

[1:22] Greetings, Beloveds, It is I, Gabriel.

I come with all of the Archangels, who are present and surrounding you at this time.  
The Light energies that are emanating into your Collective Crucible are extensive.  
And we are here as part of the Collective Consciousness of this beautiful Crucible to set the energetics for this evening's teaching session.

First of all, we would like you to take a deep breath  
and get centered in your Heart center, in your Sacred Heart.....

Now, place your attention of yourself in your Merkaba field,  
which is spinning at 100% Light,  
beautiful, spinning Light.....

Now place yourself in the Collective Crucible,  
each one of you within your personal Merkaba field.  
Notice the beautiful emanations of this Collective Consciousness.  
Notice the Unity of each member of this Collective.  
There are no boundaries or limitations -- just pure Undifferentiated Light.....

Notice your energetic system, how vibrant it is, filled with the Undifferentiated Light,  
each chakra spinning in perfect resonance in your individual system,  
but also in resonance with all of the Collective that has gathered this energy.  
Notice in your personal chakra system how each chakra is spinning in such vibrant Light.

Notice the Presence of that Blue Star Tetrahedron  
that you placed in each chakra in 2016;  
how it is still vibrating, vibrant, unified;  
how the entire 14-chakra system is unified within this beautiful, massive Energy  
of the Blue Star Tetrahedron.....

You are open and receptive to these massive Light Energies  
that you are co-creating with us at this time.....

You are centered and unified.....

Now, direct your attention to the communication that is about to take place  
within that unified system of the Collective Crucible.....
