

IMPORTANT POINTS from Session 12 on 08-08-17**GABRIEL:**

1. The Luminaries hold a more exact energetic of the original Earth energy.
2. You can always return to the Crucible we co-created at the Conference and draw from those beautiful energies that are there for you.
3. Recognize the Element of Love that is far beyond any emotion.

METATRON'S FIRST MESSAGE:

4. As we gather together in this Crucible, we are also gathering in the over lighting expression of the 9th chakra, that is part of humans' energy system.
5. Your human body is struggling to accommodate the massive Light Templates you have been receiving since January, 2017. Quiet, down time is now required. Many specific suggestions were given throughout the call as to how to use this quiet time – see the Items to Focus on and Practice document.

METATRON'S SECOND MESSAGE:

6. The 8-8 Lion's Gate is an annual event that has occurred for a long, long time. This 8-8-8 Lion's Gate this year is pivotal, because you have opened the Sirian Star Gate at the conference. You can communicate with the Beings in this Star Gate and receive what is being transmitted from that Star Gate. This particular event will prepare those who can receive the vaster energetic Light Templates that will come with this next solar eclipse on August 21. The partial lunar eclipse of 8-7 affected this Lion's Gate and has caused an exaggeration to take place in the mental-emotional body, bringing up old patterns, thoughts, and emotions. See the simple method to clear in the Items to Focus on and Practice document.
7. Some of you used the Sirian Star Gate as you embodied and compressed that vaster part of your Spirit to come into a 3rd dimensional body. Others used the Pleiadian or Arcturian Star Gates or a combination of all three Star Gates.
8. Lord Metatron introduced us to a very special Lord of Light residing in the Sirian Star System and a noteworthy member of the Sirian Archangelic League of light: AN RA TA.

AN RA TA:

[Note: The energetics of this channeling are immense and there is no way a summary can begin to transmit them. Please see the full transcription 12D of this channeling.]

1. Now is the time we have chosen to develop a closer relationship with you.
2. We play a significant role in connecting you with the Beings of the Andromeda Galaxy, so they can project more viable templates of the lost Christed Images that provide humans and Earth with Master Imprints that reflect specific Images that relate to creating in human form.
3. In a solar eclipse [as is happening 8-21], the moon blocks your physical sun, and this is a time of important creative energy. For humans in denser states, it can create chaos, but the chaos stimulates change that will eventually provide a harmonious state and relieve the pain of miscreation. This can take several years of Earth time. For everyone, these energies can bring about exaggerated expressions in the mental-emotional body, as the massive energetics are designed to displace those denser templates. [See the streamlined clearing method on page 2 of Items to Focus on and Practice document.]
4. When the moon creates darkness in an eclipse, it is an opportunity to create from the deep, dark, fertile vortex of Source Creative Energy, to create precisely from your Christ Consciousness.
5. The Pleiadian Consortium created the original form of the blueprint of the human body with 12 strands of DNA so it could resonate with the 12th Dimensional frequency of Earth, a Christed planet in form.
6. There is a re-alignment in the central sun occurring with this eclipse [of 8-21].
 - a. The central sun you are aware of is Alcyone [pronounced in 3 syllables: Al see on], in the Pleiadian Star System. Alcyone used to be a second physical sun for Earth and was the perfect physical expression of Christ Consciousness that enabled Earth and humans to transmit continually Christed Light. It relates to Christ Consciousness in physicality.
 - b. With the decline of consciousness on Earth, the Christed Matrix was removed from Earth and humans could draw Christed Consciousness from this central sun, Alcyone, in a limited way for hundreds of thousands of years.
 - c. When Earth entered its final decline, because of the creations and the actions of some humans, a great cataclysm took place and Earth was almost totally destroyed. This altered the gravitational energy and changed the Earth's orbit as well as the orbit of the solar System. The central sun, the second physical sun for Earth, was thrown out of an orbit and migrated to the Pleiadian Star System. It then became known as Alcyone.

AN RA TA, cont'd:

7. There is another significant central sun that is part of the Sirian Star System. It contains the energetic Light emanation of Christ Consciousness, and it relates to the Spiritual body consciousness of humans and the Earth, providing stabilized consciousness of Christed Knowing from a Spirit level. This Sirian central sun contains the pure Christ Consciousness at that vast Spirit level.

8. Pages 6 and 7 of Transcription 12D contains a meditation to set an energetic template for humans in a body to continually draw from. This was created, of course, from within the Crucible we co-created at the conference, the Holographic Sphere filled with Christed Light and many higher Beings, including ourselves, all of the Collective Consciousness of the three Star Gates, of the Inner Earth Communities, of the vast Angelic Realm, the master Realm, the Lords of Light, and the Elohim.

The Sirian Star System and beautiful planet Earth are now conjoined, so there is a very deep transmission into the depths of the Earth, affecting the surface level of humans and all the various levels of Beings that were stuck in a dimensional frequency and unable to move forward. This now has changed. The Telosians are in great joy, for they, too, can receive from these Star Gates through the axiatonal lines you created. Every level of Inner Earth Beings are now able to resonate a more refined vibratory level within the Earth, as that Christ Consciousness begins to develop within and around and beyond the Earth itself.

9. The Pleiadian Star Gate holds the Christed expression for the physical level; The Sirian Star Gate holds that vaster Christ Consciousness relating to the Spirit.

10. The Arcturians have used these resources for quite some time and are very evolved through that 7th Dimension.

11. Many Beings in Arcturus are hybrid Beings: part angelic/part human, some Sirian/some Pleiadians. Soon you will learn more about the intermarrying of vast energy in the Arcturian complex, so they can help you model a more complete Ascension for yourself and Earth.

12. You are a significant player in this creation. The Templates you hold and can now use grow continually as you receive continually from the Star Gates. This enables you to connect into Andromeda and receive, through a direct trajectory, the Holographi Images that you then can plant on Earth, within Earth, to bring it into its original Christed energy.

13. This will not happen as quickly as you might desire, but by staying in this receptive state, you will not desire any acceleration that does not coherently represent Christ Consciousness in its perfection.
