

So, before we close our meeting this evening, I'd like to share a couple of points with you. And these points revolve around the three Light Templates that you retrieved from the time locks -- and not the purpose of them but the effects of them and the significance of them.

As you are aware of, the four Light Templates that were retrieved from the time locks significantly contributed to your ability to receive and activate the 4<sup>th</sup> Triad, which impacted the Arc of the Covenant by the electrical charges that it emanated. This activated the Seed Crystals and made usable the Indigo Color Codes and Sound frequencies. All of this contributed to another massive opening in the Sacred Heart Consciousness and a viable presence of the Holy Spirit/Shekinah Source energy, which by the way is a very creative Energy. This provided an awareness of the OverSoul, the Christed OverSoul, and the Christed Mind. Transformation of the mental-emotional body continues to take place with these massive influxes of Light, Sound, and Color Codes.

As you know, the 5<sup>th</sup> Dimension is based in Love and Unity Consciousness. The 1<sup>st</sup> Light Template brought an awareness of yourself in the 5<sup>th</sup> Dimension as a Collective Consciousness in Unity and with an open Heart, with the ability to access the consciousness of the Sacred Heart and to hold that consciousness stably for yourself, for humanity, and for the Earth. It brought into your awareness a significant role that you now play: You are the ones that will create an environment so that the 5<sup>th</sup> Dimensional Template, Light Template, will not be disturbed. It will be stable. You've worked on that stability many, many months of 2016 and the beginning months of 2017. And you are to be commended for what you have accomplished.

The 5<sup>th</sup> Dimensional Light Template began to alter the time sequence dramatically, by bringing in the unlimited cycling of your creative potential. You are no longer subjugated by linear time. You know that you must create in the moment.

The 5<sup>th</sup> Dimensional Light Template brought Unity and Love in explicit, conscious ways: Love and value of self as a Divine Image, expressing yourself as an individual, and simultaneously beginning to know yourself as a Collective Consciousness.

This 5<sup>th</sup> Dimensional Light Template alone contributed much to your evolution as Spirit creating in form. You were able to unify further the 14-chakra system. You created the beginning stages of transforming the mental-emotional body into a function of your OverSoul consciousness.

[3:48] You were able to create a more stable Presence of Undifferentiated Light within the chakra system through Love and Unity consciousness that was present and stable in 5<sup>th</sup> Dimension.

The 6<sup>th</sup> Dimensional Light Template brought in the vast Magnetism of Source Energy. In the Presence of Undifferentiated Light, you began to draw to yourself the Magnetism of the 10<sup>th</sup> Ray of Creation. Like attracted like in this 6<sup>th</sup> Dimensional Light Template. This enabled you to amplify your electro-magnetic field of energy, especially within your mental/emotional body, so you didn't react as often. Notice that.

The 6<sup>th</sup> Dimensional Template added the consciousness that you were able to function in multi-dimensions simultaneously. The 6<sup>th</sup> Dimensional template brought another level of stability that was fluid as you expressed it. The stable fluidity was built into your creations. This allows you to create effectively and more precisely.

The 7<sup>th</sup> Dimension is the last dimension that you can experience yourself as an individual expression. It is also the last dimension where you have a physical body. As you enter the 8<sup>th</sup> Dimension, you begin to transcend the denser physical individuality and become a pure Light Body expression. The 7<sup>th</sup> Dimension is an infinite plane of refinement. The 7<sup>th</sup> Dimensional Light Template provides the consciousness of the OverSoul. And in the OverSoul consciousness, you flow in the present moment and can create in more than one dimension. This is a huge foundational piece for navigating the 5<sup>th</sup>, 6<sup>th</sup>, and 7<sup>th</sup> Dimensions.

You draw from the 7<sup>th</sup> Dimensional Template; you bring it into the 6<sup>th</sup> Dimension where you stabilize these concepts and you reinforce your awareness of yourself as a Divine Creator without limit. And then you make this consciousness available in your 5<sup>th</sup> Dimensional experience and experience the world in form. This is all done through your mental-emotional body, your intention, your thoughts, and your emotions.

The 7<sup>th</sup> Dimensional Light Template limits the interference of untransformed ego, that might be afraid to create again and again without limit. This template also provides the stability factor that limits your ability to revert back to past experiences or future events. The 7<sup>th</sup> Dimensional Light template shows you how to think with your Higher Mind, because you have the consciousness of being Divine. It shows you how to choose more refined emotions, because these emotions are needed to manifest your creation from that pure present creative position. You have more communication with your OverSoul now.

[8:26] The 7<sup>th</sup> Dimensional Light Template is a vehicle that creates the descension of the 8<sup>th</sup> chakra, which contains the OverSoul. And that already occurred within you. The Higher Mind and the OverSoul work in unison and create a more refined vibration in your body.

The three Light Templates work as a unit because together they are a very dynamic creative consciousness. This is similar to but not limited to the functioning of the 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> Rays of Creation.

The purpose of this review of the energetics that you now possess is to help you see how far you have come in the last year. This complete awareness is necessary as we embark on this year's conference. You will be required to use your multi-dimensional skills, even beyond the 7<sup>th</sup> Dimension. Everything is in place for us to gather in a Collective Consciousness and create effectively in this conference.

There is one piece that we will address in our next meeting to discuss the axiatonal lines and how we will be using them.

We felt it was important to give you this synopsis of the Light Templates and how you have made them usable in your life experience. There are other Light Templates that are yet to be retrieved from this 5<sup>th</sup>, 6<sup>th</sup>, 7<sup>th</sup> Dimension.
