

[2:48] Greetings, Beloveds,

Many have gathered with you in this Collective Consciousness. Of course, we Archangelics are here; the Masters are here. The many Beings from the three Star Gates are present, as well as all of the Inner Earth communities, especially the Luminaries, who hold a more exact energetic of the original Earth energy. All of these Beloved Beings are now part of the Collective Consciousness, as you gather in the beautiful Crucible that you created when you all gathered in the Conference.

So, I invite you to get very centered in your Sacred Heart.
Take a deep breath, and let go of all the thoughts and events of this day,
and be very present in the moment.....

In this centered space, recognize that your Merkaba field is spinning at 100% Light.
And that your consciousness is fully open in that 5th Dimensional Light Template.
And that you are emanating Unity and Love at that 100 percentile rate.
Recognize your Presence in this Collective Crucible,
with all the Master Beings,
all of the Great Beings of Light
that are now part of the Collective Consciousness as you gather.

This is such an important Crucible for each and every one of you.
It helps you to expand your consciousness in a very accelerated rate.

And in times, when you are not gathered together, and you are living your individual life expression, you can always return to this Crucible, Dear Ones, and draw from the beautiful Light energies that are there for you and are fully supported with all of we Beings of Light, including you -- for you ARE a Being of Light, a very significant Being that holds a Christ Consciousness in form and is part of the Ascension process, even as much as we are. Every part of this Crucible is dedicated to this transformation and Ascension of Beloved Earth into its original state and each human embodied fully in the Spirit of Christ Consciousness.

Feel the Light... that is emanating from your Sacred Heart.
Recognize that Element of Love that is far beyond any emotion.....
Feel the building of the energies within our Crucible,
as each individual contributes to the perfection of the Light that is being created
by each Collective, each individual.

And as we gather in this Crucible, we are also gathering in the OverLighting expression
of the 9th chakra, that is part of humans' energy system.
So, we gather in this Crucible in Unity and equality with purpose and direction... [Pause]
Let us all sit together in the Quiet, in the Beauty of our expression..... [Pause]
Take a deep breath and be very conscious of yourself in this moment.....
