

It is the Presence of the Triad of Lord Michael, Lord Metatron, and Lord Melchizedek. We are very much a part of your Collective Consciousness and have been here all along, as you gathered. This is important for you to recognize -- part of that unified expression of the Divine, part of that 5th Dimensional Template that you retrieved.

So, we would like to invite you now to have a conversation with us and to ask questions relating to the massive amounts of information that we relayed to you in our last session and also the energetics that went along with that information. It was very important that we give you this massive amount of information, because there were many threads of concepts, information, and energetics that had been woven into your consciousness over the last three to five years of your time. And they weren't all usable in the time frame that they were transmitted.

Now is the time. You have grown your consciousness; you have altered substantially the frequency of Light held in your body and the vibratory level of your body. So, all of those threads, all of that information and the energetics of it are now very active within your Unified Field, within your energetic field. So, it's much more than just information.

I know many of you have the experience of trying to do something with that information in previous times, such as the Indigo/Magenta Codes or the Seed Crystals, and didn't get very far with it, so you just kind of laid it aside. The beautiful thing for you to recognize, even though you couldn't use it, you didn't doubt its validity. You knew within your deep, deep consciousness that at some time, very soon, that you would understand and receive further energetics to help you use it very proficiently. And as we said on the last session: now is the time for all of those threads to be woven into a usable experience of yourself as that Divine Image operating in a conscious body.

So, let's open this up to further comments and any questions that might have arisen.

Note: Questions and comments may be slightly condensed and hello's and thank you's omitted, but all answers from the Triad are word for word.

[3:50] **Q1 Randy:** Hello, this is Randy. Greetings! I have a couple of questions.

(a) I recall when we were studying the Seed Crystals back in MA that we talked briefly about a 4th Crystal that was embedded in the Pineal, that formed a tetrahedron with the three Crystals on the forehead. That's how I visualize it. Will we start working with that?

(b) Can you give any further elaboration on how to access the information within the Recorder Cell. Thank you.

[4:50] **Triad:** You are welcome. Very good questions.

(a) First of all, in regards to that tetrahedron configuration – this will be spoken of in the near future, after this conference, when more 5th, 6th, 7th Dimensional Templates are retrieved. You will have a better understanding of the value of these retrievals a little later in this particular session. So, for the time being, we ask that you focus just on the three Seed Crystals in the middle of your head around the Pineal.

(b) Now, in regards to that 4th Seed Crystal which is above your right ear, the Recorder Cell – it is just now becoming active, as are these three Seed Crystals. So, it stands to reason that it's going to take you some time to fully integrate and be able to use proficiently the information or the energetics around the placement of these Seed Crystals, as they are charged continually by the 4th Triad, by the Indigo Color Codes, and all of the electrical charges that emanate from the Arc of the Covenant.

Now, understand that in addition to these electrical charges, there is also a vast magnetic field that you are accessing through the 10th Ray of Creation. So, in order to make that 4th Seed Crystal, the Recorder Cell, more available to you in a conscious state, it only takes you placing your attention there with the intention of recovering some of that wisdom and knowledge that you have gained over eons of time and many lifetimes in the experiential realms of creation, to recover those so that you might use proficiently the wisdom that is stored there, that's stored in the Seed Crystal but is also stored in your Causal Body.

So, over the next year -- and I know you don't want to hear this, that it will be in the course of the next year – but you have to understand the massiveness of these energetics and the transmutational effect that they have on you, not just on your consciousness but on your body. And the body is still slow. So, it will be in the course of the next year that you have a better realization, a better grasp on the extensiveness of what lies in those energetic vortices.

Thank you for that question. It was a very good question.

[8:38] **Q2 Charmaine:** I was wondering if there's anything above the left ear. We always talk about the Recorder Crystal above the right ear. But sometimes I feel something above the left ear as well. Is there anything going on there too?

Triad: Not at this time. It may be that that space is trying to resonate and balance out the energy between the left and the right side of the body is what you might be feeling. But you can make that determination. It's not that that right Crystal overpowers. It contributes to the complete energy that is present through that Arc of the Covenant around your head. So, it's perfectly balanced. So even though right now you feel a void on that left side, because you don't have anything specifically that you can physically feel there, there is a lot going on around that part of your body.

