

John:

[Praise for our group]

Our last session started with the Triad singing our praises about the way in which we have handled the last couple of years.

[Our choice to open the 7th Dimensional Template and take on its responsibilities]

Last year we retrieved three plus Light Templates and then added three more this past conference. No small feat! We were especially pleased that everybody stood up and asked to open the 7th Dimensional Template. This Template was much bigger than anything we could have ever understood. We all agreed to take on the task and all of its responsibilities. The Lords of Light and Metatron were not sure whether we were capable to handle these refined and extensive energies, but all the Great Beings drew close with us in our Collective Sphere to support us. And a Dispensation was granted by the Lords of Light and we were able to proceed.

Now, it is our duty to implement and expand what we have received.

Is this exciting or what!!! WOW!

[Using the 5th Dimensional Template]

Next, they discussed the 5th Dimensional Template alone, which is the easiest of the three Light Templates, because our bodies are now accustomed to the flow of the 5th Dimensional energy. It is changing us at a cellular level because of the attention we have put into anchoring it with stability in our body.

[Mental-Emotional Body Unification and the Sound Currents]

In addition, our mental and emotional body is becoming unified, and a lot of you have sensed something strange going on through you. These are Sound currents that vibrate through our body when feelings are felt immediately when a thought is thought. This often happens more noticeably when we converse about this with friends of like mind. We have learned that Sound is a large part of the creative mechanism.

[Using the axiatonal lines for two-way communication with the body]

Secondly, new avenues of communication are open to us through the axiatonal lines that we have all brought on board recently. This assists us in listening to what the body is saying, such as recently it said, "REST! Now, I mean REST! No, I mean REST!" The Triad encouraged us to talk to our body, which includes our cells, our glands, and our organs, of course.

[Using the 5th Dimensional Template current of Light, Color, Sound in our Body]

The direct current of Light from this 5th Dimensional Template that we now possess can go directly into our body via Light, Sound, and Color to help upgrade it into a higher vibrational level. This is why it's so important to work with this Template at this time, because it is something that we are to use, not just hold.

[The Element of Love]

We are capable of receiving refined frequencies of consciousness at the Cosmic level. That shows us that we ARE the Christed Image. We are the creator, the vessel, and the reflector of the Element of Love and the Power of that Element to create.

[Infusion of the 6th Dimensional Template of Magnetism and now Electrical Charges]

Be aware that while working with the 5th Dimensional Light Template, it is being infused with the 6th Dimensional Light Template, where we have the Magnetism as well as the Electrical charges of Source's Creative Thoughts. The Electrical charges were added when we received the 4th Triad Energetics.

[Infusion of the 7th Dimensional Template's Collective Consciousness and Wisdom]

And now, the 7th Dimensional Template very, very, very gently begins to infuse us with a Collective Consciousness that will increase our Wisdom. Channels of our genetic lineage, not our current body but who we are as a Spirit level, will now begin to be remembered.

[Axiatonal Pathways into Inner Earth and the Cosmos]

The new pathways that we opened in the conference opens our communication into different states of star systems, into the Inner Earth communities, and into the Andromeda Galaxy that carries a 15th Dimensional state of consciousness. Again, no small thing!

[Our own Master Implants and Imprints and Wisdom]

You see, we have a lineage that we are not fully aware of yet. This awareness is being activated by the Seed Crystals and Recorder Cell. We are so much more than what was able to come into a heavy 3rd dimensional body. There are Master Implants and Imprints within us that we have accumulated over eons of time.

The bottom line here is that we have so much within us, and we are just beginning to access the Beauty and Wisdom of our Holy Universal Mind and Consciousness.

The Triad has said that there is no end to our Journey..... therefore, no rush!

We have only begun. How exciting is that!!!!!!

Imagine -- imagine what we can create in the coming years!!!!
