

Greetings, Beloveds, It is I, Gabriel,

As we gather this evening, we ask that you be very conscious of the massive Light that is present within this Gathering, emanating from each one of you, and emanating from the vast regions of the Creative Realms that are here to witness these events. Many of the Archangels, the Ascended Masters, of course the Lords of Light are all here, gathered in this Unified Field of Light.

See how brilliant this illuminated vessel of Collective Consciousness is. It's luminous.

Now, take a deep breath....

Become very present within this Collective Gathering....

Be present in the moment.....

Focus your attention in your Sacred Heart,

drawing from that massive Holy Spirit consciousness.....

Activate your Merkaba vehicle....

See it immediately come into that 100% Light.

Match the Light, the 100% Light,

between the interior of your Merkaba field and the exterior,

into this Collective group

so that this beautiful Crucible is emanating the 100% Light.

The fields are unified and coherent,

expressing Source Light.....

Feel the shifts that are occurring in the vibrations of your physical body

in the Presence of this 100% coherent Light field.....

The rotations of the Merkaba vehicle are spinning and spinning

in a very coherent manner....

and the Crucible that we have just created is functioning coherently,

supporting this massive field of Light.....

Your consciousness is very open, receptive.....

anticipating the guidance and the energetic templates

that are to be brought forth this evening by the Triadic configuration

of Metatron, Michael, and Melchizedek.....

Feel yourself merging with this Triad,

becoming very energetically merged, unified, open, receptive..... [Short Pause]

Take a deep breath...

Be very present in this expanded state of consciousness,

but also be very present as we meet and discuss.....

Another deep breath.....
