

JOAN: And center yourself in your Sacred Heart, being aware of yourself in your Merkaba field at 100% Light. Now, let us welcome Gabriel.

GABRIEL:

Greetings, Beloveds, It is I, Gabriel.

I AM part of your Collective Consciousness and I am with you this evening as Light and Love of the Creative Source. In this Light and Love our energetics are very coherent. We match, each of us individually and Collectively. The Light that we generate is a massive force of Source Energy that influences the Earth, the Elemental Kingdom and Humanity.

There are two things that you should recognize this evening.

Number one – that when you gather together in this manner with us in a full Unified Field of expression, your Merkaba field automatically activates at 100% Light, because that is the intention when you gather. That is our intention when we gather with you to express our Light and our Love – to BE it in that full expression, emanating it through the Merkaba fields, emanating that Christed Energy very precisely. It is not limited by personality or any anomaly of any kind. You're pure Light in this Collective Consciousness, in the Gathering.

Your chakras are spinning, all fourteen chakras are spinning very coherently within this field of Light. There is calmness and a harmonious expression of yourself as Divine, the Divine Essence of the All That Is..... What a beautiful expression of Light! What a beautiful expression of yourself as Love! Feel the Joy that you are experiencing at this moment in this Collective Consciousness.....

Now, within this beautiful Love and Light Imagery, begin to focus a portion of your consciousness back to this gathering point, where we can begin tonight's session. [5:40]
