

PART A -- METATRON:

Thank you, All, for participating in this discussion. It's very important, these discussions, -- to create the coherence in this Collective Consciousness, in our Crucible. We speak to you, and it's important that you speak to each other and relay your experiences, even ask questions of one another. This brings an opportunity for each one of you to participate in a more individualized Master perspective, when you can answer a question or have an opinion about something that is asked, to participate in these discussions or be one of the significant voices that could answer a question that you know from your own experience how that transpired for you. These are the things that make for a very productive Gathering, a very expansive Gathering, for each and every one of you, where you become very bonded in these Gatherings. So, we would encourage you to continue in such processes.

So now, I would like to talk about the Lion's Gate. As many of you are aware, this is annual event that has been transpiring for a very, very long time. And this particular Lion's Gate is a pivotal event. This particular event will prepare those who can receive the vaster energetic Light Templates that will come with this next solar eclipse on the 21st of August. Now, we have been talking to you, a few moments ago, about the significance of receiving. So, this particular Lion's Gate, where the Sirian Star Gate that is now open because of what occurred in the Conference. So, not only is that alignment with Earth in a closer proximity, you have a channel of communication with the Beings in this Star Gate, this particular Star Gate. So, can you see why this is such a pivotal event? Because you now have the consciousness, the awareness to receive what is being transmitted from that Star Gate.

This particular Lion's Gate was affected by a partial lunar eclipse. And this causes, this partial lunar eclipse energy, causes an exaggeration that takes place in the mental-emotional body. And you need to be aware of this. I'm sure that many of you have already been experiencing these exaggerations in your mental-emotional body this entire month, because the energetics have been such that they contribute to an exaggeration within the mental-emotional body.

And it brings up old patterns and thoughts and emotions. **Understand, you can free these thoughts and emotions very simply.** It's not a long clearing process. It's just a matter of recognizing them and, with your intention, releasing them, by simply saying, "I now eliminate all thought patterns, all lower emotions that no longer serve me as a Being of Light." And then simply receive the Christ Light into your mental-emotional body, and FEEL the change that is taking place.

[5:11] This may take a little bit; it may not happen instantly, so don't be discouraged. Some of you will have that experience where it will happen instantaneously. And then again, when that surfaces and you recognize it, it may take a few hours. But don't be concerned. Don't think that you're going to have to go into some extensive clearing. That's NOT what all of these Light Energies do when you receive them. They are vast energies, and they contribute to your Christ Consciousness.

So, it's just a matter of recognizing the exaggerated expression that is occurring in your mental-emotional body and releasing it.

This particular close alignment of Sirius to Earth is a pivotal event in 2017 -- first because of the Star Gate that you opened with Sirius. It has been opened to a significant degree. And this has not been available for a very, very long time on a conscious level. Understand – you are now conscious.

Some of you used that Star Gate as you embodied, as you compressed that vaster part of your Spirit to come into a 3rd dimensional body. Others may have used the Pleiadian Star Gate or the Arcturian Star Gate, or a combination of all three for certain purposes. Now is the time, in this quiet time, to begin to remember who you are at that vaster level. And because of this particular alignment that will be present with Sirius, it makes it much easier, because the Sirians, and especially the Sirian Archangelic League, is very present in your Collective Crucible. So, it makes it a much easier navigation, a much easier connection.

Stay in that receptive state, from this moment through the solar eclipse and beyond. This will amplify your ability to receive more Light and move with ease through the continual influx of higher vibrational energies and then transmit those energies very gently into your body. It will continue to uplift the planet and all human expressions as Christed Creators, because of who you are and the way you use your energy, your Light, and operate in your daily life.

Now, I ask you to take a deep breath, and to be very conscious of all of the Archangelics. But in particular, be very conscious; sense the Presence of the Archangelic League of Sirius that is now encircling you.....

Feel the Love that is being transmitted to you at this moment.....

Feel the Unity that is within this Crucible; feel the Unity with the Angelic League of Sirius.....

[10:41] Now, take a deep breath.....

I would like to introduce you to a very special Lord of Light, who resides in the Sirian Star System and is a noteworthy member of the Sirian Archangelic League of Light.

His name is An Ra Ta: A N R A TA

Welcome Lord An Ra Ta.

Say his name.

Notice the frequencies that are within that Sound Template of his name.....

I will step aside and invite An Ra Ta to speak with you.