[10:09] **Q3 Joe:** In the last session, you said that when the 4th Triad and the Arc of the Covenant and everything is fully activated and fully humming, then the brain could then process complex thought that comes from holographs and holographic projections very rapidly. I thought a holographic projection is just an image. But now I'm thinking that a holographic projection is an entire concept instead of all the little details of the concept, that has the whole information in the holographic image. I have a feeling that I've experienced that. Could you comment on that, please.

Triad: I most certainly can -- the holographic projection that comes from deep within the Creative Realms and from Source Energy, or from other, say the Andromeda Galaxy that projects certain holographic projections relating to things that are being held there until a human on Earth is capable of using it. These projections are massive projections that are multi-layered, energetically as well as conceptually. And when they are sent out from these deep creative regions, they come into the denser frequency range of Earth and into Earth itself and into the consciousness of humanity through holographs, which are also layered and contain the fullness of a projection. But only parts of that holograph are intended for use in a particular time sequence.

So, what's happening now on Earth – you humans are stepping out of that linear time sequence, and especially the members of this Collective Consciousness are no longer operating in that time sequence. You are operating in a 5th Dimensional time sequence, which is very circular and unlimited in the creative mechanism. So, because you operate in that 5th Dimensional sequence, you receive in these holographic images that contain Sound, Color, Light, concepts, and of course the energetics of Sound, Color, and Light. You receive those in that 5th Dimensional sequence of time, which is how you express yourself and create in the 5th Dimension.

Now, as we move forward and you integrate all of these things and begin, your brain is capable now of processing that very rapidly. And even though we have told you that it may take a year to fully incorporate what we gave you in last session and what will be coming forth as you gather in the Collective Consciousness in the conference and retrieve three more templates of Light as well connect in more completely with three star systems: the Andromeda, the Sirius star system, and the Pleiadian star system, creating a galactic gateway to Andromeda. This is what is going to happen in this conference. And it will take a year for you to fully process and integrate and make usable what happens in that conference as well as what we had given you in the last session.

Now, think about it. How long have you been on this path of knowledge? And a year is a very rapid progression for you to assimilate the massiveness of what is now being projected from the Creative Realms in many different ways: through holographs that you are receiving through your mind and processing energetically through your body.

So, a year is a very rapid, rapid speed that is happening now, because you are in a different time sequence and will be entering a multi-dimensional time sequence before this year is complete. Does that answer your question?

[16:10] **Joe:** Yes, very well, thank you. It's similar in a concept that I could read a book two or three times and like the third time, all of sudden I will just understand something that was there but that I just wasn't capable of understanding it before. [Triad: correct] When I'm ready, I'm ready. Similar but on a much grander scale.

Triad: Correct, correct. But it doesn't mean that your brain, the neurology of your brain, hasn't been changed nor will continue to change, so it can process all of these projections that you receive as holographs, because the holographs also carry the complete structure of the projection.

Very good question.

[17:07] **Q4 John:** I have a couple of questions.

(a) This Light around me all the time, and of course it has been there forever, and sometimes when you have your eyes closed, the Light is so bright you need shades on the inside. I've been studying the Light Body and I'm wondering what it is that I'm seeing in relationship to what I'm learning about the Light Body.

(b) One time I met somebody that I had known in a previous life and I was full of Love for them. When that Love occurred, it was like the heavens were unlocked. Now I'm with a group of people. I'm sure we've all been together or we're all dedicated to the same vision. How do we get to the Love that binds us all in this group?

Triad:

(b) You are there already. Your Heart is open. Your Sacred Heart is open. So you have great Love within this Collective group. Now, that doesn't always mean that you know each member personally, their personality, their quirks, their life experience in this lifetime. But there is a resonance, a remembrance of each and every member of this group as being together in many lifetimes. And there is great Love present. This is one of the reasons we have encouraged you in the last few sessions to share your experiences, to speak, so that each member of the group gets to know each other more on that personal level, even though it's a pretty good size group to take on this undertaking. You are very capable.

(a) So, going back to the other part of you, where you have always known the Light to be within you as well as around you, and that when you close your eyes, sometimes the Radiance is so luminous that you feel you need sunglasses -- You are gazing upon a fully activated Light Body. You are in possession of that Light Body, dear One! You are just

not fully conscious of it yet, nor, because you are not fully conscious of it, you do not have access to the power of it or the different ways in which you can use it.

