asked to join us in this meeting, so that you can ask various specific, relevant questions that relate to this process in your experience. It is in that preparation that you will have these questions arise. And we suggest that you sit with them to see if you can retrieve the answer. For it, too, is within you. So these questions that arise in our next meeting will be very specific. And many of you will share with us how some of these questions have already been answered or that you arrived at the answer, because it was within you.

This is a very important meeting and we want as many of you to contribute as possible. And just as we have, in the last meeting, in this meeting, we will close that Collective meeting with an energetic seeding of further energies that are needed as we move on.

So, Beloveds, here is another instance that you need to pay attention to. We are teaching you to BE a Collective Consciousness in these meetings, as you gather. You have known the energy, the potency of the energy, when this group gathers. You know that. So now, let us begin to function as that Collective Consciousness, as you converse and you share and you offer opinions. And then, within that Collective Consciousness, you receive the guidance that is very specifically needed.
