

[6:06] **Gabriel:**

Greetings, Beloveds, it is I, Gabriel.

As an Archangel, I emanate the totality of pure Light, pure Source Light. This is who I was created to be. And I make this remark this evening, and I know many of you already realize who I AM, but in reference to the Divine Image, in reference to all of these Templates and the activations that are now progressing within this group energy to help resurrect that Christed Body and the Christed Imaging within it.

So, if you'd take a deep breath.

Let go of all the thoughts of the day.

And become very centered in your Sacred Heart.....

Within this consciousness, recognize the Presence of the Holy Spirit.....

Take a deep breath and breathe in that unified energy of Source.....

Help your body to recognize the consciousness that is available to it...

through the intercession and the influence of the Holy Spirit...

uniting with the Holy Spirit of who you ARE – that Christed Divine Image.....

Breathe in this unified expression of yourSelf.....

very present in that energy.....

Notice the energetic imprint..

Feel that Presence..

Take note, so that you recognize it always,

just as you recognize my energy signature.....

Be very present in this beautiful Crucible of the Collective Consciousness.....

All of the Beings,

every one of you as the individual expression of the Divine.....

unified in this Crucible of Light.....

Heart to Heart, Soul to Soul.....

Take a deep breath and be very present in this Gathering.....
