

Greetings, Beloveds,

It is the Collective Consciousness of the Lords of Light. In the forefront of this Collective Consciousness is a Triadic Emanation of Lord Metatron, Lord Michael, and Lord Melchizedek. And it is from that positioning that this transmission is given.

This evening's session has been the beginning, Beloveds, of a new format that will become very instrumental in a firmer engagement with the Lords of Light, the Archangels, the Masters, and the Elohim, so there is a beautiful and complete expression of all Realms that are gathered in a specific gathering. An interface with each becomes a much more fluent interface, where ideas are shared and expanded upon. So you have just begun this type of interaction. And there is a lot of trial and error, as you lay down the templates of this type of expression. Be patient with yourself, be patient with each other, as we solidify this expression in a more formidable way.

There are certain individuals within your Collective Consciousness that gather with us that have been contemplating how this 4<sup>th</sup> Triad connects with the Arc of the Covenant and other aspects of the Light Body activations. Many of you are very interested in getting the 4<sup>th</sup> Triad as integrated as soon as possible. These things cannot be rushed, Beloveds! It is a gradual integration, because much is being altered through the interface of this 4<sup>th</sup> Triadic system. We will begin to put some of these activations to work and expand upon them in the coming sessions, now that the Light Templates of the last conference have been integrated and the 4<sup>th</sup> Triad is in the process of that integration into a human form and consciousness.

We wish to express to you this evening some more aspects of that 4<sup>th</sup> Triad and its functions, because it has a massive function. The 4<sup>th</sup> triad provides an increase in the electrical charges that are present in the Arc of the Covenant. These electrical charges arc around and within the field of the Arc of the Covenant. They stimulate and activate the magnetics of the entire Unified Field, so that it is more coherent and potent. The electrical-magnetic field that operates within the arcing affects the entire Unified Field consistently, because it directly affects the neurology of the brain and the thought process as it is used in a physical body.

The arcing of the electrical charges within and around the Arc of the Covenant attracts multiple holographic projections that also contain electrical and magnetic charges as it enters the physical realm in specific holographs. These holographs then can be made usable in the body and in the human creation and experience. These holographs are often seen as various types of geometries. The geometries stimulate the memory codes in the Causal Body to be brought into the consciousness of the individual and in the Collective Consciousness.

[5:16] An increase in electrical charges enables the brain and the neurological system to process the various projections and alter the body's frequency and vibration. The electrical currents are stabilized by the 4<sup>th</sup> Triad. Even though there is a pronounced increase in the electrical charges that emanate from the 4<sup>th</sup> Triad into the Arc of the Covenant, these charges are coherent, so the energy within and around the Arc is not erratic. There is stability in the electro-magnetic field of the body as it is continually amplified and refined. This stability is made possible by the 6<sup>th</sup> dimensional template that was retrieved from the time locks in the last conference. So, you can see how all the little pieces and parts that you have experienced and worked with are now coming together in a larger picture.

Without this stable and coherent influence, the holographic projections would be drawn in in an erratic electro-magnetic field that is currently present in the 3<sup>rd</sup> and 4<sup>th</sup> dimensional body. This erratic function limits the neurology from processing and applying the various levels of certain projections that are drawn through the magnetic currents from the vast regions of the cosmos.

It also must be noted here that there must be a solid and connective functioning of the axiatonal lines. These axiatonal lines must be adequately anchored within the body and then extended into the etheric body, and through all bodies, the unified field, and then extended from there into all realms. This includes all realms of form as well as non-form. There's no limit to the extensive positioning of these axiatonal lines. The axiatonal lines are energetic connectors. In the realms that have form, the axiatonal lines are needed to bring non-physical holographic projections into the electro-magnetic fields of form, such as various planetary systems like Earth. When the axiatonal lines are anchored in the physical body, the body can be assisted only when there is a stable, coherent electro-magnetic field operating within and around the body.

The electro-magnetic field is affected by individual and collective thoughts and emotions. So, you can see why we have continually worked with you on that mental-emotional body and how you express through it, how you create with your mental-emotional body. A fuller activation and use of Ze'On particles is now needed. Within the activation of the 4<sup>th</sup> Triad this becomes possible, because now you have a very active influence, not only of your Higher Self, your Christed OverSoul, your personal OverSoul, and the beginning stages of the Christed Mind. With the activation of the 4<sup>th</sup> Triad, this all becomes possible.

[9:40] The unified personal field benefits greatly by the activation of the 4th Triad and stimulation of the Arc of the Covenant. A consistent and stable emanation of the electro-magnetic charges continually affects the neurology and the physiology of the body. This creates more and more refinement in the Unified Field, as within the body itself. In this way, the body's frequency and vibration provide a hospitable environment for the SoulSpirit to exist in form.

Those of you who have memory lapses – they are not negative happenings, dear Ones. Understand, there is so much occurring at this time for you. So be gentle. Many of you who have those memory losses and can't find a word or can't fully express yourself as you would like through the spoken word know through that Higher Mind of yours the exact concept. You see it clearly in that area of your body. It's just very difficult at that moment to verbalize it. All of this will right itself in the coming times.

You are in a massive process of change in your body, in all parts of yourself. There must be a re-creation of the physical body and also of Earth, itself. These energetic changes bring the body and Earth out of the denser form that was created after the great fall. The Earth and the human body was in the process of total elimination. Through the intercession of the Lords of Light, led by Sanat Kumara and assisted by the Elohim, this elimination process was halted. Because the Earth was in the latter stages of this process, it had to be brought down to a 2<sup>nd</sup> dimensional state and held in complete isolation and dormancy before a gradual re-creation could begin through a 3<sup>rd</sup> dimensional frequency range. You are now in a massive re-construction of form within the Earthly realm into the 5<sup>th</sup> dimensional frequency range and multi-dimensional expressions. We are stimulating your awareness, your consciousness, and energy system so that you can contribute and help in this re-creation.

The extensive creations taking place have come to the juncture where human interaction is needed: form creating form. This can be accomplished with ease, when creators in form, such as yourself, operate from a stable and coherent basis and use all of the resources that are now available.

We ask that you do a review of the Arc of the Covenant, the Ze'On particles, and the axiatonal lines by our next meeting, so we can put these energetic templates into further expansion and use. We ask that Joan give you some resources for this review, direct you to those resources, so that you can very specifically remember and remind yourself of these massive teachings that occurred during your activation of certain parts of the Light Body.

Now let us gather together, dear Ones, and have a discussion about what we have just spoken about, taking your comments and asking questions that we may expand upon. So, please, let us now have a discussion.....
