

John: Now, for a short review:

We started last session with a visit with the Collective Consciousness, but also with Metatron as a Lord of Light and the Overseer of the Ascension of Planet Earth. He came to encourage us to use the very powerful energy of the Collective Consciousness of our valuable group that gathers regularly to support each other. He mentioned how anxious the Lords of Light are to develop a Collective call that involves all of us, not just a few. This is what we started on the night of September 26, 2017.

They encouraged us to co-facilitate the use of the Light Templates that were retrieved when the Time Locks were opened during our Crystal Conference. It is our duty to bring forth the valuable teachings and Light Templates that were entrusted to us to come into form through our bodies.

They also wanted us to discuss the current teachings -- where the challenges are, where the AHA's are, and where we can find creative energies that can be used and expanded on in our everyday lives. Metatron mentioned that the first few sessions would be formed around a very brief channeled message in which they would give us some questions to start the discussion. They hope to expand on this format, so that it can develop into a full-blown open discussion.

[1:45] So, that said, we would like to open up a short discussion with you and get your comments about the first open session that we had. We would like you to make short, one- or two-sentence comments just so that everybody gets a feeling for how that session was felt.

[Note: These comments were not transcribed but are available on recording 15B. In summary: (1) Let's limit comments to a short time period so we can hear from many more people. (2) It was expansive. (3) I liked the questions we were given. (4) Nice beginning; prompted me to post on facebook. (5) A lot of enthusiasm for what is possible in this more open structure. (6) Thanks for the facebook posts. (7) Let's continue our SDI call comments via facebook.]

[5:47] Next, Metatron discussed with us the massive influxes of Christed Light that have come onto Earth during the Lion's Gate event. He made us aware that this event connected us further to the Sirius Star Gate and the Sirian Archangelic League. He also stressed the other important event of 2017, which was the opening of the access to the Central Sun's Consciousness that is within the Sirian Star System and that our Collective assisted in facilitating during our conference.

[6:26] Secondly, he discussed the other huge event which was the influx of Christed Light that took place during the August Solar Eclipse. Some of us were triggered by this event that took us back into our time in Atlantis. He advised us to take time to process this and not to panic, as we can work through this challenge with the assistance of the Crucible that we co-created during our Crystal Conference.

Next, we were gifted with the arrival of Master Kuthumi and Yeshua as the Collective of the Ascended Masters. They both spoke to us about their experiences as they walked the Earth in human bodies. They knew that sharing with us these experiences would assist us in understanding our journey.

Master Kuthumi started out by explaining the limitations he felt when he first entered his body and discovered that his Soul could not even be totally present, because of the separation of the energetics and the lack of Love. He struggled for many years, because he knew that at a consciousness level that he was so much more. Once he got his mental body healed and his emotions raised to a different expression, he began to realize who he really was. After that, his Soul descended into his body followed by his Spirit.

By the time he left his embodiment, his SoulSpirit was very well anchored in his human body as he ascended into the Realms of Mastery. Before he ascended, he was a teacher, which he has continued to be in the Master Realms -- being our Number One teacher. He explained that he knew how difficult it has been for us, but he told us that we have come far and have created a vibration in our bodies so that we are no longer in 3rd dimension.

Master Kuthumi explained to us that we have raised the body enough to have the SoulSpirit descend into it, plus the 8th chakra, the OverSoul, and the Christed OverSoul, which have descended into the Sacred Heart for us to be able to access all of them. This helped us understand that we have accomplished much and are doing very well.

Finally, he encouraged us to spend quiet, reflective time, because it is during that reflective time that we become the Wise Masters.

Next, he introduced us to our dear friend, Master Yeshua, who confided in us that he had a community of Great Beings that gave him assistance during his time on Earth, just as we, too, have such a community in our Collective Crucible. It was explained that he had a different experience than Master Kuthumi, because he came down to Earth in a 5th Dimensional body, which is similar to the body we are cultivating now through our current state of consciousness.

[9:59] As an adult, he struggled because of his environment that exhibited a 3rd dimensional state of fallen consciousness. This state of 3rd dimensional consciousness as well as that community consciousness continually bombarded him with negativity. He explained that people did not understand who he was and why he had come to Earth. His followers tried to emulate him but were not successful once they left his Presence, because of the nature of their body and their inability to hear the Voice of their SoulSpirit.

He said he wanted us to know that he was very much like us and struggled, but gradually he was able to recover his 5th Dimensional State of Being. This is how he is able to be with us now and encourage us to continue our recovery. We have a purpose, just like Yeshua, which is to resurrect our beautiful Planet. He stated that we have so much more that we can access, because the Collective Consciousness of Humans has changed tremendously since his time. He also stated that much of what he expressed was misunderstood, even to the point of some believing that he was God..... which was not is intent.

Many of the Masters struggled, just as we do. But they overcame and changed their bodies and consciousness so they could ascend. And we are right now where they were at that time.

The next subject that was discussed was the Light Packets that we placed within our physicality.

That 1st Packet has altered the 4th Strand of our DNA, in that it enlightens the physical body to hold Christ Consciousness at a Soul level. Next, a Packet was placed in the Heart chakra, so that Love of Self could transform our separation and unworthiness vibrations. This Packet is very valuable in the escalation of the body into the 5th Dimension.

Now, some of the things that they want us to remember and be aware of were --

- (1) How the root chakra has been altered, which gives us less fear and more Unity Consciousness.
- (2) There is also a change in the 2nd chakra in the way in which our creations are done in a more precise way.
- (3) And also, there is also a change in the 3rd chakra in our ability to be confident in ourselves and to know ourselves more intimately.
