

JOHN:

Now, let's move on to a short review of our last session.

This session was conducted by the Collective Consciousness of the Lords of Light. In the forefront was a Triadic emanation of Lord Metatron, Lord Michael, and Lord Melchizedek. This will continue to be our Triadic Collective Consciousness that will guide us in all of our sessions up to our conference gathering.

They introduced us to a new format that will give us a firmer engagement with the Lords of Light, the Archangels, the Masters, and the Elohim. An interface with each will become much more fluid, where ideas are shared and expanded upon. There will be some trial and error, as we lay down the templates of this new type of expression, so be patient with yourselves as well as each other.

They also explained how we are all anxious to have the 4th Triad fully activated, but that this will be a gradual integration.

Next they explained how the 4th Triad provides an increase in the electrical charges which are present in the Arc of the Covenant. This stimulates and activates the magnetics of the entire Unified field and affects the neurology of our brain. An increase in these electrical charges enables the brain and the neurological system to process the various frequencies and vibrations of the body.

There is now stability in the electro-magnetic field of the body, which is made possible by the 6th Dimensional Template that we retrieved during our 2016 Conference. Without this stability, the holographic projections would be drawn through our 3rd and 4th Dimensional bodies and cause a fragmented energetic expression of them. It is only through a 5th Dimensional and above energy field that these holographs can be received and stably used.

They also discussed the importance of the axiatonal lines as energetic connectors which need to be anchored in the body and then extended from there to all realms, including all realms of form and non-form.

There are electro-magnetic fields operating within and around the body. The electro-magnetic field is affected by individual and collective thoughts and emotions. So you can see why our thoughts and emotions have to be coherent and of at least a 5th Dimensional state.

The activation of the 4th Triad stimulates an active influence not only of your Higher Self, your Higher Mind, your personal OverSoul and your Christed OverSoul, but the beginning stages of an activation of the Christed Mind. This also stimulates a fuller activation and use of Ze'On Particles.

Next they addressed the concern of several group members about memory loss. They stated that there is a lot occurring at this time. So – be gentle with yourselves. Many of you are having a problem finding the right words to express yourself fully. You see it clearly in the body but have an issue verbalizing it. All this will right itself in the coming times, so don't get over-excited!

You are in the middle of a massive process of change in your body and in all parts of yourself. There must be a re-creation of the physical body and also of the Earth, itself.

You are now in a massive re-construction of form within the Earthly realms into the 5th Dimensional frequency range and multi-dimensional expressions. The extensive creations taking place have come to the juncture where human interaction is needed: form creating form. This can be accomplished with Ease, when creators in form, such as us, operate from a stable and coherent basis and use all of the resources that are now available.
