

Introduction:

Welcome to the 7th session of level 2. We are very pleased to have you with us today so that we can continue to expand on our last session. The Archangels and Masters have again instructed us to tell you how pleased they are with your enthusiasm and hard work. They feel that because of your assimilation of this information and the expansion of your energy field in a refined state that we are right on schedule for the conference.

Tonight we will start with a centering meditation with Archangel Gabriel and then have an update on the conference and a short review of our last session.

Next, we will have a 30-minute open group discussion. We encourage you to share with our group collective your experiences over the last two weeks, so that we all may learn from each other. We will not have a group moderator this evening. The Triad has said that you have become more aware and comfortable with this process and you are capable of speaking and sharing. So please make your comments short so many can share.

This will be followed by a short review of our last session. Once we conclude this review, we will have a Q & A session with the Triad. This will be followed by a short channeling and guided meditation to complete our session. Our next class is May 9.

Conference Update:

We continue to receive reservations and currently have approximately 60 members. If anyone needs some assistance with rooms or transportation, check on the facebook page that has been set up just for you. Joanne Pulis is acting as a coordinator and can be reached through the facebook page or her email which is joannejpcdn@gmail.com. She will also keep a waiting list for us and contact those on the list if a room comes available. We still have a special rate at the Sun Country Inn in Mena thru May 1st.

Since we will need to spend some time making contact with the land, please bring your Arkansas crystal from the last conference, any special crystals that you have, or any Andara crystals. We will have a special table set up in the meeting room to display them and enhance the energy of the room. Remember, these are special to someone who is sharing them with us, so we ask that you not handle any that are on display.

We will be spending time connecting with the Etheric Blue Crystal which is located in the area and you will be give plenty of time to walk the land and trails. We suggest that you bring casual comfortable clothing, walking shoes, and a mat or towel for sitting on the Earth. If you are checking the weather once we get close, understand that the temperatures on the mountain are 7 - 10 degrees cooler than it is in Mena, with plenty of air movement.

There is still time to sign up, so don't wait too long.

We will have a pre-conference teleconference call on Tuesday, May 30, at this same time & place, so please put this date on your calendar. You won't want to miss it.

Review of April 11 Session 6:

Our guides that night were a Triad of the Collective Consciousness of the Lords of Light represented by Lord Metatron, Lord Michael, and Lord Melchizedek. They started with mentioning some specific information and practices that we had been exposed to a while back and how now these could be put into a usable and energetic state.

Their first subject was the etheric Seed Crystals that are located in your head region. They stated that the vibrations of the 4th Triad greatly affects the usability of these Seed Crystals as well as the Arc of the Covenant and your ability to create Ze'On Particles. The 4th triad is made up of the 9th, 10th, and 11th chakras.

The frequencies of the Undifferentiated Light from the 11th chakra raises the body's Light frequency and vibration, so that you can take advantage of specific sound currents of Light and Color. They also wanted us to see the three Color Codes of the Indigo Color Coding and be aware of the massive sound currents that it produces. They asked that we notice how the Seed Crystals are affected by these Sound currents. Have you noticed the humming yet??? We should also pay attention to the luminous White Undifferentiated Light of Source. This is represented in the unified state of the Sacred Heart by the luminous White Star Tetrahedron.

In order to develop your ability to replicate the divine perfection of creation by creating Ze'On particles that are used in a unified mental/-emotional body, you must practice, practice, practice..... Integrating this massive template takes time and constant application without judgement. To create Ze'On Particles, all of the pieces and parts that they discussed with us have to be intact and functioning.

They made a suggestion that you re-listen to the final energy meditation to help you keep your attention in the very special state of divine creation of Ze'On particles.

It was suggested that you take time daily to both review and apply the various Light Codes and Sound vibrations as well as receive the immense electrical charges that come from the 4th Triad, the Arc of the Covenant, and the Seed Crystals. View the energetic state of your mental-emotional body daily, while staying out of self-judgement.

They next discussed the OverSoul. It is the individual expression of the Divine Image and is part of your Soul expression that carries the wisdom of all incarnations you have ever experienced. The 10th chakra was mentioned next because it holds the Christed OverSoul and the Christed Mind that interfaces with your mental body through your thoughts. This was not possible until the 8th chakra containing the OverSoul descended into the body.

Next, they talked about the 4th Seed Crystal which is located over the right ear. It is often called the Recorder Cell, because it holds the memory of every action your soul has taken in every physical incarnation. The activation of this Seed Crystal allows large blocks of memory codes to be accessible, to help the body to shift to a more refined frequency range of 5th Dimension.
