

John:

Welcome to our second co-creative interactive group discussion. We have been asked to conduct this type of session as a way to build on the group Unity that we created together during our June, 2017, Crystal Conference.

First we will start with a centering meditation from Archangel Gabriel. Then we will have a message from the Collective Consciousness led by Yeshua. We will then have an open discussion with the group centered around some specific questions. We will then finish with a closing meditation. Before we have Gabriel lead us in our centering meditation, we have some announcements to make.

Well, it's that time of year again, to renew your Seating of the Divine subscription for 2018. We will be sending out the information and link to register by tomorrow afternoon. In 2018, you will be considered to be a member of Level 3. So please, only register for Level 3.

We will be integrating the Level 1 group into our group, as they are MA graduates and want to be included. Since you were the way-showers of this material and energetics, you made it possible for us to accelerate their process in the last five months. So, by the end of the first quarter of 2018, they will be pretty much caught up. This was a small group of individuals that some of you might remember from the MA conferences.

After consulting with Lord Metatron about this merger, we felt that they were conscious enough to join us. At this point, we do not know how many will actually choose to join our present Collective. We hope that you will make them feel welcome, so that this merger is harmonious and beneficial for everyone. We have some big work that we have to complete, and it will take all of us to accomplish what the Archangels and Ascended masters are giving us an opportunity to create.

On November 1, the registration for the 2018 Crystal Conference will be sent out. As you know, this conference will be held again at the Queen Wilhelmina Lodge in Mena, Arkansas. Our entire merged group will be able to be together for this important conference. When you register, you will have a link about Lodge reservations. All reservations will be taken through Joanne Pulis. Her email address and instruction in what information is needed is in the link provided, once you have registered. Of course, we encourage as many as possible to share rooms. It is much more economical and also provides the opportunity for all of us to be located in one place. Last year there was confusion in the lodge reservations and we ended up with five empty rooms. We think this process will be much easier and more efficient.

Next, the February Hawaiian Swim with the Dolphins still has some openings. Information is on the Facebook privates pages of Gridmasters, Seating of the Divine, and also a special Kona Dolphin Swim page. Contact Melainah for reservations.

They are full to capacity for the whale watch on Wednesday but have three or four spaces available for the Swim with the Dolphins Days. If we have more people interested in this event, Melainah has reserved a friend's boat for the dates of this gathering, so there is a possibility for another boat.

The dates of this gathering are Monday, February 5, 2018, through Friday, February 9. You can opt for all days on the boat or just the ones that you want to attend. It is open to partners and spouses of members of our Seating of the Divine Level 2 Group.

Registration closes December 15, as Melainah has to release the other boat if it is not needed, so that they can book other tourists. We are very excited at what might be created during this gathering.

We also wanted to let you know that we will post a summary of the Light Body work from 2014 tomorrow with the Session 15 transcripts. This was graciously contributed to us by Stephanie Anderson.

You may find it helpful as you review and remember what we did in the first round of activations. These activations were not complete, because the Time Locks had not been opened, and we did not have access to the energetics that we now have in our possession.

Remember, our current work is not about the mental processes anymore in trying to understand how everything fits together. It is about the vast energetics that we are constantly given in a precise way to elevate our bodies, minds, and Spirits into Light.

So, don't spend a great deal of time pouring over these various review transcripts trying to put it into some sort of rational sense. Briefly review what is asked of you.

Concentrate on the energetics: how they feel in your body; how your Higher Mind responds; and how active is the direction from your OverSoul and Higher Self that is being specifically directed.

Notice the changes in your consciousness, your day to day awarenesses, and how you are able to maintain a refined Light Quotient in your body as well as in your chakra system.

[6:58] **Joan:** I also would like to add that it's very important for you to notice this grand interweaving, not just of the concepts of the Light Body, the different levels, but the interweaving of these massive energetics that we are drawing from the Light Templates of 5th, 6th, and 7th Dimension and the Light Packets that we are now being able to make usable in our chakra system and in our DNA Strands.

There's so much more to come yet on this interweaving process. So, just kind of relax into it. Don't try to think about what's next, but think about the energetics. And constantly awaken your body to the sensations, the new sensations that are coming into it because of these vast energetics that we are implementing now in the body.

It's all about raising the body. We've already done the work to raise our consciousness. And we found it very frustrating sometimes, because it seemed like from time to time we would revert back to our old 3rd dimensional reactions. But then we'd right ourselves and get ourselves straight in 5th Dimensional consciousness. Well, I think with these new energetics that we will find that this happens less frequently and that we stay conscious longer.

So, I'm really excited about what's to come. And I don't like to focus so much on the future but just stay very present in the moment and use what we have, because they won't give us any more until they're sure that a vast percentage of us have this integrated. So, we're just going to move along a step at a time, however long that takes!

John: Thanks, that was great. I appreciate you adding that.
