

Melainah: Aloha Everyone!

Tonight, we are going to discuss and work with the Holographic Sphere.

For those of you who did not attend the conference, the Holographic Sphere was created on our Pre-Conference call on May 30. We operated within the Sphere throughout the entire conference. And now the Triad has requested that all the Seating of the Divine classes going forward be conducted within the Sphere.

So, with the Grid Masters in assistance, for those who did not attend with us, we will introduce and bring you into the Sphere by going through the process of how we created the foundational part, which we did on the pre-Conference call, and then we will move into the Expansion of Sphere that we did on Friday morning of the conference.

Grid Masters, although you have done this and are already a part of this holographic environment, number one, take this opportunity to welcome those who are now joining us in the Sphere. And this will also be a great opportunity for us to consciously re-connect with our Group Collective with all those Great Beings of Light. And they are quite excited tonight, I can assure you.

So, as we begin, let everyone be sure that their Merkaba is operating at that 100% Frequency.

Take a deep breath..... Find your Still Point.

All of the work that has been done in The Seating of the Divine was and is to assist each of us as individuals to remember ourselves as that 12th Dimensional Christed Divine Image.

It is time for each of us not to just intellectually know it but to accept and integrate that, at all levels of your Beingness, that you are the Divine Image of The Source of all Things, residing in a physical body.....

Own It, Be It.

It is your individual uniqueness as that Christed Divine Image, along with the specific codes that each of us carry, that contributes to the ability, the stability, to the coherency, and mastery of this Collective Group, to achieve what has never before been possible.

One more deep breath.....

Close your eyes if they are still open.

So everyone together, please focus your awareness out in front of you.... Step into that space and together, let's form a large circle.....

Filling the entirety of our circle is a very large Sphere, many times taller than we are. This Holographic Sphere has been projected to us by the Triadic Collective of Lord Metatron, Lord Michael, and Lord Melchizedek... who were the primary directors of our 2017 Crystal Conference.

We are all being invited to step inside this sphere.....

Take a moment and allow yourself to feel the frequencies.....

Please say Hello --

to Lord Metatron....

to Lord Michael.....

to Lord Melchizedek....

The goal of this Sphere was to set in place the Resonant Energetics needed to bring our Collective Group into Harmonic Cohesiveness, at a much higher and refined state, as we prepared for and attended the Crystal Conference, which then enabled us to accomplish all of what had been asked of us. And now the Sphere will be used as a fertile, supportive environment for all the teachings to come.

So take another deep breath.....

[6:04] So, we began to build the Unity Consciousness of this 2017 Grid Master Collective by reconnecting with some of the places and components that we worked with in the 2016 Conference, that would be assisting us with this year's event.

Every step was designed to build the more refined energetics *inside* this Holographic Sphere.

So, with our intention and attention placed on each of these components, we brought the Holographic expression of each of these parts inside the Sphere.

So, those of you who are now joining us for the first time in the Sphere:

Place your awareness on Mother Earth.... See her in all her beauty and radiance.....

Move your attention to Earth's Merkaba.....

Bring the Holographic expression of Mother Earth with her Merkaba fully functioning into the Sphere....

Shift your attention to the crystal fields in Arkansas.... bringing the holographic energetics into the sphere.....

Do the same with the Crystalline Grid....

With your inner vision, see the Angelic Lake Portal and say hello to the Archangelics who are the Guardians there, keeping it pristine and uncontaminated.....

Now place your awareness on the 5th, 6th, & 7th Dimensional Templates that were retrieved last year... Notice how stable the grid has become... Say "hello" to the Elementals that keep it so... Bring the energetics of these Light Templates into the Sphere.....

As you are standing inside this Holographic Sphere, place your attention on your Sacred Heart... your Unified Field... including the 14-Chakra System... all four Triads... the seven Packets of Light in your DNA... the three Seed Crystals... the Recorder Cell... and the Ark of the Covenant.....

The vibration and frequency of these parts of you will increase exponentially as the energy of our Unified Group operates as One within this Sphere.

You are connected to, and a part of this Holographic Sphere 24/7. As you go about your daily activities and interact with others, you will be surrounded by your own individual bubble that is always connected to the whole.

We have been asked to consciously connect to the whole for a few minutes every day, by returning your attention to it and saying hello to this Collective and keeping the Holographic components, that are now a part of this energetic environment, active.

On Friday morning of the conference, joining us in the Sphere were many Magnificent Beings of Light from different realms, who expanded our 2017 Collective Group.

Now that you are present with us in the Sphere, open your Hearts and consciousness and feel Their energetic presence.

And as we re-introduce each one, they will step forward to greet each of us.

We welcome All the Archangels... All the Ascended Masters... All the Lords of Light... and the Elohim.... They are a part of our mission.

All the Beings of Light who joined us last year returned to assist us.

With your opened hearts, filled with love and appreciation, please greet--

The Sirian Archangelic League of Light...

The Whales and the Dolphins, who will be swimming the Light and Sound currents within the sphere...

As the Dolphins move around you, by their signature movements and sounds, they will be affecting you at a cellular level, which allows more Light frequencies to be held in your body...

The Great Whales are not only the Ancient Ones but are the record keepers of all that has occurred on this planet. Their presence will further stimulate and activate your own specific memory codes that are now needed...

As we already have a connection with the Dolphins and Whales, they will be here and available as a touchstone for you anytime you wish to connect...

Welcome to All the Elementals...

and those 12th Dimensional Beings who joined us last year from each Kingdom:

From the Element of Earth -- the Divas/the Fairies/the Elfin Beings...

Joining with us this year are the 4-leggeds of the Animal Kingdom...

and also the Highest Expression of the Mineral Kingdom...

From the Element of Air -- the Great Winged Ones...

From the Element of Water -- the Golden Dolphin and The Golden Whale...

From the Element of Fire -- the White Fire Dragon...

Can you feel the frequencies increasing?

We welcome our Star Families -- the Sirians... the Arcturians... and the Pleiadians...

The Andromedans...

Also joining us again, the 12th Dimensional Andara Collective... and those of the Crystalline Consciousness...

And the many Others, known and unknown to us, from the Collective Consciousness of Source, who continue to support us in this mission...

These Magnificent Beings are here for numerous reasons. Each one brings a specific and important vibrational frequency range, that supported us as we went through the various processes.

And as we opened the time locks, the energetics contained in these Light Templates were massive.

They held this environment stably and coherently, keeping it pristine and undisturbed, while assisting us in maintaining the ever-increasing frequency ranges that were needed for us to maneuver in. And they will now continue to so as we take our next steps...

Welcome one and all.

We are most honored to participate in this Collective Gathering with All of You.

Blessings, Everyone!

Joan: I think it's important for all of us to realize that this Crucible, this Holographic Bubble, is an integral work, a part of our Journey together, and to check in every day, just to say "Hello" and to realize that you have that around you at all times, so that in times that seem to be a little challenging, just draw from that energy, the Collective, and it will help you navigate more easily through the transitions are being asked of us at this time. Sometimes it's going to be a little challenging for us as individuals, but we always can go back to the Collective. And, with all these Great Beings beaming Light into it, we nourish ourself, so we continue to be able to keep on growing and expanding in ways that are needed.
