

[22:10] Greetings, it is the Collective Consciousness of the Lords of Light.
We are part of the Collective Consciousness of the All That Is.

We are here to present to you another stream of energy that relates to the 2nd Packet of Light that was activated in the last session in regards to the 5th Strand of DNA. This is a more complex Strand, and the Packet is more complex than you first realized, as you examined it in our last session. We will be spending a little time on the layering and complexity of this Strand of DNA and this particular Light Packet that relates to the 5th, 6th, and 7th Dimensional Light Templates that were retrieved in the last two conferences.

Today, we would like to discuss something that Metatron had relayed to this group towards the end of the last conference about the Divine Masculine and the Divine Feminine and how the separated, polarized concept would be unified, so that it would be just the Divine Image.

We would like to begin approaching this concept at a very basic level. There are seeds being planted that will be further expanded upon later. These seeds will play in the consciousness of each individual member of this Divine Image Collective consistently as each one of you travels your transformational process. This energy and the concepts will be helpful in the recognition of the layering and perspectives of the 7th Dimensional Light Templates that are within the Time Locks and the variables that are present in the 7th Dimensional state of consciousness that relate to Unity.

In the present iteration of evolution, there are 7 Light Packets. At the current level of consciousness, you have access to 5 of these Packets. Each of the Packets contains states of consciousness.

There are complexities in each Packet. Each Packet is layered energetically as well as conceptually. We may touch on certain Packets, but the total relationship and the state of consciousness will be developed over a period of time.

You have been told that in the awakening process of the Divine Masculine and the Divine Feminine that the Divine Masculine comes into your reality through the influence of the Divine Feminine. So we wish to discuss briefly how this translates to no gender -- just Divine Spirit.

The Divine Masculine has taken such a hit in its expression because of the polarities and separation consciousness that were developed so the a 3rd dimensional template could exist in the physical realm of Earth. The 3rd dimensional energy also contained a deep-seated emotion of unworthiness, less than, dominance over. This was amplified and exemplified in the masculine body types.

[26:23] When we speak of the Divine Feminine and the Divine Masculine, we are not talking about a physical bodily form. In order for the alteration to be made in the masculine body type as well as in the feminine body type, an iteration of the Divine had to come in -- but it had to come in through the Element of Love.

This is best exemplified in the creative process through an iteration of Source Energy that is considered from the fallen, linear state of consciousness, and it is perceived as feminine, because it is loving, compassionate, and intuitive. In the untransformed state, the human female often uses the body type, the gender type, and the emotions from a fragmented emotional body for purposes of manipulation. It is still a viable template where some aspects of Love and intuitive awareness or the knowing perspective is available.

It is an easy way for the fallen human consciousness and the physical brain to process such complex thought, when it comes in through the Presence of the Holy Spirit, which is totally unified. It is pure Source Spirit, having many expressions. From the doctrine of religion, the Holy Spirit at first was perceived as masculine. As the consciousness evolved, it became more feminine, such as the Holy Spirit Shekinah. The Holy Spirit was always from the perspective of the gendered body type, the linear, fallen concepts and was often totally misunderstood.

As Humans evolved and have a different state of consciousness available to them, we use the feminine aspect that is perceived as the Divine Feminine, which is an aspect of Source energy. Source energy is pure Divine Energy and has no gender, only many, many complexities and expressions. It can be better comprehended from the lower states of consciousness by giving it a gender type. This enables a few of the more evolved energies and concepts to be accepted into the body consciousness as well as into the mental-emotional body. The Divine Source Energy and conceptual thought can then be processed through the brain. Keep in mind that the Divine Feminine and the Divine Masculine is always a part of and totally unified in the Presence of the Holy Spirit. It is pure Christ Consciousness. We have utilized both the fallen consciousness and the more evolved consciousness to escalate pure Christ Consciousness.

