

Lords of Light Collective Consciousness --

In the forefront is the Triadic Emanation of Lords Metatron, Michael, Melchizedek:

So now, take a deep breath and get centered in your Sacred Heart.

Be very present in this moment.....

And we will begin our closing meditation.....

Rest for just a moment.

You just received a huge energetic download of concepts and Divine Energies, more than you have ever received in any one session prior to this one. But you are capable, much more capable now, than you were two or three years ago. So even though it was a huge amount that was given, you are quite capable of receiving.....

Focus your attention on the 4th Triad...

Bring your attention to the 9th chakra...

Notice the Unity that you feel with we Lords of Light, the Archangels,
and the Ascended Masters...

Notice how you and we are unified and emanate a refined frequency of Light, as a unit.....

In this unified state, notice your 10th chakra...

See how your Christed OverSoul and your Christed Mind is already engaged
in that spinning vortex of chakra energy.....

You know it and can feel the conscious Presence within your body...
as that chakra spins and spins and spins,
creating a higher vibration and a faster rotation.....

Now move your attention to the 11th chakra.

See the brilliance of the Undifferentiated Light of Source...

How powerful and creative...

Notice the White Light within this chakra,
and the spinning and spinning,
in a very refined field of Light.....

All is calm,

but yet there is an electrical, an active electrical energy that is available in this energy field.

There are no boundaries or limits in this vast space.

It is a pure creative field that is very, very electric.

And it spins and it spins in this unified configuration of the 9th, 10th, and 11th chakras,
creating a vortice of Triadic Energy....

As you direct your attention to the Arc of the Covenant,
Notice how the creative energy in the 11th chakra begins to create the electrical charges
that light up an energetic halo/dome around the upper body.....

This energy creates an activation of the 3rd and then the 2nd Triads...
Massive electrical charges are emanating within the field of these three Triads
and also around the field of the physical body.....

The Yellow-Gold halo that is formed intensifies in its color and vibration
as it resonates the Christed OverSoul and the Christed Mind
that is vibrating in the 10th chakra.....

The vibration that is created in this energetic state is so brilliant and refined,
There are no words to describe it
Or the feeling that you are now experiencing.....

Your mental-emotional body is fully engaged with this energy field
of Undifferentiated Light, Sound, and Color.....

You begin to notice a humming sound within this immense field of activity.
It seems to be coming from the 2nd Triad,
but yet also from inside the physical head region...
See how the Seed Crystals are lit up and pulsating, vibrating, and HUMMING.....

Be aware of the magnificent Indigo Color and Sound Codes
that seem to be everywhere in the body now,
but especially they are vibrant in the Heart and through all of the Triads...

The halo projection of the Arc of the Covenant is pulsating from the electrical charges
that are flowing through it and through your physical body at this time.
These charges are NOT uncomfortable,
but are welcomed in the Light and vibrations that are being created.

Your Heart is overflowing with Love
as you gaze upon your Divine Christed Image
that is present in the flame in the Pineal and the flame in your Sacred Heart.
You are NOT overwhelmed in any way.
You are satisfied with your true Image
and are grateful for the return of your complete and functioning Spirit in a body.....

In this environment, there are no distracting thoughts.

All thoughts are coherent and resonant with your Christed Energy that is present.

All is calm, yet there is a fertile, creative environment that is present...

In this space, you have an opportunity to create the Ze'On Particles that are needed.

You are capable of replicating Source creative thought
and transforming your body into Light.....

Rest in this Imaging, Beloveds,

Rest in this environment.

Begin to know it intimately as your Divine Image...

As you continually familiarize yourself with these states of Being,
soon that will be all that is needed:

to direct your attention to this field and breathe.

It will instantly activate and you will be immediately creating a massive field of Light,
the Light THAT YOU ARE.....

We have created this massive energetic field together,

as a coherent Collective Consciousness,

each and every one of you contributing to this energy...

contributing as the individual Divine expression & also as the Collective Consciousness.

In the coming days,

allow yourself to revisit what we have created together.....

Blessings, Beloveds, Blessings!
