

7th dimension

1. Fill in intentions and supporting lines
2. Remember and bring in the **White Star** and personal **merk-kah-bah** bring in that **5th element of love** and **unity consciousness**
3. Remember and bring in the **7th dimensional template of light** (retrieved at the crystal conference) Bring in **Kryons magnetic template from the earth** remember that magnetic template draws light to light

4. Bring in **undifferentiated source light** and **undifferentiated source magnetics** to the 6th dimensional interface where it's compressed so it can become "usable" in the 5th dimension

Note: You now have a template of pure source light and energy and also pure undifferentiated source magnetics that are contained in the 10th ray of creation. This is all available through the 7th dimensional gateway

5. Now you have a compressed form of magnetics and also the 7th dimensional light templates into the 6th dimension and then into your precise intention and geometry

5th dimension

Use 4th, 5th and
6th ray
applies to physical

This creates a physical environment that allows these vast source energies to be used in your creative stability and fluidity. These energetic templates draw to you what your requesting because you are light and draw light to light "through" your intention, then organize and make these possibilities precise and coherent in the 5th dimension by using the 4th, 5th and 6th rays of creation and then apply what you have created through the electromagnetic field of the 4th ray, through the electromagnetics of your body and of the earth for manifestation in your physical world you are now finished. Now don't forget to check-in with your creations, often.
