

JOAN: Well, hello, this is Joan.

JOHN: And this is John. Welcome! It's only been a couple of weeks, but we miss you all, so we needed to get together a little quicker. [Laughter]
This is, of course, Seating of the Divine Image, Level 2, Session 2, January 24, 2017.

I'm sure you're kind of wondering why, within a 2-week period, that we're getting together again. But, there just has been so much information and so much energy that our Good Friends are helping us with that. We got overloaded. There just wasn't enough time to lay the foundation that they wanted to lay. So, that's the reason that we're together today again so quickly.

Now, this session will have a centering meditation. We'll then open the phones up for some feedback information. We'd like to have you tell us what's going on, what has happened in the last couple of weeks, what you have noticed. This is just a good share for the group. Then we'll have some background information. And finally we'll have an informational session with the Lords of Light. And they are done, there will be a final energetic meditation. There will not be a question and answer session after they are done, just so you understand how it's going to work this evening.

Our next session, however, will be geared around a group discussion and a Q&A with Lord Melchizedek. So, again, the only thing that's constant with this group is change!

So, we'll be having a lot of fun here. Thanks, all of you, for hanging together.

So, to get started, let's all take a deep breath and assist Joan in bringing forth Archangel Gabriel for tonight's centering meditation.
