

Greetings, It is the Collective Consciousness of Metatron, Michael, and Melchizedek.

This evening we would like to talk to you further about the 8<sup>th</sup> chakra and your OverSoul. When the descent of the 8<sup>th</sup> chakra and the OverSoul into the physical body takes place, two things occur.

The 8th chakra takes up residence in the Sacred Heart. The Sacred Heart Consciousness and the Higher Mind or Universal Mind are merged. The Sacred Heart has a more complete function and can emanate and communicate the wisdom and consciousness of the Holy Spirit Shekinah, as well as your individual Divine Holy Spirit consciousness, through the Higher Mind. This has a direct effect on the Mental-Emotional body, because the thoughts that are thought most often emanate from the Higher Mind and are directed by the OverSoul, not the ego. Understand, you still have choice in what thoughts that you will consistently think. The ego or the rational mind can still plant thoughts when there is fear, doubt, or any other negative influence that is present. This is why it is even more important that you stay very, very aware and conscious. Stay very centered in that Sacred Heart.

As the 8th chakra and the OverSoul take its descent into the body, the Medulla Oblongata function is over-lighted by the OverSoul. The Medulla center can now emanate an even more brilliant light function. This has a direct effect on the entire 2nd Triad. The Undifferentiated Light can be maintained consistently in the body. And this is an important thing to recognize -- Undifferentiated Light consistently present in the body. Undifferentiated Light is the resource from which a precise differentiated creation is manifested – by you, as the creator in a body.

Through the influence of the 4th Triad, the Crown chakra is now completely open and functioning as a receiver and also as a transmitter of Christed energy. The Central Channel of the body widens and is able to function coherently. This creates a flow of Christed Energy through the Tube Torus.

The electrical charges that originate from the 4<sup>th</sup> Triad, and also from the Indigo Flame in the Heart and Pineal center, flow consistently through the Tube Torus and the entire Unified Field. Through the influence of the increased electrical charges from the 4<sup>th</sup> Triad and the Indigo Flame that is operating in a merged energetic state, the alteration of the electromagnetic field of the body takes place. The 3rd dimensional frequency range of thought becomes unstable in this field and a 5<sup>th</sup> Dimensional thought system takes its place. This sets the usable range for the Light Body to exist and operate in perfection.

You see, a lot is happening now.

Another comment we would like to make here is in your conversation, just a few minutes ago, many of you voiced that you were having trouble articulating what was happening within your body in these axiatonal lines being very connected. You have an understanding of what was happening. What was being drawn into you in your creativeness seemed in some respects almost as if it were magical.

Understand, there is no magic here. You created this environment, Dear Ones. The Magnetics are in play. So the Universe Source Energy responds, as you draw to you very specifically what is needed in the moment. Even when you aren't completely conscious, you draw to you in this field.

Often the communication that is taking place within your system, through these axiatonal lines, is not in a specific language. It is a tele-thought communication. It comes in in these massive thought-energy patterns. You understand at the level of your SoulSpirit, but it is just very difficult to put it in a 3<sup>rd</sup> dimensional language of words, because this state of being is such a refined and massive state.

So, we wanted to mention this to you. You will find as we go on in this teaching that you will know, but to actually to put it in a language is often difficult. However, as you experience these energies, as you experience these massive transmissions of thought, that is when, through your experience, not only do you know but that you are able to articulate it better in a language, because you have brought it into the physical experience.

Now, Dear Ones, let's have a discussion. Make your comments and ask your questions, so we can expand on this topic.