So this is why you are in this Collective Consciousness with us in these various time sequences that you have journeyed with us. Does that help you understand? Did we answer your questions?

John: That was great. Thank you. You gave me some markers to be a reference.

Triad: Love is not always dependent on knowing someone personally, but knowing someone from that Spirit level. That's the extensiveness of Undifferentiated Love. Thank you for those questions.

[21:42] **Q5 Joanne:** Does the Undifferentiated Light automatically differentiate once it comes in and through our body. I'm having experiences of it not differentiating, that it simply is a column of Undifferentiated Light. And then as focus occurs, it differentiates based on different creational intentions. Can you expand on this.

Triad: You are correct. You ARE that Undifferentiated Light, as you express yourself through the Light Body. And it never leaves you. It IS you.

Now, when you use the Undifferentiated Light in the creative realms of form, creating form within form, you differentiate it. You, with your intention and your attention and your skills as a creator, you begin to use it and create various uses for the creative Light to be made manifest in form. It is part of your life experience in form. So this has been a massive undertaking in learning the skill set of creating in perfection, the perfection of who you are as pure Undifferentiated Light and differentiating that Light in specific uses of creation within form.

Joanne: That's wonderful. It really brings honoring to how we were playing together on Joe's call. My experience was that I was simply a column of Undifferentiated Light as the group was playing in an expanded spectrum together with Undifferentiated Light.

Triad: Correct, correct.

Now, understand there are times when you are not required to differentiate or create, but you are called upon to BE the Undifferentiated Light and shine it, brilliantly, within an environment to create a shift of consciousness, a shift in the energetics of that environment.

Joanne: As you're speaking, what I'm feeling is that we ARE that Undifferentiated Light and that through our attention and our awareness, it will be revealed to us if we need to

differentiate or if we need to create beyond just being the Undifferentiated Light. Does that make sense?

Triad: Correct! Does it make sense to you? That's what's important.....

Joanne: It does! I Love this, because the knowing and the awareness of the differentiation comes through me not by me having to figure it out or think about it. [Triad: Correct] It comes through me and I simply step into that differentiation or whatever is required in that moment.

Triad: And you know it. And you know it. You don't have to search it out. You know it. And you apply it precisely and perfectly. So when you come from that perspective that you ARE that Undifferentiated Light and you begin to express yourself through the various levels of Light Body, you gather together all parts of that Undifferentiated Light as it is made applicable in that Divine Image of the individuality as well as the Collective part of you. You ARE That and you gather together the fullness of That, in the full Light Body expression of you. You become a very powerful, powerful emanation of Undifferentiated Light as well as differentiated Light, as you create in form.

Joanne: Brilliant! That's such a beautiful..... it encapsulates my experiences and the individual and the Collective. It's the hologram of the wholeness to me.

Triad: Correct. You are absolutely correct.

[27:53] **Q6 Joe:** Could I piggy back on this question? [Triad: you certainly can!] I thought you all guided us one time, saying that when we brought the Undifferentiated Light through various chakras like the 10th and the 9th and the Soul Star, I was under the impression that that would differentiate the Light differently in each chakra for a different purpose. Am I correct in that?

Triad: No – you are not in error, but understand, when that teaching was given, first of all you were in a different time sequence. You were in a different state of consciousness. So you could only absorb certain portions of that holograph. You didn't have the tools that you have today. You didn't have the understanding that you have today. No part of the Light Body was conscious, consciously activated. Can you see that? [Joe: Yes, I can see that]

So, as you were instructed to bring it through those channels, those channels allowed you to differentiate the massiveness of you as the Undifferentiated Light and make it applicable and usable in your creation and manifestation in form, because you brought it through those specific channels as you differentiated it. But understand – you are the one that was differentiating it. Can you see that? [Joe: OK, yes]

And so this was the state of consciousness you were in; this was the energetics that you had at your disposal at the time, in that time sequence. Now, the time sequence has changed; your knowledge base has changed. The energetics of your body has changed. And the massive of your consciousness has changed.

[30:38] **Joe:** OK, but I'm still not clear. So, if I bring the Undifferentiated Light through the various chakras, that won't differentiate it? It's just with my intention?

Triad: It's with your intention. You can do that. And as you do that, you have an intention, right. And your intention is to differentiate it and make it applicable in your life experience or make it applicable in the world of form. Correct?