[12:22] **PART B – AN RA TA:**

It is I, An Ra Ta. I am a Lord of Light as well as an Archangelic Being and a member of the Sirian Archangelic League.

Now is the time that we have chosen to develop a closer relationship with you, with humans who are ready to receive us. You've created the axiatonal pathways for this communication, and you have opened those pathways in your conference. And we were delighted to receive you with open arms.

We wish to communicate and open your consciousness more directly through the energetics that we hold. We play a significant role in connecting with you and connecting you with the Beings of the Andromeda Galaxy, so they can project more viable templates of the lost Christed Images that provide humans and Earth with Master imprints that reflect specific Images that relate to creating in human form. This is important for you to recognize, dear Ones, because you are Christed Beings creating form in form. We will continually communicate with you, as will the Pleiadian Consortium and the Arcturian Confederation. These are very important connections that you have created for yourself individually and Collectively, for the Earth, for all humanity as they are ready to receive.

First, I wish to give you some valuable information about what has been occurring in these many eclipses that have taken place in the last several months of your time. Know that, when your moon blocks your physical sun, that you are entering an important creative energy. The creative energies are amplified at this time. When seen through a negative perspective by humans in denser states, they create chaos. The chaos will eventually stimulate change, because of the misery that the chaos is causing. Humans are provided with the opportunity to create change that will provide a harmonious state and relieve the pain of miscreation. This may take several years of Earth time, which has been the case.

[16:16] When the moon creates darkness, and this can be seen as an opportunity to create from the deep, dark, fertile vortex of Source Creative Energy, humans can then amplify this creative resource and create precisely from their Christ Consciousness.

Do not allow yourself to be thrown off balance through these strong creative energies. The pull of old mental and emotional patterns based in fear will surface, and, as Lord Metatron has talked to you about, exaggerated expressions in the mental-emotional body. This is a very real possibility as these massive energetics are received, because they are intended to displace those denser templates. These templates are only a sad remembrance of denser times, when darkness was feared and seen as a danger to human survival.

Each time this alignment takes place, especially during the season of eclipses, the mental-emotional body is stimulated. Be aware of this and use this opportunity to stay centered in the Light Energy that you have cultivated. This brings the mental-emotional body into a coherent 5th/6th/7th Dimensional frequency range. You have many resources at your disposal now. The Element of Love can now be used consciously.

We wish to convey to you another significant event that is happening at this particular solar eclipse. There is a re-alignment occurring in the central sun that has begun to occur at this time. As you know, the central sun that you are aware of resides in the Pleiadian Star System in Alcyone. [Transcriber note: This was pronounced in three syllables with the accent on the first syllable -- AL see on, rather than the usual four syllable pronunciation]

The Pleiadian Consortium created the blueprint of the human body in its original state, so that it could resonate with the 12th Dimensional frequency of Planet Earth, a Christed Planet – in form. This Christed form of the humans that the Pleiadians created the blueprint for had 12 strands of DNA and functioned in a 12th Dimensional state of consciousness. Because of this configuration of the body, it resonated perfectly with Planet Earth. Earth and the individual Christed form of humans was able to continually resonate and transmit Christ Consciousness, not only to the Solar System but to the entire sector of the Milky Way Galaxy.

The central sun that is a part of the Pleiadian Star System at the present time was the perfect physical expression of Christ Consciousness. It was the physical energetic source that enabled Earth and humans to transmit continually Christed Light.

[20:32] When Earth energy and consciousness of Earth declined, several events happened. As you know, first the Christed Matrix was removed from Earth and humans could draw Christ Consciousness from the central sun in a limited way. This went on for hundreds of thousands of years of Earth time. When Earth entered its final decline, because of the creations and the actions of some humans, a great cataclysm took place, and Earth was almost totally destroyed. This altered the gravitational energy and changed the Earth's orbit as well as the orbit of the Solar System.

In its original state, Earth had two physical suns: the one that you know of now, that provides Light, warmth, energy to grow and nurture all life on Earth. There is also a physical central sun that reflects a very refined physical Light Energy. This central sun relates to the physical Earth and a physical human. When the orbits of the Earth and the Solar System were significantly altered at the final cataclysm, the central sun was thrown out of an orbit and migrated to the Pleiadian Star System. It then became known as Alcyone.

There is another significant central sun that is part of the Sirian Star System. This central sun contains the energetic Light emanation of Christ Consciousness. It relates to the Spiritual body consciousness of humans and the Earth. It provides a stabilized consciousness of Christed Knowing from a Spirit level, from that vaster level.

