### **Review of November Teachings from 19B:**

During the last session, we were presented with another stream of energy that relates to the 2<sup>nd</sup> Packet of Light that was activated in the last session in regards to the 5<sup>th</sup> Strand of DNA. This is a more complex Strand, and the Packet is more complex than you first realized, as you examined it in our last session.

The Lords of Light spent some time on the layering and complexity of this Strand of DNA and this particular Light Packet that relates to the 5<sup>th</sup>, 6<sup>th</sup>, and 7<sup>th</sup> Dimensional Light Templates that were retrieved in the last two Conferences.

Metatron communicated to this group, towards the end of the last Conference, about the Divine Masculine and the Divine Feminine and how the separated, polarized concept would be unified, so that it would be just the Divine Image.

There are seeds being planted that will be further expanded upon later. These seeds will play in the consciousness of each individual member of this Divine Image Collective consistently, as each one of you travels your transformational path. This energy and the concepts will be helpful in the recognition of the layering and perspectives of the 7<sup>th</sup> Dimensional Light Templates that were within the Time Locks and the variables that are present in the 7<sup>th</sup> Dimensional state of consciousness that relate to Unity.

In the present iteration of evolution, there are seven Light Packets. At the current level of consciousness, you have access to five of these Packets. Each of the Packets contains states of consciousness. There are complexities in each Packet. Each packet is layered energetically as well as conceptually. You have been told that, in the awakening process of the Divine Masculine and the Divine Feminine, that the Divine Masculine comes into your reality through the influence of the Divine Feminine. The Lords of Light discussed briefly how this translates to No Gender – just Divine Spirit.

The Divine Masculine has taken such a hit in its expression because of the polarities and separation consciousness that were developed so that the 3<sup>rd</sup> dimensional template could exist in the physical realm of Earth. The 3<sup>rd</sup> dimensional energy also contained a deep-seated emotion of unworthiness, less than, and dominance over. This was amplified and exemplified in the masculine body types.

In order for the alteration to be made in the masculine body type as well as in the feminine body type, an iteration of the Divine had to come in – But it had to come in through the Element of Love. It is an easy way for the fallen human consciousness and the physical brain to process such complex thought, when it comes in through the Presence of the Holy Spirit, which is totally unified.

It is pure Source Spirit, having many expressions. From the doctrine of religion, the Holy Spirit at first was perceived as masculine. As the consciousness evolved, it became more feminine, such as the Holy Spirit Shekinah. The Holy Spirit was always seen from the perspective of the gendered body type, the linear, fallen concepts, and was often totally misunderstood.

Keep in mind that the Divine Feminine and the Divine Masculine are always part of and totally unified in the Presence of the Holy Spirit. It is pure Christ Consciousness.

Each individual has challenges because of gender that relate to separation and that dense 3<sup>rd</sup> dimensional body. What you are seeing in your world now calls upon each one of you to be in a balanced state in regards to your gendered body type, bringing Unity back to the body and eliminating the separation paradigm from the consciousness of the body. You need to recognize what is out of alignment, what is surfacing to be changed and unified, so there is respect and value of each individual expression, regardless of the gender type. You will see a lot of things surfacing that magnifies the misaligned, fallen consciousness.

Here is a point relating to equality that is not fully understood: every individual is unique in the way that they express themselves in the Earthly realm. They are unique in their abilities, their states of consciousness, and in the way they navigate the Earthly experience. Not all are equal. They are unique and should be valued for what they contribute to humanity.

What has been hidden is now being shown so that the changes can be made. Every one of you must recognize the need for unification of the Feminine and the Masculine.

It is through the placement of this 2<sup>nd</sup> Packet of Light into the 5<sup>th</sup> Strand of DNA that Unity Consciousness begins to be seated. Within the 2<sup>nd</sup> Packet are two Light Templates of the 7<sup>th</sup> Dimension that were retrieved from the Time Locks. This is just the beginning.

What is happening now is that the seeds of unification of Source Energy are being planted. Each individual now has the capacity to express the Divine Image from a beginning state of Christ Consciousness. This also relates to and brings into the consciousness where the wounding has occurred in this current lifetime, so that the wounding can be healed and all of the restrictions and the misaligned templates that are connected to that wounding are released and healed. As the variation of this Light Packet that contains the 7<sup>th</sup> Dimensional Consciousness of Pure Unified Source Energy is inserted into the DNA, this is the time to address the unification of the Masculine and the Feminine.

The wounding both in the Masculine and Feminine has limited your ability to create and be consciously aware of yourself from that unified perspective as a Holy Spirit. When the 2<sup>nd</sup> Light Packet is inserted into the 5<sup>th</sup> Strand of DNA, it gives each individual a much broader perspective of themselves as pure Source Divine Energy. Each individual can draw from the 7<sup>th</sup> Dimensional Light Template that is part of the 2<sup>nd</sup> packet of Light. It has a strong influence in the Unity Consciousness.

The 5<sup>th</sup> Dimensional Light Template that is very present in the 1<sup>st</sup> Packet of Light relates to the pure Love Element and the stability of the 5<sup>th</sup> Dimension. This is a very important energetic that is being seated in the body through inserting the 1<sup>st</sup> Light Packet into the 4<sup>th</sup> Strand of DNA. This alters the consciousness as well as the consciousness of the body.

The same 5<sup>th</sup> Dimensional energies that are in the 1<sup>st</sup> Light Packet are also present in the 2<sup>nd</sup> Light Packet. The energetics that are now very present in the 5<sup>th</sup> Strand of DNA contain a precise version that is needed for the fuller activation of the Light Body. This iteration of Light Body that is being activated relates to the 5<sup>th</sup> Dimensional State of consciousness in its totality, which means Unity and Love. That requires Light Packets. It requires Light Templates to come out of the Time Locks, and it requires a stimulation of the physical body so that the consciousness can be held within that physical body.

This is the role of those DNA Strands. The activation of the DNA Strands alters the body substantially. The activated DNA Strands make it possible for the cellular and molecular composition of the physical body to be altered. A 5<sup>th</sup> Dimensional physical vehicle is necessary to continue the evolutionary and Ascension process.

I would like to continue with a short review which covers the tremendous volume of information that we were exposed to during this year. I think you will be surprised!!!
