

So, dear Ones, let us now gather in the Collective Consciousness of you and of the All That Is.

And we are wishing now to stabilize a little more as well as add to the energetics that were given in the last session.

So, if you will take a deep breath.....
Let us begin with the spinning of this Triadic system.

Normally we would begin by starting with the 1st Triad. But, if you closely notice, that Triad is already spinning and has been spinning since the beginning of this meeting, as is the 2nd and the 3rd Triad, because that Crown was an integral part, as these energetics began to descend into the body, into the Unified Field.....

Your OverSoul is very, very present, no longer outside of yourself. And the consciousness and wisdom of your OverSoul is very tangibly present within your body and within the Unified Field..... It is unified into the fuller expression of who you are, in a body that is becoming a 5th dimensional vehicle..... It is part of your individuality and it is part of your Collective Consciousness..... Your ability to draw upon the wisdom, your wisdom, is much more available and is not dependent on any, hear me, any outside resource.....

Now, begin to spin that 4th Triad and notice how quickly that has happened. And the velocity is so vast, it almost disappears before your eyes of any physical expression. But you are not dependent on a physical expression. You are a vast Collective Consciousness emanating a Light that is so luminous, so refined, and so filled with Undifferentiated Light and Love that it is beyond your full comprehension. But you can feel it and you know it.

Now, as that Triad spins, allow it to fold into the first three Triads, which are already spinning at a very high velocity, because of the Presence of that 4th Triad spinning. And as it descends and merges into a complete unit, complete Triadic unit, it brings all of the attributes, all of the functions, all of the energetics into your physical expression, allowing you to express yourself as that Christed Emanation of Light, because your OverSoul is present within your body and your Christed OverSoul has now entered your Unified Field.

And you are in the beginning stages of creating a unification with your Christed Mind.....
[Long Pause]

[9:03] As a service to Mother Earth, let us anchor these vast energetics into the Heart of Earth, into the Christed Matrix, where these Light templates are reflected. And that Christed Matrix within the Heart of Mother Earth begins to expand exponentially in the Presence of this Triadic system's energetics.....

The whole interior has changed in this very moment of unification. It is luminous and Light-filled..... With the expansion of Earth's Christed Matrix, it draws into it its Christed expression..... its planetary expression as a Christed planet.

All of this activation happens because you shared all of the iterations of your Triadic system and your Unified Field. You expressed fully the wholeness of who you are, Divine Beings of Light! So Earth can now respond to you in kind and emanate Christ Consciousness in a different way, providing an environment that is unified.

The power of this Triadic system that you have activated within yourself, within your Unified Field, and within your body is potent, potent energy. Your touch, your Presence evokes Christ Consciousness.....

[Pause]

[14:30] You are in a state of being of such beauty..... and frequency..... that you can now understand what Yeshua said to you long ago: "My Father and I are One." You are unified, not just One, but unified in the Presence of the All That Is. You ARE that Presence.....

[Pause]

We will close our session at this time.

But understand that we remain a functioning Collective Consciousness, activated and fully unified.

Blessings, Beloveds, Blessings!
