

SUMMARY OF METATRON'S MAGNETIC 7TH DIMENSIONAL PROCESS OF CREATION

A. IN A 5TH DIMENSIONAL STATE OF CONSCIOUSNESS, CREATE A VERY PRECISE INTENTION INFUSED WITH THE ELEMENT OF LOVE AND UNITY CONSCIOUSNESS

(1) Create a 5th dimensional environment and don't create unless you are in this space.

Keep your personal Merkaba at 100% and pay attention to your frequency range.

(2) Create a very, very precise intention and infuse it with Love and Unity Consciousness:

You may want to create a triangle with the intention in the center,

the bottom leg holding a foundational energetic support for the intention

and the other two legs carrying energetic support for the bottom leg.

To receive information on what triangle to create, you may want to put your attention point

in your Merkaba in the infinite space of possibilities between the two stationery spheres

which are outside the three spinning Star Tetrahedrons

If you are clearing something, have you found the root cause underlying the issue?

If you are clearing, what creation will you replace what you are clearing with?

Does your Intention need to be adjusted or made more precise?

Infuse your Intention with the Element of Love and Unity Consciousness, which you

can draw from the White Star Tetrahedron of your Merkaba

B. DRAW INTO THE 6TH DIMENSIONAL INTERFACE AND COMBINE

(a) THE 7TH DIMENSIONAL TEMPLATE OF LIGHT RETRIEVED AT THE CONFERENCE

(b) THE NEW MAGNETICS FROM SOURCE SEATED INTO THE CRYSTALLINE GRID

(c) YOUR TRIANGULAR INTENTION INFUSED WITH THE ELEMENT OF LOVE & UNITY

(3) Access the 7th dimensional template of Light and draw it into the 6th Dimension

(4) Next, call upon the 10th Ray of Creation:

Bring the portion of this Ray dealing with the Undifferentiated Magnetics of Source

into the 7th Dimensional Template of Light retrieved at the Crystal Conference and

then draw it through the gateway available in that 7th Dimensional Template and

into the 6th Dimensional Template of Light.

(5) Draw your precise triangular Intention into the 6th Dimensional Template of Light

(a) Infuse your triangular Intention with the 5th Element of Love & Unity Consciousness from your White Star Tetrahedron

(b) Draw this triangle of Intention into the compressed 7th Dimensional Light template which is now in a compressed state in the 6th Dimension

(c) Infuse your triangular Intension with the compressed Magnetics

which are now in a compressed state in this 6th Dimension,

(These Magnetics stabilize your Intention in a fluid manner easily altered at any time,

and these Magnetics draw to you what you are requesting)

C. PLAY WITH THE 6TH, 5TH, AND 4TH RAYS OF CREATION, THEN PUT IT INTO EFFECT

- (6) Now move into the 6th Ray of Creation your triangular Intention which is combined with the compressed Light & Magnetism, the Element of Love, & Unity.
- (7) Become aware of all the infinite possibilities in the 6th Ray of Creation and of detailed ways to put this Intention into effect in your daily life on Earth.

(In doing this part, you might sometimes find a need to revise your Intention also! If that were to happen you simply loop around and redo the process with the revised Intention.)

- (8) Then bring the possibilities for implementing your Intention into the 5th Ray and organize and make these possibilities precise and coherent. You may send possibilities back to the 6th Ray and/or bring in more from the 6th Ray into the 5th Ray work space for organization.
- (9) When you are satisfied with your creation in the 5th Ray, bring it into the 4th Ray and actually apply what you have created for manifestation in our physical world through the electromagnetic field of the 4th Ray, through the electro-magnetics of your body, and the electro-magnetics of the Earth

Applying your creation may involve energy work you do using our tools, requesting assistance from other Beings, and actual changes and activities you must do in your everyday world.

What would be your first step to follow up on this creation?

And be sure to check in energetically on your creation every few days and quickly re-infuse it with the Element of Love, Unity Consciousness, and the Light and Magnetism from Source.