So you can use those channels; you can still use them. But you have a different understanding of it, because you realize you ARE that Undifferentiated Light in its purity and that to differentiate it, all that is required of you is your intention and your attention to use the creative process to manifest it in form.

Joe: OK. So now when we bring in that 4th Triad, which contains the 11th chakra in it, into the body now, so the Undifferentiated Light is free flowing in the body now. [Triad: correct] And so, with the Undifferentiated Light, it doesn't have to come through those channels.

Triad: It doesn't. But it does also. [Joe laughter]
You're a massive Being, you know. You have many channels that are full of Undifferentiated Light.

Joe: One more question! Can somebody misuse Undifferentiated Light? Could they make use of the Undifferentiated Light that I broadcast into the world? Could they differentiate it and use it for what we would call undesirable purposes?

Triad: You can do that. Can someone else use it unethically – no.....
You can, you can. No, you don't want to do that. You have a much different state of consciousness. But no, another individual cannot use your Undifferentiated Light, your Light, to create unethically. They use their own. And in those types of individuals, it's very limited to begin with, because they don't have a container to hold it in a massive way. So it remains outside of their body.

[33:42] **Q7 Katie:** To continue elaborating on this, could you give us tips on creating On Particles for specific applications. Do we do that simply again by intention and attention, or are there more specific ways to apply them?

Triad: Well, as we have told you in our last session, probably not as specifically as needed, when you create Ze'On Particles, you use the Ze Particles of pure Undifferentiated Light of Source. Correct? You combine that with the On Particles that you create with Undifferentiated Light, differentiating it.

In order for that, for those Ze'On Particles to work and manifest, there are several things that have to be in place and operating: the 4th Triad; the electric charges that emanate into the Arc of the Covenant, into the Seed Crystals; the Color Codes of the Indigo Color Codes; the Sound Templates – all of that has to be operating intact for you to create functioning Ze'On Particles. That Particle, the On Particle is also created through your mental-emotional body. And if that mental-emotional body is in fragmentation and is not coherent and is not operating in that higher frequency, more refined frequency range of your thoughts and your emotions, you cannot create, because that's a piece that has to be intact, in order for you to create a functioning Ze'On Particle.

Katie: OK. I get that. Now let's say we want to use the Ze'On Particles and apply it to the mental-emotional body to short circuit a particular fragmentation. Do we need more than the intention and attention? Do we specifically think of creating an On Particle for that purpose and differentiating the Ze Particle of Light for that purpose? Or is it just intention and attention?

Triad: No. What you have to do is you have to go back. If you have a fragmentation in your emotional body, say, and you discover that, that it has surfaced, as you have used your Merkaba vehicle or other Light vehicles of expression of yourself. And this surfaced, that you have this anomaly that needs to be removed. Then you go back to your clearing process and you clear it. And then you infuse it with a Ze'On Particle of Light that is in perfection.

Katie: OK, so that is not differentiated. That is just the perfection of it?

Triad: The perfection of it. And the beauty of that process, then, eliminates the possibility of re-creating it, because that space, that void that was created by the elimination, is filled with Light.

Katie: OK, that makes sense. I think I'm asking a bigger question. Can you give us ways to specifically apply the Ze'On Particles? For instance, can we apply them to an organ in need of healing, regeneration, etc.?

Triad: Yes, you can.

Katie: And in that case, is it just intention and attention, or is there more to the process?

Triad: There is more to the process. And we will help you develop that. You are now just getting into this process. You are just getting into what has to be intact in your energetic field in order to apply these Ze'On Particles specifically. So we haven't gotten there yet.

Katie: OK, I get it, alright. Thank you very much.

Triad: You are very welcome.

[38:38] **Triad:** Well, Beloveds, this has been a beautiful session. I want to congratulate you, each and every one of you, and especially those who voiced, who asked questions, who shared their experiences.

I think you're beginning to understand the beauty of what gets created in this crucible of Collective Consciousness when you personally inject your individual dynamic, beautiful Divine Image, your experiences. You come together with us in the Collective and you feel free to ask your questions. That enables us to expand the teaching or to clarify a teaching and add to it. The more you use this process with us, the more you will fully understand the beauty and the expansiveness of this process. And it will become very much a part of the Gathering. It has purpose. It has flow. It is within the Collective Consciousness and it produces, it creates a beautiful expansive environment.