The gendered fallen masculine body must begin to recognize the importance of the emotions, the feeling capacity in the body through the emotions. Those Beings who are in possession of a masculine body must understand that what is created in their reality is developed through the emotional body. This takes recognizing that within themselves, within their body, lies a feminine influence as well as a masculine influence.

This holds true for those who occupy a feminine body. They become assertive but not aggressive. They can direct their thoughts and emotions precisely, so they are not scattered but are in that precision.

[31:00] Each individual has challenges because of gender that relates to separation and that dense 3rd dimensional body. What you are seeing in your world now calls upon each one of you to be in a balanced state in regards to their gendered body type, bringing Unity back to the body and eliminating the separation paradigm from the consciousness of the body.

What is transpiring now is those who refuse to see the influence of the polarities that are taking place in each body type. These polarities have existed and you are called upon to unify the Divine Feminine and Divine Masculine influences that you now have access to. You have to recognize what is out of alignment, what is surfacing to be changed and unified, so there is respect and value of each individual expression, regardless of the gender type. You will see a lot of things surfacing that magnifies the misaligned fallen consciousness.

Here is a point relating to equality that is not fully understood. Every individual is unique in the way that they express themselves in the Earthly realm. They are unique in their abilities, their states of consciousness, and in the way they navigate the Earthly experience. Not all are equal. They are unique and should be valued for what they contribute to humanity. All that has been hidden is now being shown so that the changes can be made.

Every one of you must recognize the need for unification of the feminine and the masculine. It is through the placement of this 2nd Packet of Light into the 5th Strand of DNA that Unity consciousness begins to be seated. Within the 2nd Packet are two Light Templates of 7th Dimension that were retrieved from the Time Locks. This is just the beginning. What is happening now is that the seeds of unification of Source Energy are being planted. Each individual now has capacity to express the Divine Image from a beginning state of Christ Consciousness.

This also relates to and brings into the consciousness where the wounding has occurred in this current lifetime, so that the wounding can be healed and all of the restrictions and the misaligned templates that are connected to that wounding are released and healed. As the variation of this Light Packet that contains the 7th Dimensional Consciousness of pure unified Source Energy is inserted into the DNA, this is the time to address the unification of the masculine and the feminine. The wounding both in the masculine and feminine has limited your ability to create and be consciously aware of yourself from that unified perspective, as a Holy Spirit. When it is inserted into the 5th Strand of DNA, it gives each individual a much broader perspective of themselves as pure Source Divine Energy. Each individual can draw from the 7th Dimensional Light Template that is part of the 2nd Packet of Light. It has a strong influence in the Unity Consciousness.

[35:42] The 5th Dimensional Light template that is very present in the 1st Packet of Light relates to the pure Love Element and the stability of the 5th Dimension.

This is a very important energetic that is being seated in the body through the 5th Dimensional DNA Strand that alters the consciousness as well as the consciousness of the body.

The energetics are now very present in the 5th Strand of DNA. It also contributes to the further activation of the present Light Body. This iteration of Light Body that is being activated relates to the 5th Dimensional state of consciousness in its totality, which means Unity and Love. That requires Light Packets. It requires Light Templates to come out of the Time Locks, and it requires a stimulation of the physical body, so the consciousness can be held within that physical body.

This is the role of those DNA Strands. The activation of the DNA Strands alters the body substantially. The activated DNA Strands make it possible for the cellular and molecular composition of the physical body to be altered. A 5th Dimensional physical vehicle is necessary to continue the evolutionary and ascension process.

This, for now, is a lot for you to take into your consciousness, even though it's at a very basic level. So we will not continue on with this information. We will allow you to assimilate and comprehend at all levels of you, of your individuality -- in your body, for the body to start to comprehend, for the mind/the brain to start to process these concepts that are very complex and layered. So time must be allowed for this integration, for you to unify it within yourself, within your individual body and within your consciousness.

So now, we would like to invite you to participate in a conversation and to ask any questions that might have arisen that relate to this teaching. So, we will open it up for this discussion and for any questions.
