

**IMPORTANT POINTS FROM THE FEBRUARY 2017 DIVINE IMAGE CLASS, LEVEL 2**

**From John's Review:**

Activation of the 4<sup>th</sup> Triad (9<sup>th</sup>, 10<sup>th</sup>, and 11<sup>th</sup> chakras)

brought to us the awareness that nothing exists outside of our Unified Field of energy;

brought to us a great calmness;

assisted us to further remember ourselves as the Divine Image.

When the 4<sup>th</sup> Triad descended into our Unified Field, merging with the first three Triads,

it affected those Triads considerably;

it had extensive impact on the physical body and its energy system;

it began the transformation of the 3D physical body into a 5D physical body; and

it led to the descension into our Unified Field and body of

the OverSoul, connected with the 8<sup>th</sup> chakra, and

the Christed OverSoul, connected with the 10<sup>th</sup> chakra.

The Christed OverSoul

makes us conscious of our Collective nature

and that we are the I AM Presence.

The mental-emotional body has started its Ascension.

Because of the influence of the 5<sup>th</sup>, 6<sup>th</sup>, and 7<sup>th</sup> dimensional templates that were retrieved,

we have stability and calmness in our consciousness, and

we can hold and use the Element of Love with no judgment.

We have moved into a whole new state of being present within us.

**From the Message from the Lords of Light:**

The changes in your consciousness are now being transferred to the physicality,

upgrading the body to a 5<sup>th</sup> dimensional vehicle.

You are simultaneously experiencing yourselves

both as an individual and as a Collective Consciousness.

Through conversations such as you had this evening,

you share your individual mastery with the group, and

you create a Collective Consciousness by such conversation and sharing.

You also co-create with us the curriculum of what you will study and embrace.

Periodically, we will call a meeting of just the Lords of Light portion of you,

both prior to and after the June conference where you meet together physically.

**From Lord Melchizedek's Message:**

It will take some months to fully integrate the effect of the activation of the 4<sup>th</sup> Triad.

The calmness and refined energetics of this Four-Triad energy system allow the anomalies that arise to be released in ease.

Releasing such anomalies from the body is a key component to the body's transformation.

The Crown stays open all the time

bringing in Undifferentiated Light, harmony, peace, calmness, and it becomes a generator of Light.

You are now emanating a Light that is transforming the Earth and humanity.

Soon you will experiment with compressing the Undifferentiated Light,

differentiating it into various Lights to assist the physical body into its 5D state.

Doing your work individually, then sharing together as a Collective,

helps you hold the energies of that 5<sup>th</sup> dimensional body and maintain what you have achieved in each session.

Reviewing what we have done is helpful, especially looking at

the chakras, the Triads,

the mental-emotional body,

that Blue Star Tetrahedron that brings Unity to the 14-chakra system

which was first activated at the 12-12-12,

and the Color Codes and the use of Sound.

**From Lord Melchizedek's Q&A:**

1. In the calmness that the 4<sup>th</sup> Triad brings, you are a more effective creator, because you are directed from the Element of Love always present in the wisdom of your Sacred Heart.

2. When the 4<sup>th</sup> Triad descended into the Unified Field and merged with the first three Triads, it allowed you to bring all energetics into your Unified Field, so that you realize that you no longer perceive anything as outside of yourself, outside of your Unified Field: all is within your Unified Field.

Whatever shows up in your Unified Field when you work with the 4<sup>th</sup> Triad is there in your perception because it can now be expressed through your life experience, through your upgraded body. This could be a geometry, a color, or anything else you are perceiving. Play and create with it and determine what influence that is bringing into your life at this moment.

3. Color and sound are excellent tools to be applied specifically to the body and to various organs, layers, and parts of the body. Assisting the body to transform into a 5<sup>th</sup> dimensional vehicle will allow the body to be at a level that is necessary to make the changes that are necessary to be made on planet Earth. These changes cannot be made from a 3D body.

Distortions and anomalies in the body are becoming very obvious in the presence of the 4<sup>th</sup> Triad. In its calmness, they can be easily and gently released.

4. Even though your energy and your body are at a very different level from those of the mass consciousness of humanity, and you do not resonate with the way in which they are creating their life experience, you are still part of that community of humans.

It's just a matter of seeing the differences of expression on the Earth at this time, not having to fix those expressions. Your duty is to open your Heart and allow the process, taking care of yourself, so you can express through your body and your massive energy field the Light that can shine and change iterations that have limitation.

5. At the present time, the rational mind is still too engaged to effectively use time applications that may come forth at a later point from the time locks. At this point, the way to affect what is labeled the past is to make alterations in the present now moment. The past doesn't really exist. It only exists in increments of dimensional frequencies, to experience life in that particular dimensional frequency. They are call time sequences.

**Closing Comments from Lord Melchizedek:**

Let us gather Heart to Heart, in the Love that is present in the Collective Consciousness.

Spin that 4<sup>th</sup> Triad.....

the Light is multi-colored and very luminous.

There are tones and vibrations and frequencies

that take you into a state of being of your Christed Essence.....

You are the Christed OverSoul, present in form.....

The stableness of the Collective Consciousness of this energy is to be used and drawn from as you experience life in a body.

Create daily, noticing what is in that Unified Field, ready to be expressed.

Take note, Beloveds, of what you feel, what you see with your senses within this Unified Field.

And bring it forth and create in the coming days.....

And experience the fullness of your Christed nature.....
