

Greetings, Beloveds, It is I, Kuthumi.

I am here as an individual expression of the Collective Consciousness of the All That Is, of the Master Realm, as well as the Archangelic Realm.

Tonight, as that individual Master expression, I wish to converse with you about some of the things that John has just said in regards to applying these different technologies with Ease.

First of all, there is a lot of expansion taking place within the Rays of Creation, not that they needed expansion, but the expansion that I speak of is the expansion in your ability to use them more proficiently. You had a basic level of information, energetics at the very beginning, as the Archangels directed you in what these Rays were and how they were used. Because of the positioning of certain time locks that were put in place during the fall of consciousness, certain templates were not available that are very important in these Rays of Creation. But there was a protective mechanism put over these Rays of Creation, so that, in this fallen state of consciousness, humanity would not create any further cataclysmic event that would be detrimental to the well-being not only of humans but the ability of Earth to sustain herself.

These time locks were positioned, and as they were positioned, they limited your ability to create differently or outside of that 3<sup>rd</sup> dimensional time sequence, the 3<sup>rd</sup> dimensional template. But now that these time locks are opened, it's a huge shift in your ability to use the Rays of Creation. Our intention is to show you along the way how these templates have impacted your ability to use the Rays of Creation very proficiently. And more will be given as time goes on, as you learn about the different applications that now are available to you.

Last we met, I spoke to you in particular about that 7<sup>th</sup> Ray of Creation that many of you were very interested in. And I have spoken to you about the 8<sup>th</sup> Ray, as well as the 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> Rays. But now, as you have heard, these Rays of Creation operate as a unit, part of this Unity Consciousness that is now available, now that you are able to step into that 5<sup>th</sup> dimensional template of Unity and Love and sustain it pretty stably. You very rarely fall out of that. And when you do, you know it immediately, and you shift, and you are there again.

The template that was retrieved, that 5<sup>th</sup> dimensional template, was a crucial template, as were all four of those. But this stability piece that we have asked you, time and time again, to pay attention, to stabilize 5<sup>th</sup> dimension and the usability of that dimension, so that it is replicated, time and time again, in your daily life. So that brought us into the Rays of Creation, and most importantly, within these three Rays, the 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> Ray, because they pertain to creating form in form, which means there is a great alteration taking place within your body. As you have shifted your consciousness into 5<sup>th</sup> dimension, your body is in great change, bringing it into that 5<sup>th</sup> dimensional sequence and out of that dense 3<sup>rd</sup> dimensional configuration.

So, the stability of that 5<sup>th</sup> dimensional template is a very important template that needs to be implemented with every creation. It needs to be focused in your conscious awareness, so that as you create with the 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> Ray, you do so with the implementation of that 5<sup>th</sup> Light frequency of stability that you have retrieved from the time lock, so that your creations are replicated in that 5<sup>th</sup> dimension of Unity and Love, not just consistently, but they're replicated time and time again in that stability, so that the 5<sup>th</sup> dimension becomes very anchored, not just in your consciousness but in your body and in the Earth.

This is a crucial part of your evolvment and needs to be focused on consistently. That 3<sup>rd</sup> dimensional template is not very usable any more. This 5<sup>th</sup> dimension is becoming more and more not only usable but applicable, and it replicates now with your intention and attention consistently and very, very stably.

Not only that, this 6<sup>th</sup> and 7<sup>th</sup> dimensional template, Light template, is also very significant, because it escalates you further. Not only does it add that magnetic piece, that is very crucial in this stabilization of 5<sup>th</sup> dimension, because this Love Element is magnetized to you from Source, and there's no discrepancy in that magnetic pull that is consistently created. So you are drawing that Element of Love; you are drawing Unity Consciousness to you in each and every creation that you create. So it's replicated in the 5<sup>th</sup> dimension very, very stably, because it's based in Love.

That compression mechanism that you know so well – you are able to draw that 7<sup>th</sup> dimensional Light template, compress it and make it usable in 5<sup>th</sup> dimension. It heightens the frequency of your creation.

The 7<sup>th</sup> dimension is a massive, expansive, creative dimension. There is only one template out of all that 7<sup>th</sup> dimension that is now available to you, and it has to do with the magnetics, but it has to do with amplifying the 5<sup>th</sup> dimensional template stably and replicating it concisely each and every time, because it is influenced by that magnificent 7<sup>th</sup> dimensional frequency. And it heightens and expands your 5<sup>th</sup> dimensional awareness.

So these are the things that are in play right now. Needless to say, many of you have felt a lot of upheaval in your space. Is it any wonder, with all of this going on simultaneously? It affects the body; it affects the mental-emotional body.

And let's talk a little bit about that mental-emotional body. We have told you time and time and time again that it was so fragmented that you could not even imagine. You are rebuilding a mental-emotional body in a 5<sup>th</sup> dimensional frequency range, taking it out of all of that separation and bringing it into Unity and Love. This takes time, because the body is in a huge transition. And that mental-emotional body is part of your physicality. So it is just not there yet.

So that's why we continually go back and reinforce it, time and time again, with these new templates, with the infusion of that 7<sup>th</sup> dimensional template, the 6<sup>th</sup> dimension, and the 5<sup>th</sup> dimension, making it a little more stable, so that your thoughts that are thought are consistently clear, Christed thoughts, and your emotions stem from that more refined level.

So, eventually, as your ability to maintain your thoughts and emotions consistently from a refined level of Christed thought, you will not have to continually relook at some of the anomalies that surface or trigger points that throw you back into an old pattern that you're having to reorganize and re-stabilize in the 5<sup>th</sup> dimensional format.

So, we encourage you to move slowly. It's not in the doing, it's in taking what you have and being it to the best of your ability. Some days you fall a little short. Do not fall into judgment, Beloved, because it hinders you greatly. Judgment hinders you in maintaining that state of Love on a consistent basis, because it has to start with you. That Element of Love that you felt in such comfort in this meditation that Gabriel led you in – this is the state of being that we're talking about, where you are very, very aware. And even when you're triggered, you see it immediately. And you don't react, you choose.

So I am just here to reinforce some things for you this evening and tell you and encourage you, because there is a vast amount of information that gets transmitted to you. And all of the pieces and parts are not in play. We're drawing them together, pieces such as Color Codes, pieces such as the Rays of Creation, and expanding on those. So it's going to take several months to get all those pieces in play to where you see a pattern to it. And you then begin to understand how they all work together.

Now, in this 8<sup>th</sup>, 9<sup>th</sup>, and 10<sup>th</sup> Ray, those Rays also work together, but none of the Rays are separate from one another. The first three are always within every single Ray. It stands to reason why that is, because they stem from Source – they are pure Source energy.

So, you have begun to see a little beyond into the more creative parts of Source energy. And many of you are remembering: "There is something about this Flower of Life I have to remember; there is something about this Cube that I know that I know, but yet I can't remember." So this is what is coming forth now, now that we have kind of brought you through the first six Rays and continually reinforced that. We have interjected these templates that you have recovered from the time locks and made those more usable.

Now, we're going to start to look at the massiveness of the Flower of Life and Metatron's Cube. So, in order to touch on this, we aren't going to go in great depth this evening, but Metatron is here to speak with you about that, so that you understand that what you are remembering is absolutely so, that your mastery is returning to you.

I thank you for receiving me this evening, and I will step aside to allow Lord Metatron to speak with you.