So I am here, now, at this time, to make you aware of this central sun that contains the pure Christ Consciousness at that vast Spirit level. I ask you to realize how each of the Star Gates that you have opened have a significant role in the Ascension process. You are joining with us to provide the important openings in our Star Gates to bring Earth and humanity back to its beautiful original state -- physically, energetically, consciously.

We will be working with you often in the coming months to facilitate your remembrance of yourself and the creative energies that you possess and how to use those energies very proficiently. So, it was important that I come as a Lord of Light in these very accelerating times: the opening of the Lion's Gate which allows you to alter your mental-emotional body and bring it into a more refined, coherent functioning, just by recognizing any discrepancy or exaggeration and commanding that it be released, and then the influx of great Light from the central suns of the Pleiades and the Sirian Star Gates.

These are amplified significant times that you now navigate Earth in a body, very uniquely having the ability to express yourself in that Christ Consciousness. And we are delighted to provide further concepts, further connection, viable connections with you on a consistent basis. We are honored to be part of your Collective Consciousness at this time and will do our duty as great Beings of Light to help you come in to that, your vaster expression of a Christed Being.

[26:32] I now invite you and all of the Collective Consciousness of the three Star Gates, of the Inner Earth Communities, of the vast Angelic Realm, the Master Realm, the Lords of Light, the Elohim to create an energetic template that you as humans in a body can continually draw from.

So, please now, take a deep breath, the breath of Life.....

Life as a Christed Being,
emanating uniquely as the individual,
but also participating fully in the Collective Consciousness.

Notice the difference just in this last hour in your energetic system.....

Feel the close connection that is now developing between you as a human expression
and we Star Beings: the Pleiadians, the Sirians, the Arcturians,
standing with you,
connecting with you Heart to Heart.....

Notice the blending of our energies, that is now occurring.....

the creative influx of these energies.....
that is now taking place and being held in this Collective Crucible
that we have created together.....

Our Star System and your beautiful Planet Earth are now conjoined.....

so that a very deep transmission can now occur into the depths of Earth,
affecting the surface level of humans,
affecting the various levels of Beings that were stuck in a dimensional frequency
and unable to move... forward

That has all changed.

The Telosians are now in great Joy, for they, too, can receive,
through the axiatonal lines that you created for yourself, for Earth, and for them,
connecting in with these viable Star Gates --
two in particular that hold the amplified expression of Christ Consciousness:
The physical expression in the Pleiadian Star Gate
and that vaster consciousness, Christ Consciousness, that relates to Spirit,
in the Sirian Complex.

The Arcturians have used these resources for quite some time now and are very evolved through that 7th Dimension. There are many Beings in Arcturus who are hybrid Beings, part angelic/part human..... Some Sirian/some Pleiadians.....

There is an intermarrying of vast energy in the Arcturian complex that you will learn more about soon, so that they can help you model a more complete Ascension for yourself and for Earth.

[33:21] Every level of Inner Earth Beings are now able to resonate a more refined vibratory level within the Earth, so, as you associate your consciousness with their consciousness, that that Christ Consciousness begins to develop within and around and beyond the Earth itself.

You ARE a significant player in this creation, Beloved. Recognize the skill set that you possess. Recognize the Templates that you now hold and can use..... in proficient expression, growing continually as you receive continually from the Star Gates, which will enable you to connect into Andromeda and receive, through a direct trajectory, the Holographic Images that you then can plant on Earth, within Earth, to bring it into its original Christed energy.

This will not happen as quickly as you might desire. But know, by staying in this receptive state, you will not desire any acceleration that does not coherently represent Christ Consciousness in its perfection. So you are willing to take the steps necessary to create your part in this vast Ascension process.

We will do our part, we Sirians, the Pleiadians, the Arcturians. Each of you, each of us have been given a role in this vast Ascension process.

And it has begun..... in a most auspicious, accelerated way! Let us celebrate together this auspicious opening of the Lion's Gate, and in two weeks this most important solar eclipse.

I remind you to open that Crown and receive what is being given to you during these important times.

We thank you for participating with us this evening, for receiving us in the Love that you have received us. And it is returned wholly and completely to you. As we received it, we also communicate it to you in that vast Element of Love, so that this channel of communication will never again be broken but will remain viable for eternity.

With great Honor and Blessings, we now close this communication at this time.

Blessings, Beloveds, Blessings!
